

# COUNTRY STUDY

## USA

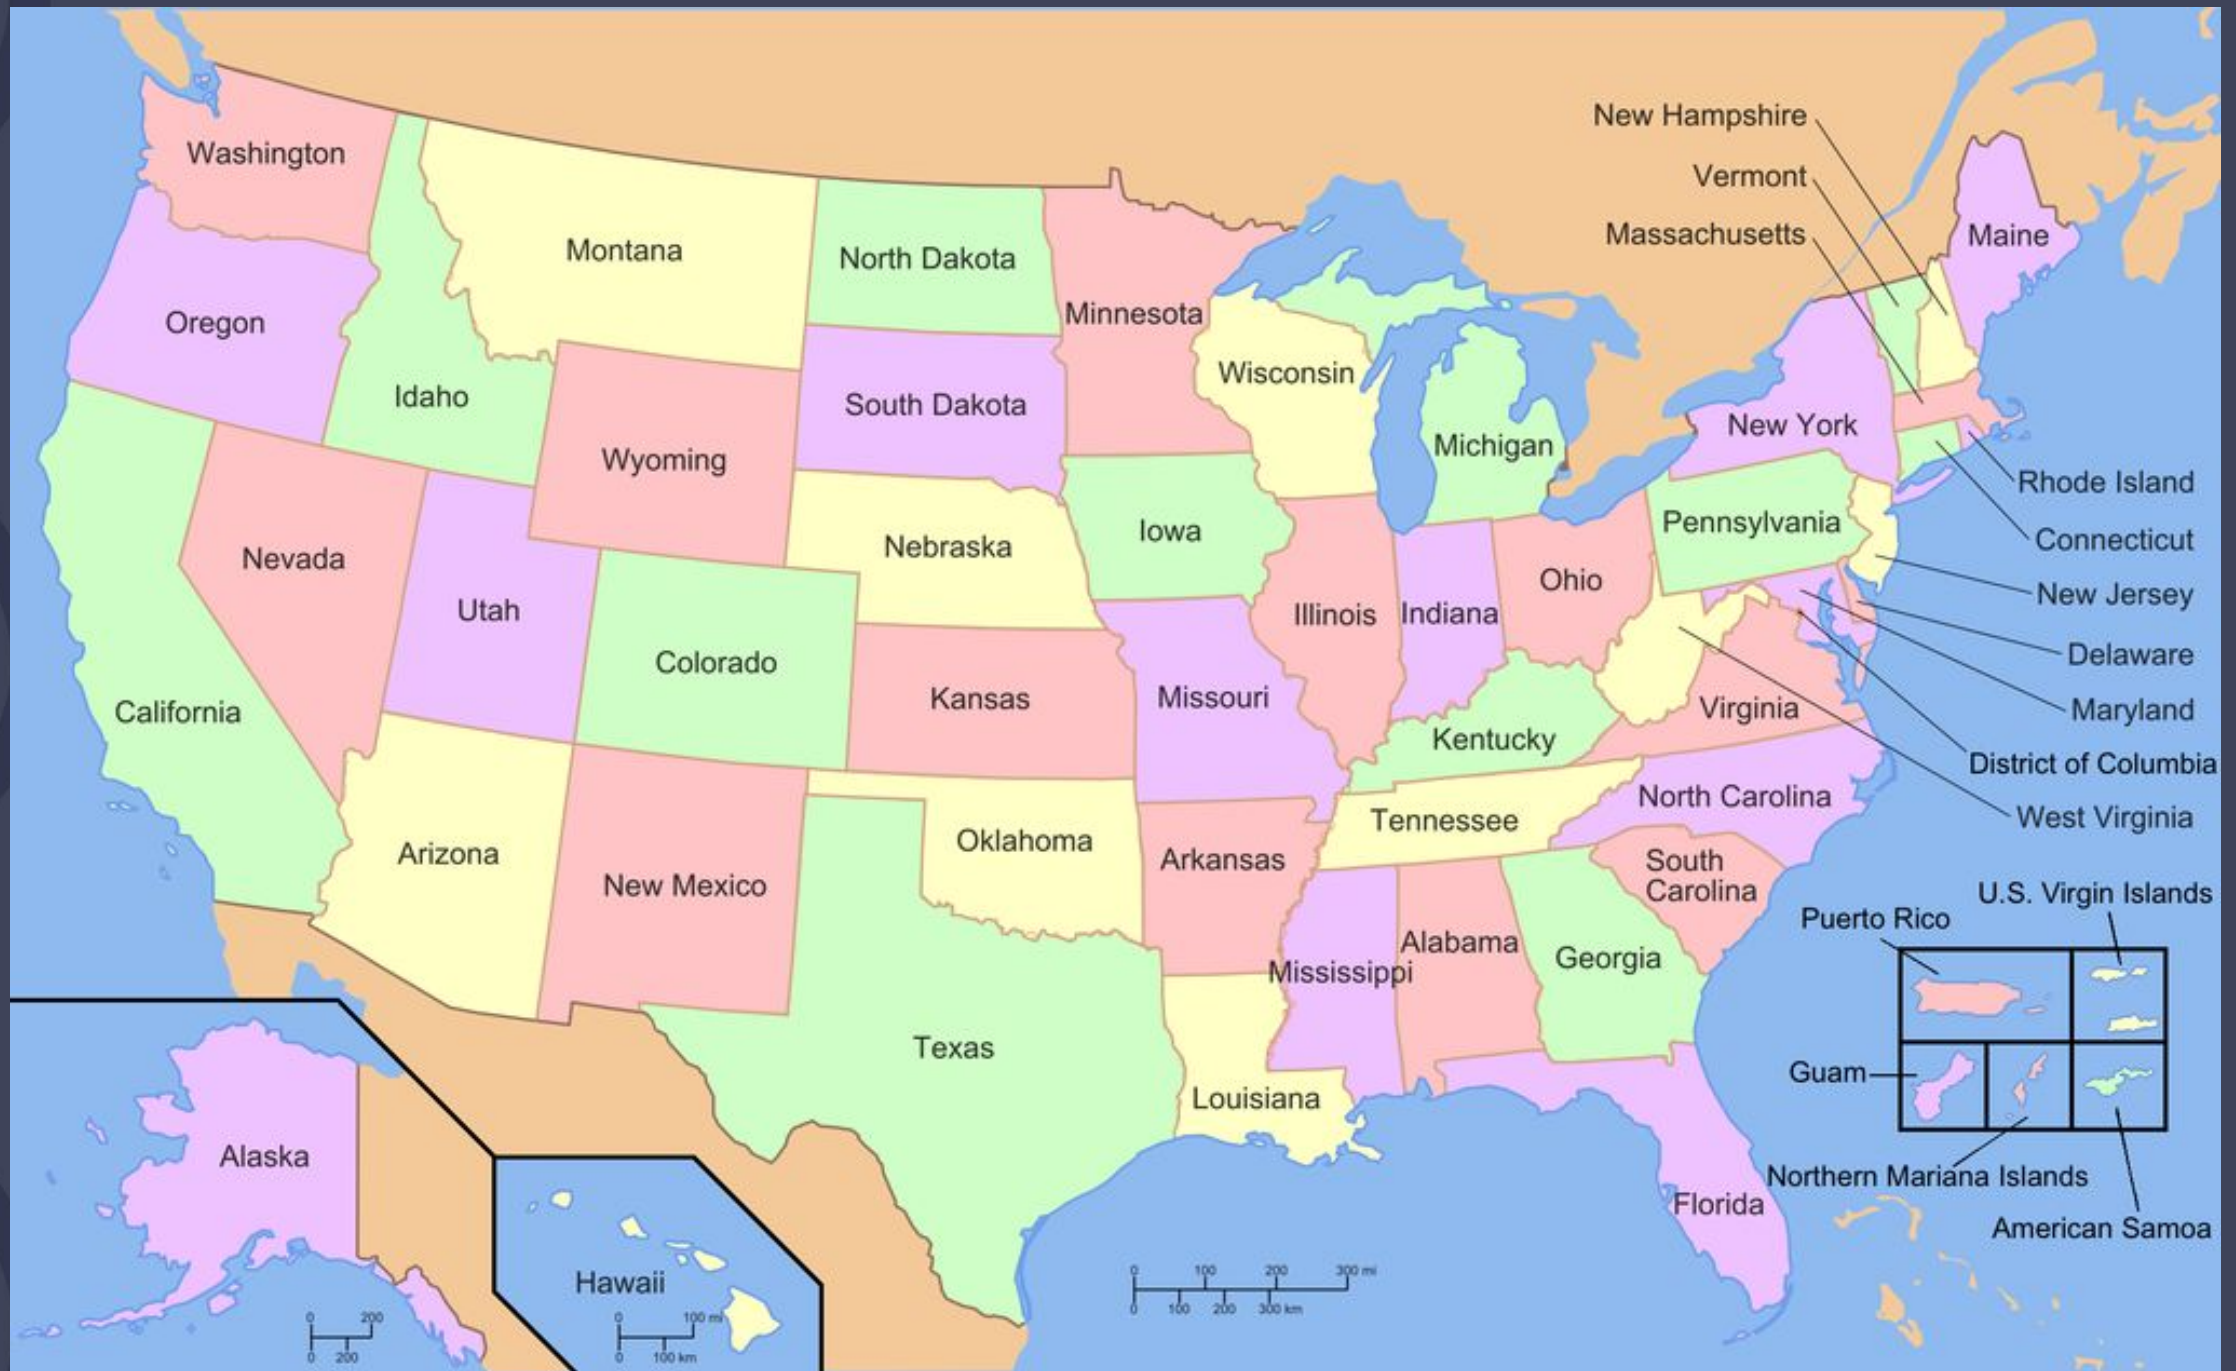

### Geographical location of the United States

Дмитрий 10 «Б»

МАОУ ПКЛ Владимир 2021

The United States of America at 3.8 million square miles it is the world's third- or fourth-largest country by total area.

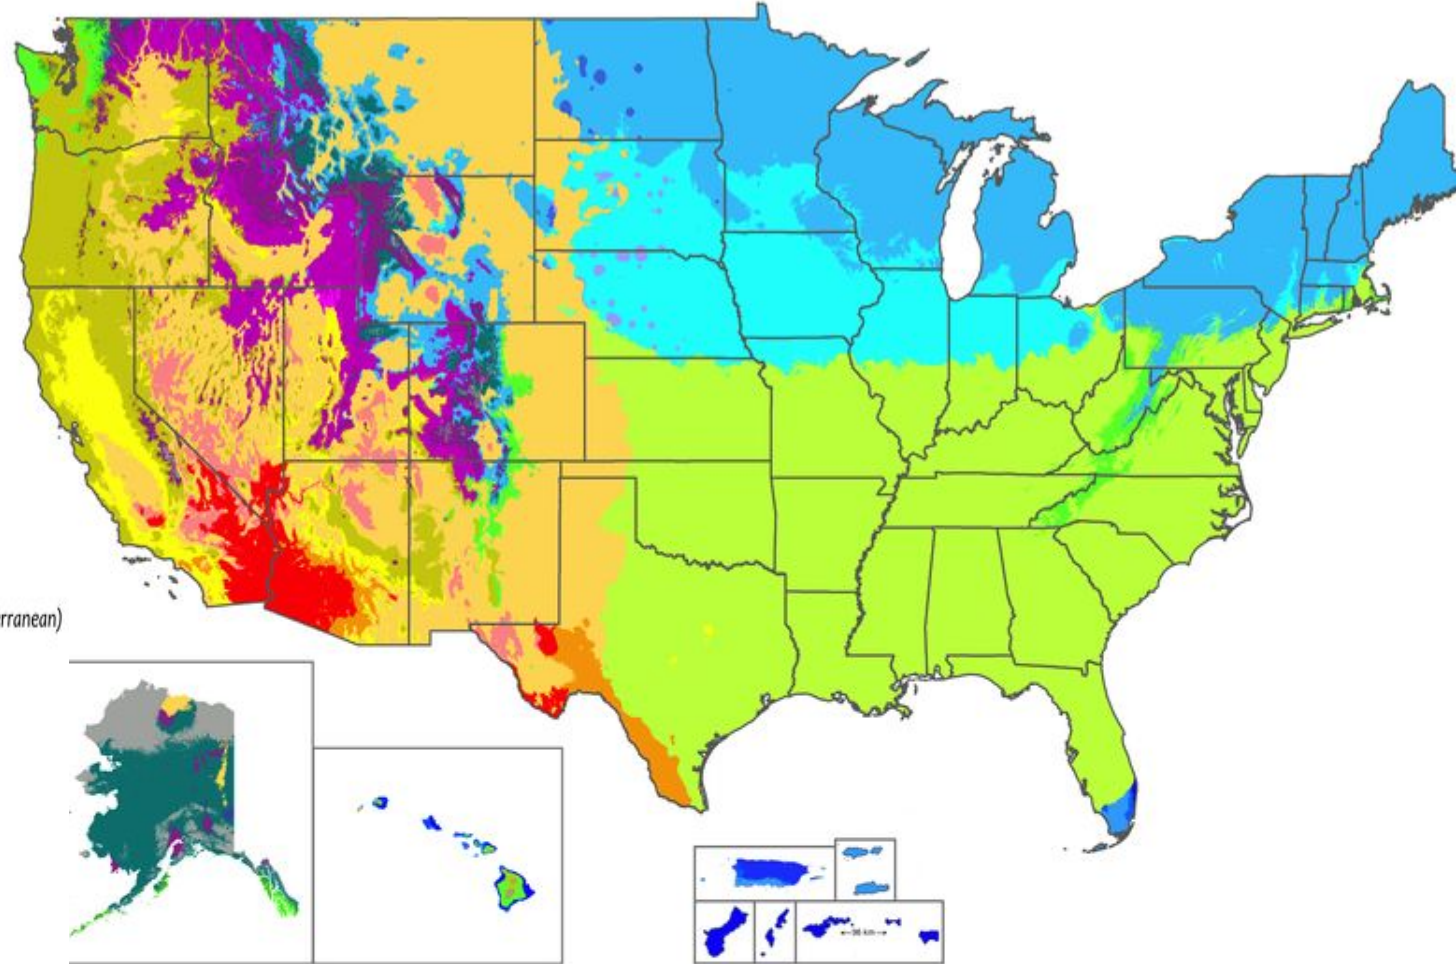

# Köppen climate types of the United States

## Köppen climate type

|                                     |   |                                |
|-------------------------------------|---|--------------------------------|
| EF (Ice-cap)                        | Dsb (Warm-summer mediterranean continental) | Csa (Hot-summer mediterranean) |
| ET (Tundra)                         | Dsa (Hot-summer mediterranean continental)  | BSk (Cold semi-arid)           |
| Dfc (Subarctic)                     | Cfc (Subpolar oceanic)                      | BSh (Hot semi-arid)            |
| Dfb (Warm-summer humid continental) | Cfb (Oceanic)                               | BWk (Cold desert)              |
| Dfa (Hot-summer humid continental)  | Cfa (Humid subtropical)                     | BWh (Hot desert)               |
| Dwc (Subarctic)                     | Cwb (Subtropical highland)                  | Aw (Savanna)                   |
| Dwb (Warm-summer humid continental) | Cwa (Humid subtropical)                     | Am (Monsoon)                   |
| Dwa (Hot-summer humid continental)  | Csc (Cold-summer mediterranean)             | Af (Rainforest)                |
| Dsc (Dry-summer subarctic)          | Csb (Warm-summer mediterranean)             |                                |

\*Isotherm used to distinguish temperate (C) and continental (D) climates is  $-3^{\circ}\text{C}$
