Anton is russian designer.  
He is not very famous.  
But his fans love him very much,,,

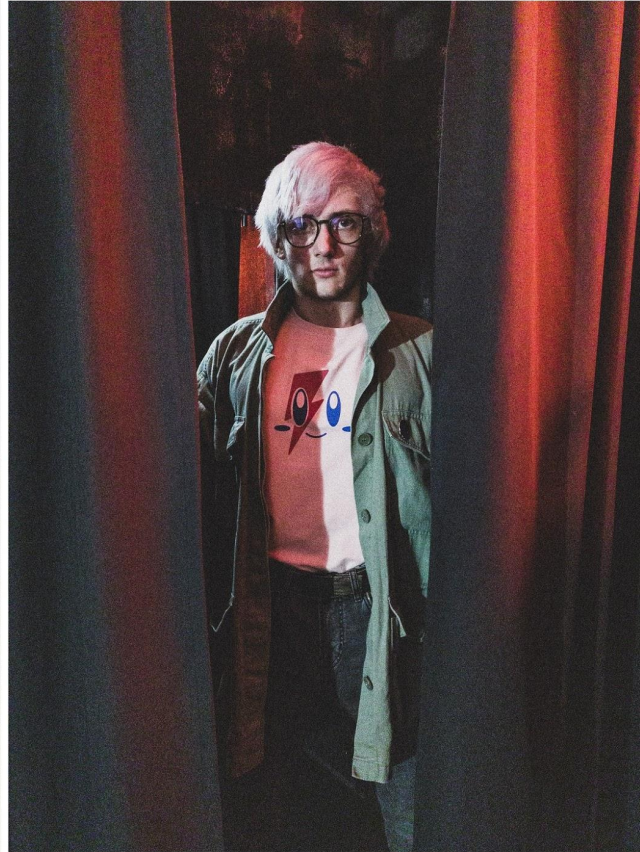

He owns brand named AN.WEARABLE  
Well, people can wear his clothing

Style of his designs is somewhere between gothic and punk.

Most of his units have avant-garde and arthaus designs.

Most of his designs have small details of rock, punk, pop music of 90s.

Artists and bands like David Bowie, Metallica, Depeche Mode, Moody Blues or King Crimson.

His designs are quite ambitious and I believe he'll become quite famous.
