

$8 + 5 =$

$12 - 8 =$

$6 + 9 =$

$17 - 9 =$

$$8 + 5 = 8 + 2 + 3 = 13$$

$8 + 5 = 13$

$12 - 8 =$

$6 + 9 =$

$17 - 9 =$

$$9 + 6 = 9 + 1 + 5 = 15$$

The diagram illustrates a mental calculation strategy. At the top, the equation $9 + 6 = 9 + 1 + 5 = 15$ is shown. The numbers 6 and 1 are each connected by a black arrow to their respective components in the equation below. Below the equation, there are three brown rectangular boxes. The first two boxes contain the numbers 1 and 5 respectively, corresponding to the decomposition of 6. The third box contains the number 10, which is being added to 9 to reach the final sum of 15.

1 5

10

$8 + 5 = 13$

$12 - 8 =$

$6 + 9 = 15$

$17 - 9 =$

$$12 - 8 = 12 - 2 - 6 = 4$$

2 6

10

$$17 - 9 = 17 - 7 - 2 = 8$$

7

2

10

«Радуга»

$$8 + 2 + 5$$

и реши пример.

$$8 + 7 = 15$$

$9 + 1 + 8$

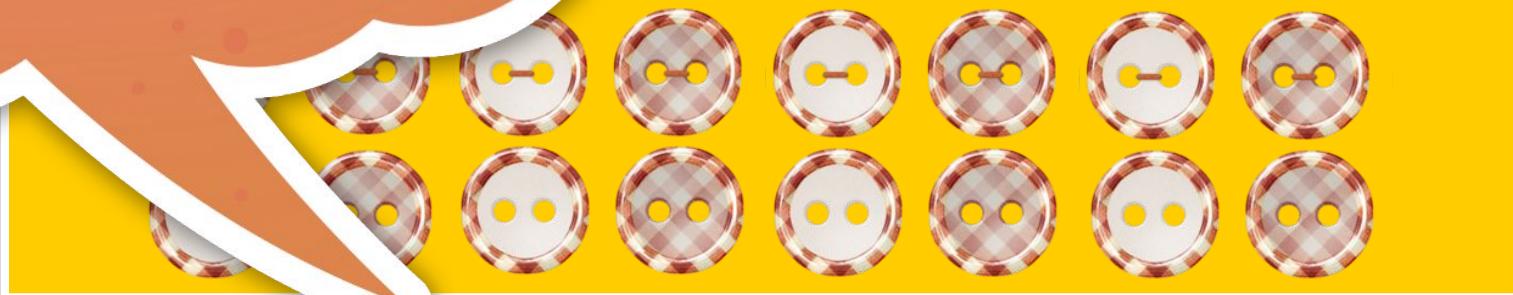

$17 - 7 - 2$

$17 - 9 = 8$

$9 + 9 = 18$

$16 - 6 - 2$

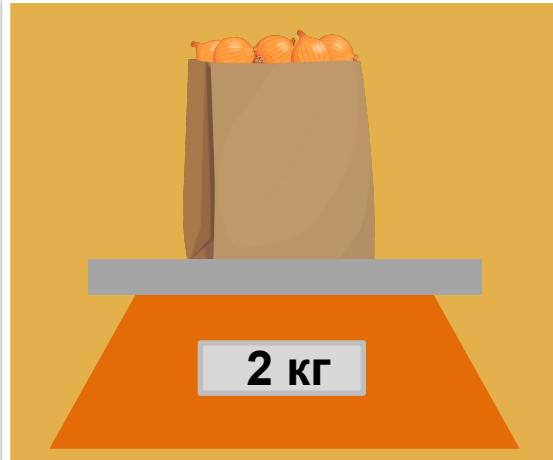

и задачу на вычитание.

$$\boxed{16} - \boxed{8} = \boxed{8}$$

$$11 - 1 - 1$$

На
сколько
тяжелее
?

$$\boxed{1} \ \boxed{1} - \boxed{2} = \boxed{9}$$
