

Dear guests,
Welcome to one of the best schools in
Lviv!

**This is Yuri Streltsov,
he's
our director.
He is patient, honest and
fair.**

**Our school is not very big.
It's a modern three-storeyed building of a
typical design.
Behind of the school there is a big
sports-ground.**

When you enter the school you will see the cloak-room. On the left there is a canteen.

We have many different subjects at school. We study Science, Maths, History, Ukrainian language and Literature. We learn foreign language too. It is English, of course.

English is very important as it has become the most used language in politics, science, trade and cultural relations in the world.

We speak English a lot, but we also read texts from our textbook.

There are also classrooms for young learners in our school. They are decorated with large posters and different things made by our schoolchildren.

**Our teacher of English is Iryna
Fedorovna. She is young and
energetic, and she has a good
command of the English
language. She does her best to
make our English lessons
interesting**
