

HAPPY BIRTHDAY

Welcome! I need you to host a birthday party! You have a \$500 dollar limit. You need to include at least one item from each category: sweet treats, decorations, drinks, games and food. There will be 25 people at your party. On the Final Party Page, you will copy and paste each picture that you put in your party onto the slide so it shows all of your final decisions. You will have to subtract each cost on the last page of the money ledger. You might have to change it if you run out of money! After you finish it, please share it with me. I can't wait to see your party!

Food

Taco Bar \$225

Pizza \$75

Pasta \$150
