

Germany

Germany occupies a vast territory in the heart of Europe. For several centuries, it was the country that created the political and economic atmosphere on the continent. And today its role remains dominant.

*Mount Zugspitze.
The highest point in Germany.*

Medieval palaces and works of modern art, together with a long tradition, leave a pleasant experience.

Germany is a tourist and picturesque country.

*Neuschwanstein Castle.
One of the most popular tourist destinations
in southern Germany*

In this country you can enjoy not only the beauty of nature, but also modern infrastructure, quality education and the best economic development in Europe.

Ludwig Maximilian University of Munich.

One of the leading universities in Europe.
Ranked 2nd among German universities,
in Europe - 11th position.
in the World ranking - 63rd position.

Other the most famous sights of Germany in the world:

Brandenburg Gate

Cologne Cathedral

Personal opinion.

I think Germany is the best place to live, because it has not only the best sights in the world, but deep country's history and good influence in Europe.
