

INNOVATION

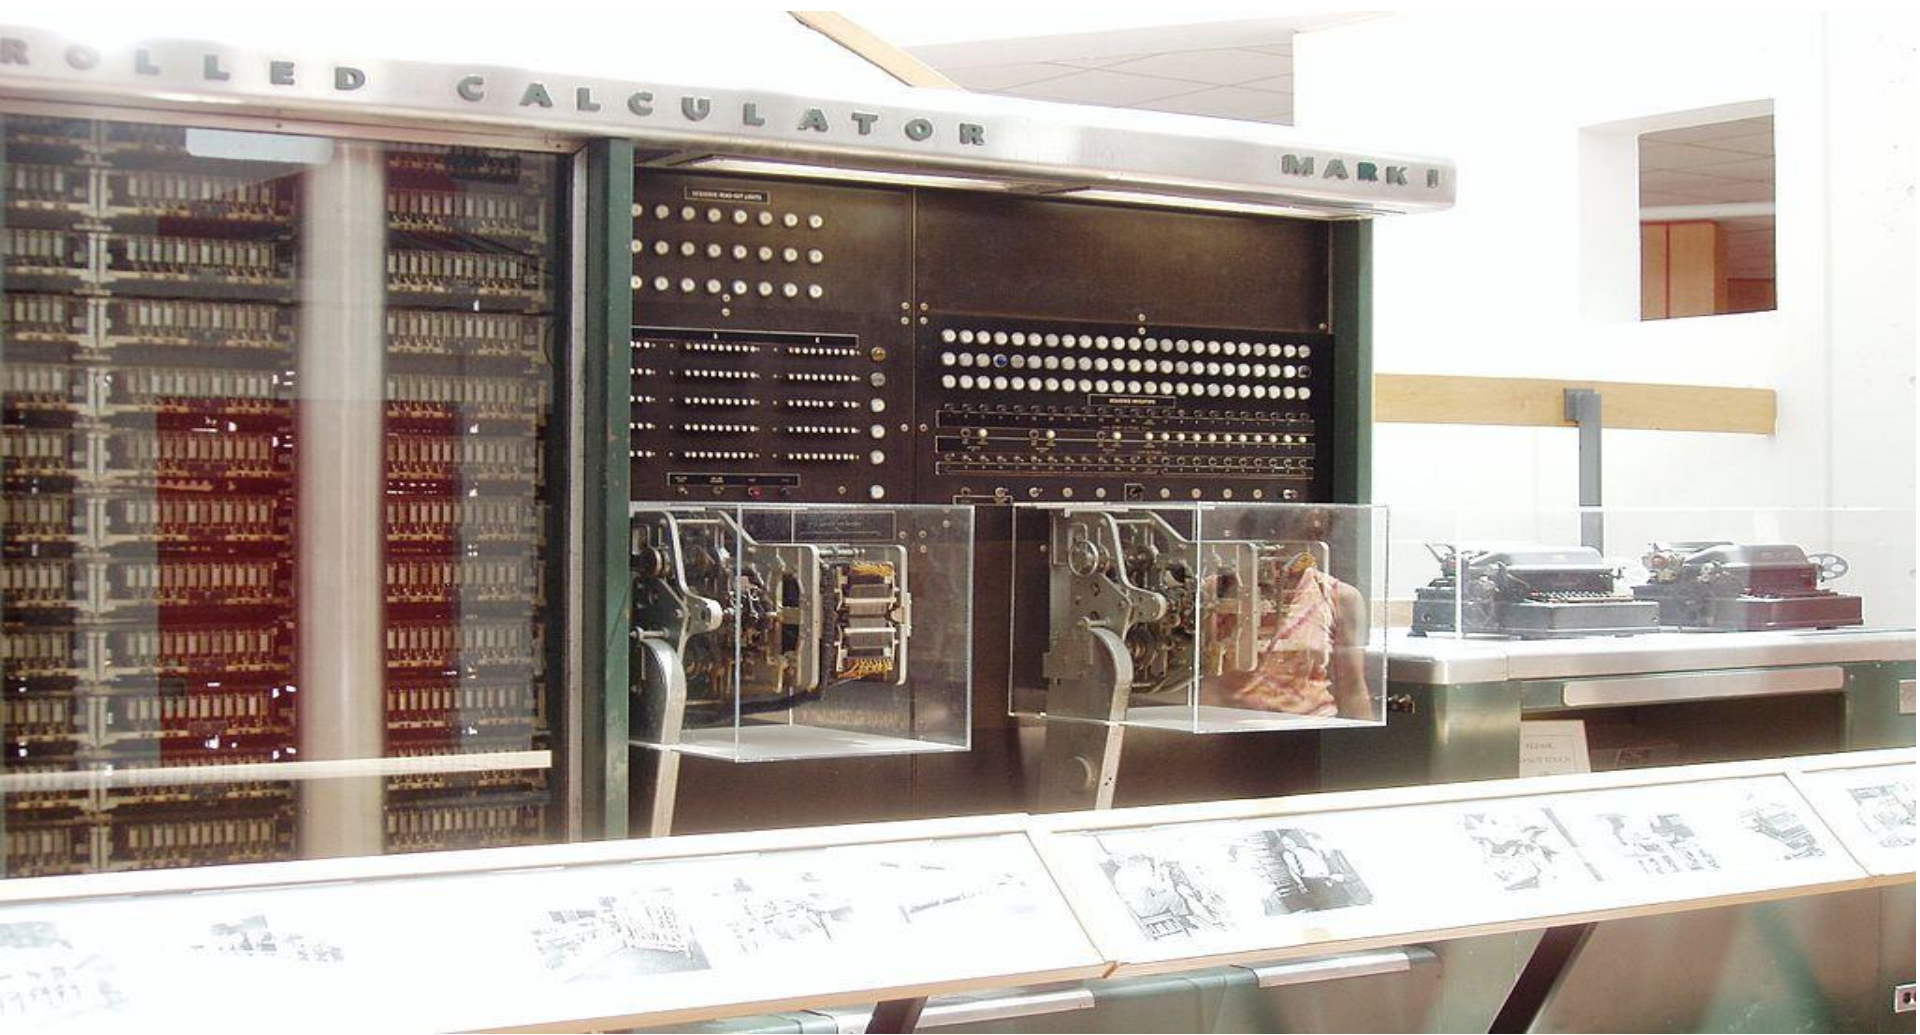

A chalkboard with a thought bubble drawn in white chalk. Inside the bubble, the word "INNOVATION" is written in blue chalk. Below the bubble, three small white circles lead down to the bottom of the frame. The text "Innovation is defined simply as a 'new idea, device, or method'" is written in black over the bubble and the board.

**Innovation is defined simply as
a "new idea, device, or
method"**

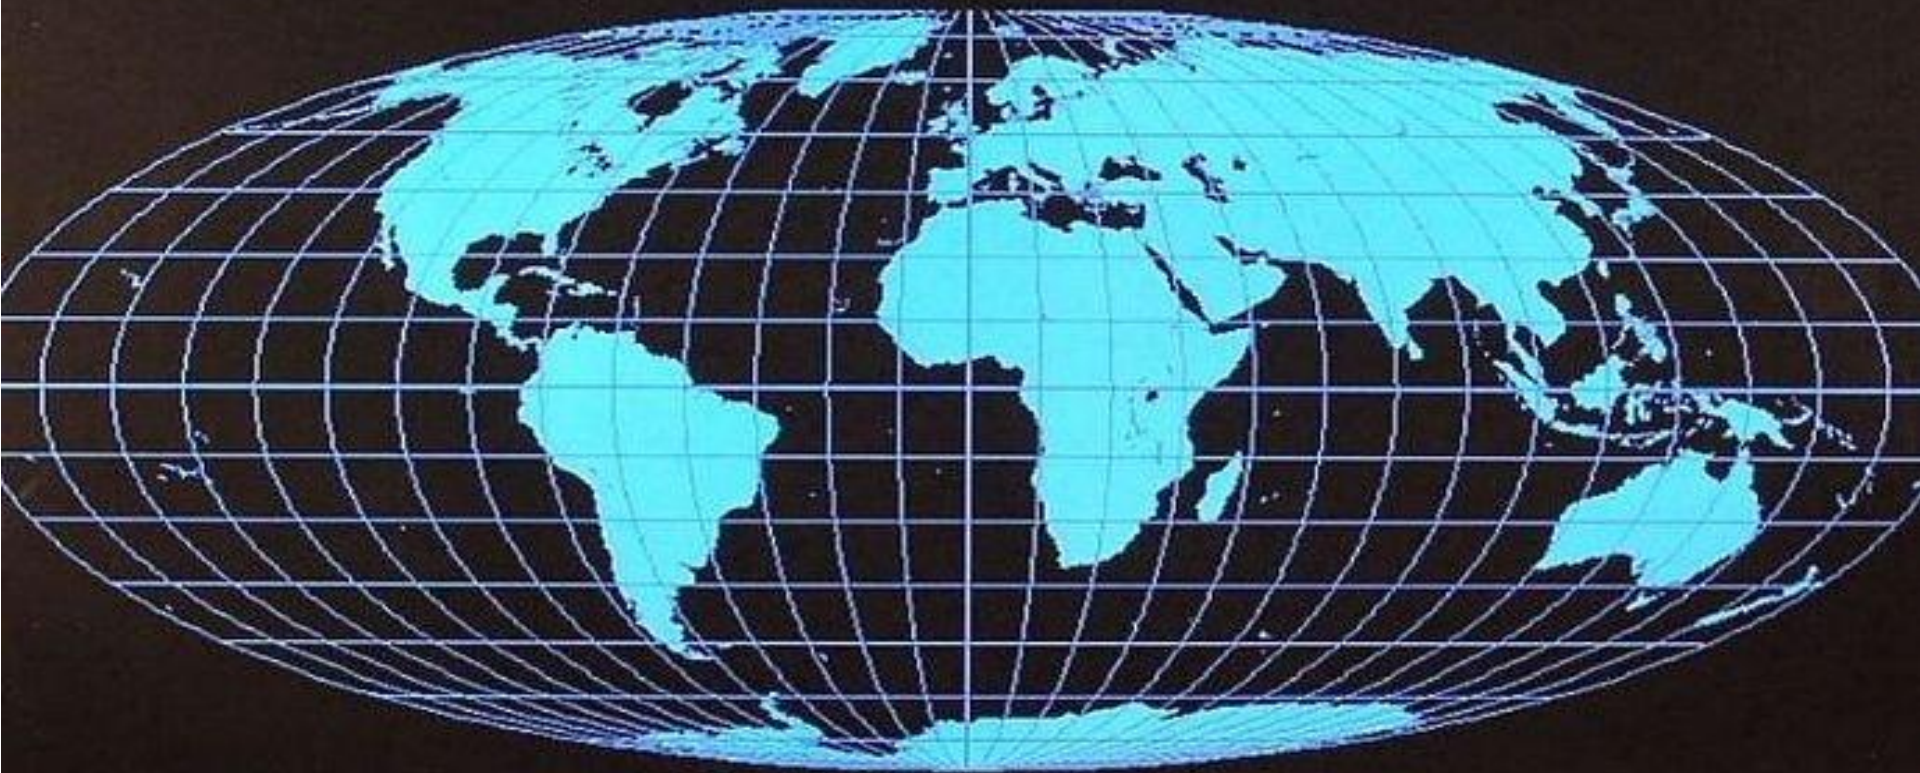

- In March 1944, IBM company has created the first personal computer - the Harvard Mark 1
P.S. he was very slow
