

A lush, dense rainforest scene with a thick canopy of green foliage. Large ferns and moss-covered branches are visible in the foreground, while tall trees and misty air fill the background. The word "RAINFOREST" is overlaid in the center in a bold, yellow, sans-serif font, underlined.

RAINFOREST

TROPICAL RAINFORESTS GROW IN THE HOT, WET, HUMID PLACES NEAR THE EQUATOR

TROPICAL RAINFORESTS
RENEW THE EARTH'S SUPPLY BY
ABSORBING CARBON DIOXIDE
AND PRODUCING OXYGEN

**TROPICAL RAINFORESTS ARE
IMPORTANT TO WILDLIFE BECAUSE
THEY PROVIDE A HOME TO
THOUSANDS OF ANIMAL SPECIES**

QUININE AND ASPIRIN COME FROM TREE BARK

**WE CAN WRITE A LETTER TO
POLITICIANS IN COUNTRIES
THAT HAVE RAINFORESTS TO
ASK THEM TO STOP ALLOWING
THEM TO BE CUT DOWN AND
REFUSE TO BUY FURNITURE
MADE WITH WOOD FROM
RAINFORESTS**
