

Hello my friends,
today I'd like to tell you about the history of
YouTube
and about that you can do there.

History

YouTube was created in February 2005 by Steve Chen, Chad Hurley and Javed Karim. They used Flash Video technology, which allows you to get good recording quality and a small amount of transmitted data.

In November 2006, Google bought YouTube for \$ 1.65 billion.

YouTube is a site where you can watch videos, like them and share them with friends. Also you can also make videos yourself and publish them.
