

The faculty of training foreign students

Made by:

**Koksharova Elena,
the ninth group
of the medical faculty**

The teacher:

Lyamova O. O.

let's start writing a history...

**ПЕРМСКИЙ ГОСУДАРСТВЕННЫЙ
МЕДИЦИНСКИЙ УНИВЕРСИТЕТ**
имени академика Е. А. Вагнера

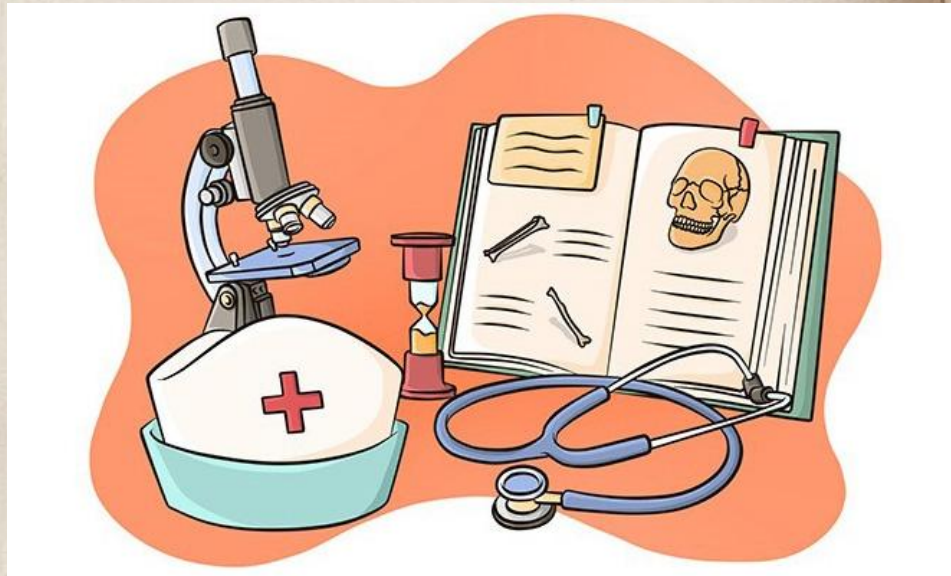

**The Dean's office for work
with foreign students was
founded in 1992**

**The head of the faculty is
the dean Kozlovskaya
Marina Aleksandrovna**

**The building where the Dean's
office of the faculty of training
foreign students is located**

In 1996, the Dean's office established a preparatory Department of medical and biological profile, which provides pre-University training for foreign students

During the existence of the preparatory Department, 134 people from 18 countries graduated from it

**Students of the preparatory
Department study:**

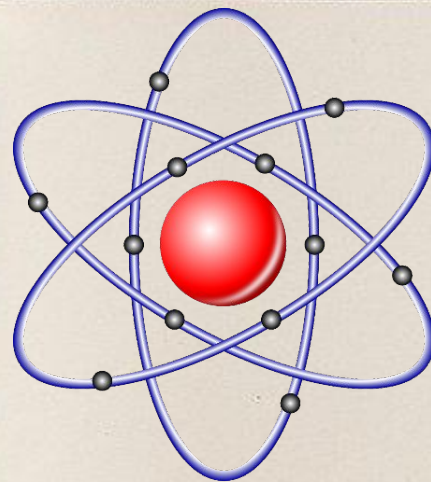

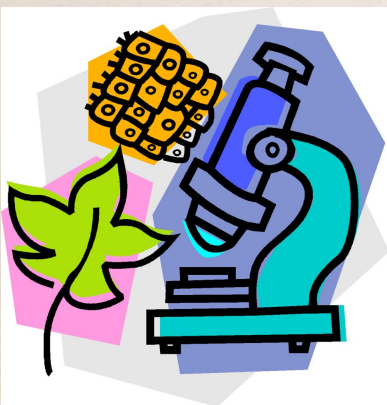

**Russian
language**

Chemistry

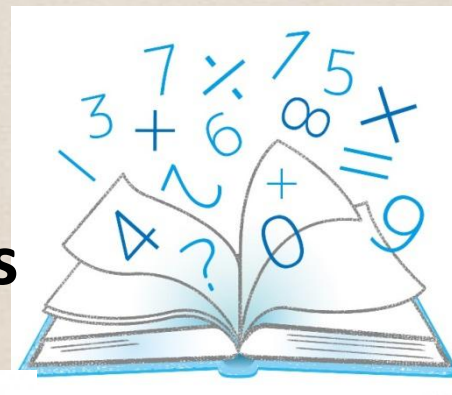

Biology

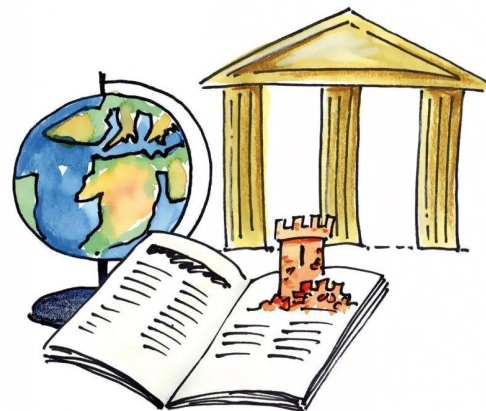

Physics

Mathematics

**Social and
humanitarian
sciences**

Upon completion of the preparatory Department foreign students receive a certificate of completion of the preparatory Department

In 2006, the University opened the departments of Russian as a foreign language, Latin and basic terminology, which provides linguistic training for foreign students for five years

The head of the Department is the professor Gasparyan Larisa Alexeevna

**Foreign students with
L. A. Gasparyan**

**Students take
part in sports
competitions**

ФОТО: Сергей Вычужанин

Students attend lectures, seminars and practical classes

After completing their studies and obtaining a higher education diploma, foreign citizens have the right to enroll in postgraduate or residency program

The Dean's office for work with foreign students coordinates the activities of the University for training medical personnel for foreign countries.

In 2019 the Dean's office is reorganized into the Department for international education.

The head of the Department is Cherkasova Vera Georgievna

Training of medical personnel for foreign countries in our University is considered as the most important indicator of the effectiveness of the team, a tool for ensuring long-term international cooperation with foreign organizations and specialists from various countries

**Thank you for
your attention!**
