Manage VNC Shadow Settings

The image shows a screenshot of the ThinPro Control Center in Administrative Mode. The window title is "ThinPro Control Center (Administrative Mode)". The interface features a dark blue background with a red header bar containing the HP logo and the text "Control Panel". Below the header, there are several tabs: "Peripherals", "Setup", "Personalization", "Management", and "Advanced". The "Management" tab is currently selected. The main area displays a grid of icons for various management tools: "Altiris Configuration", "Easy Config", "Easy Deploy", "Easy Update", "Factory Reset", "HP Automatic Update", "HPDM Agent", "SSHD Manager", and "ThinState". A mouse cursor is hovering over the "VNC Settings" icon, which has a tooltip that reads "Manage VNC Shadow Settings". On the left side of the interface, there are three additional icons: "Connections", "Control Panel", and "System Information".

ThinPro Control Center (Administrative Mode)

**Shadowing**
