

The metal plate can hold up to 24 words, 1 to 12 on the front and 13 to 24 on the back.
Using the included automatic center punch, punch permanent dots on the squares corresponding to the first 4 letters of each word of your seed phrase.

The BIP 39 word list is comprised of 2048 words between three and eight characters. In this list, the first 4 letters are unique to each word.

That means if you have the first 4 letters, you know the rest of the word by looking for those first 4 letters in the [BIP39 wordlist](#). Some wallets will fill in the rest of the word once the first 4 letters are entered.
