

"How much free time do you have a week?

What is your favorite activity during the weekend?

Do you like to be alone or spend time with friends, family?

Why?

Do you do any sports on the weekend? Why (not)?

Are your weekends the time for your hobbies? Do you read more? Do you do what you really want? What is it?"

"Students take turns and tell about one thing they like doing on the weekend. The next student tells about what they don't like doing. (e.g. Person 1: I like cooking. Person 2: I don't like to do chores.)

Alternatively, you can do rounds only about things you like or don't like."

"What do you do in your free time? What are your hobbies?
What is your work schedule like?
Do you do any sports on the weekend? Why (not)?
What unhealthy things do you sometimes do?
What hobby did you have as a child, but do not have now?"
