GOLDSITE

A yellow rectangular box containing information about the element Silicon. On the left, the chemical symbol 'Si' is written in large black letters. To its right, the number '14' is written in black. Below the symbol, the word 'КРЕМНИЙ' is written in yellow on a black background. Below that, the atomic weight '28,086' is written in black. On the right side of the box, there is a smaller, irregular, metallic gray crystal of silicon, similar in appearance to the larger one on the left. In the bottom right corner of the box, the word 'GOLDSITE' is written in a stylized, yellow font.
