

KRASNODAR PARK (GALITSKY PARK)

Sergey Dimiterko

A LITTLE BIT OF INFORMATION

- ▶ Krasnodar Park (Galitsky Park) is a city park located in the north-east of the center of Krasnodar in the Shkolny neighborhood, between Vostochno-Kruglikovskaya and Hero Vladislav Posadsky streets, next to the FC Krasnodar stadium. The park was built at the expense of entrepreneur Sergey Galitsky and opened on September 28, 2017. The area is 22.7 hectares. This is twice as much as the Novorossiysk forest! More than 2.5 thousand trees are planted in the park: oak, hornbeam, alder, bonsai, poplar, pine, tulip tree, maple, decorative plum.

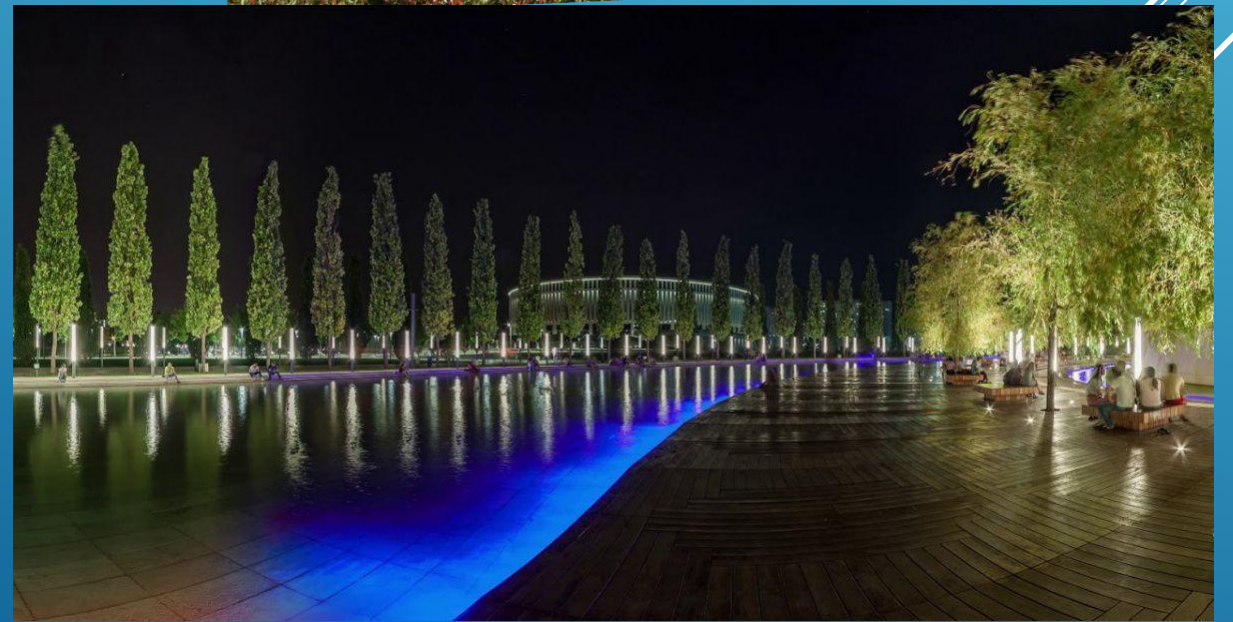

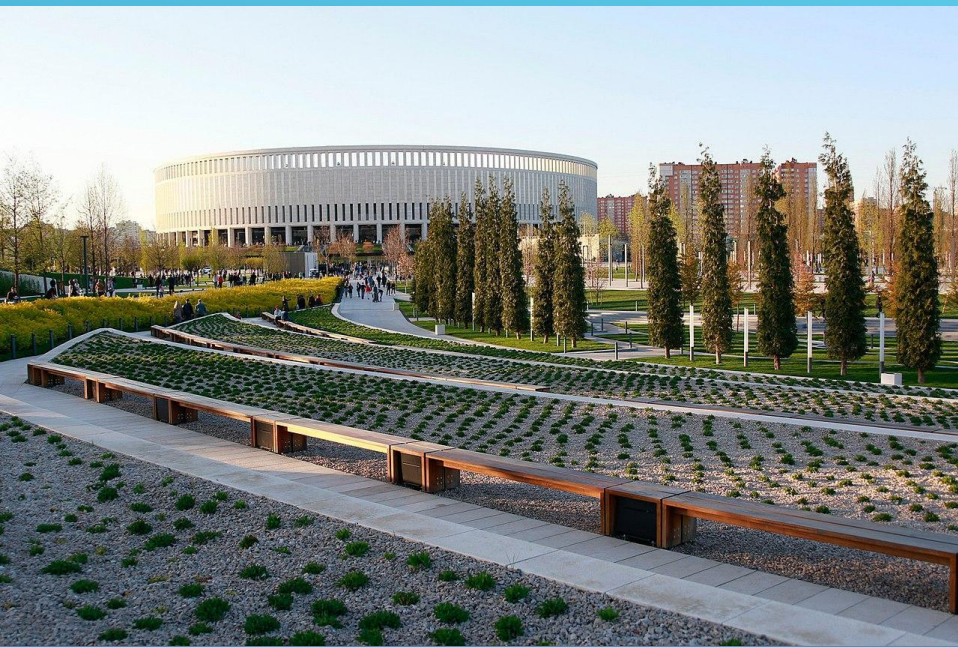

COMMENT FROM ME:

This is a new, modern, beautiful park. Having in its structure various areas for walking and recreation. The park has become a real beautiful addition to the luxurious and modern Krasnodar stadium. And all this beauty was laid and built with the participation of Krasnodar businessman Sergey Galitsky. Which now invests its funds in other projects for the improvement of our city. But returning to the current topic, and completing the description of the park, I will say that the park "Krasnodar" has become one of the business cards of the city! Tourists traveling in transit through Krasnodar to the Black Sea coast and back try to visit it.

THAT'S ALL I WANTED TO SAY
