For a number of reasons, we recommend **updating the logo.**

1. The logo is taken from a free source. There are a lot of companies with this logo;
2. This logo may be registered by another company.
3. Saving this logo may cause future problems;
4. Outdated logo design.

The website is made on a platform constructor. **What a problems?**

The site does not automatically select a language for its region, and the buttons do not work correctly when used.

Need to abandon the WIX platform. Because she is not prepared for SEO optimizations

Problems with servers, which affects the loading of the site in different regions.

The site is closed from indexing in other regions.

What will we do.

Self-made platform. With the ability to add functionality;

Unique design;

Separate pages for each object;

Detailed apartment cards;

Feedback forms;

Primary optimization;

Develop a new logo.
