Лесной конек

A small, brown-plumaged bird is perched on a thin, light-colored branch. The bird is facing left, with its head slightly turned. Its feathers are a mix of light and dark brown, with some darker streaking on its wings and tail. The background is a soft, out-of-focus green, suggesting a forest or garden setting. The lighting is natural, highlighting the texture of the bird's feathers and the smooth surface of the branch.
