

# IT job opportunities in 2021

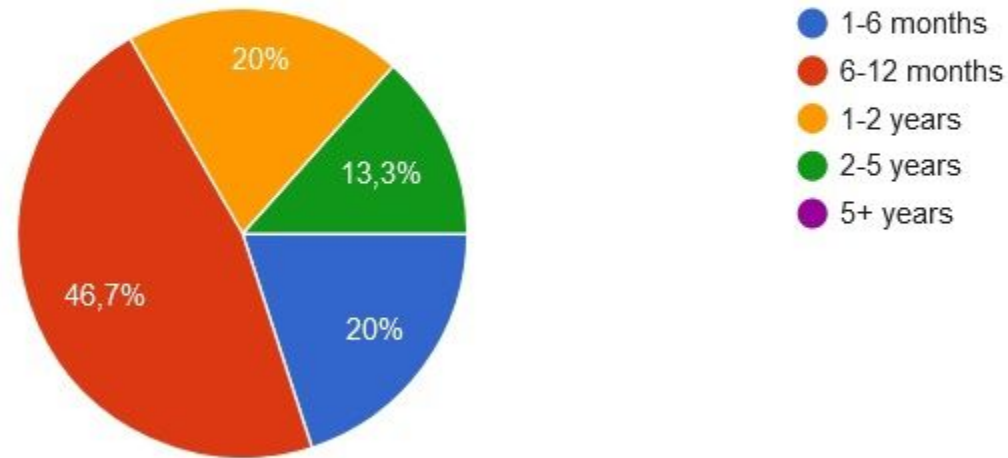

Project work

This presentation presents data in the form of graphs collected from 15 random IT profession students about their opinion about opportunities in IT sphere at this moment

# Most of the respondents studied in the IT profession for half a year - a year

How long have you been studying the IT profession

15 ответов

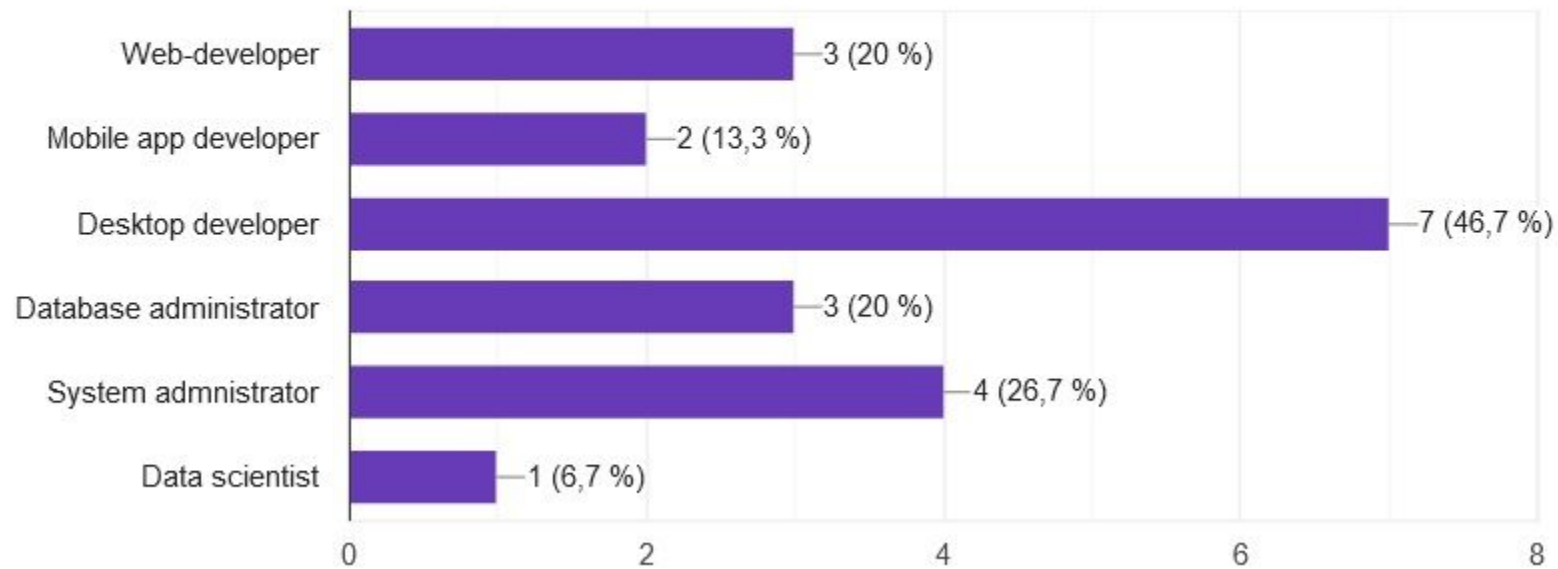

# The survey covered students of various professions, from data scientist to desktop developers

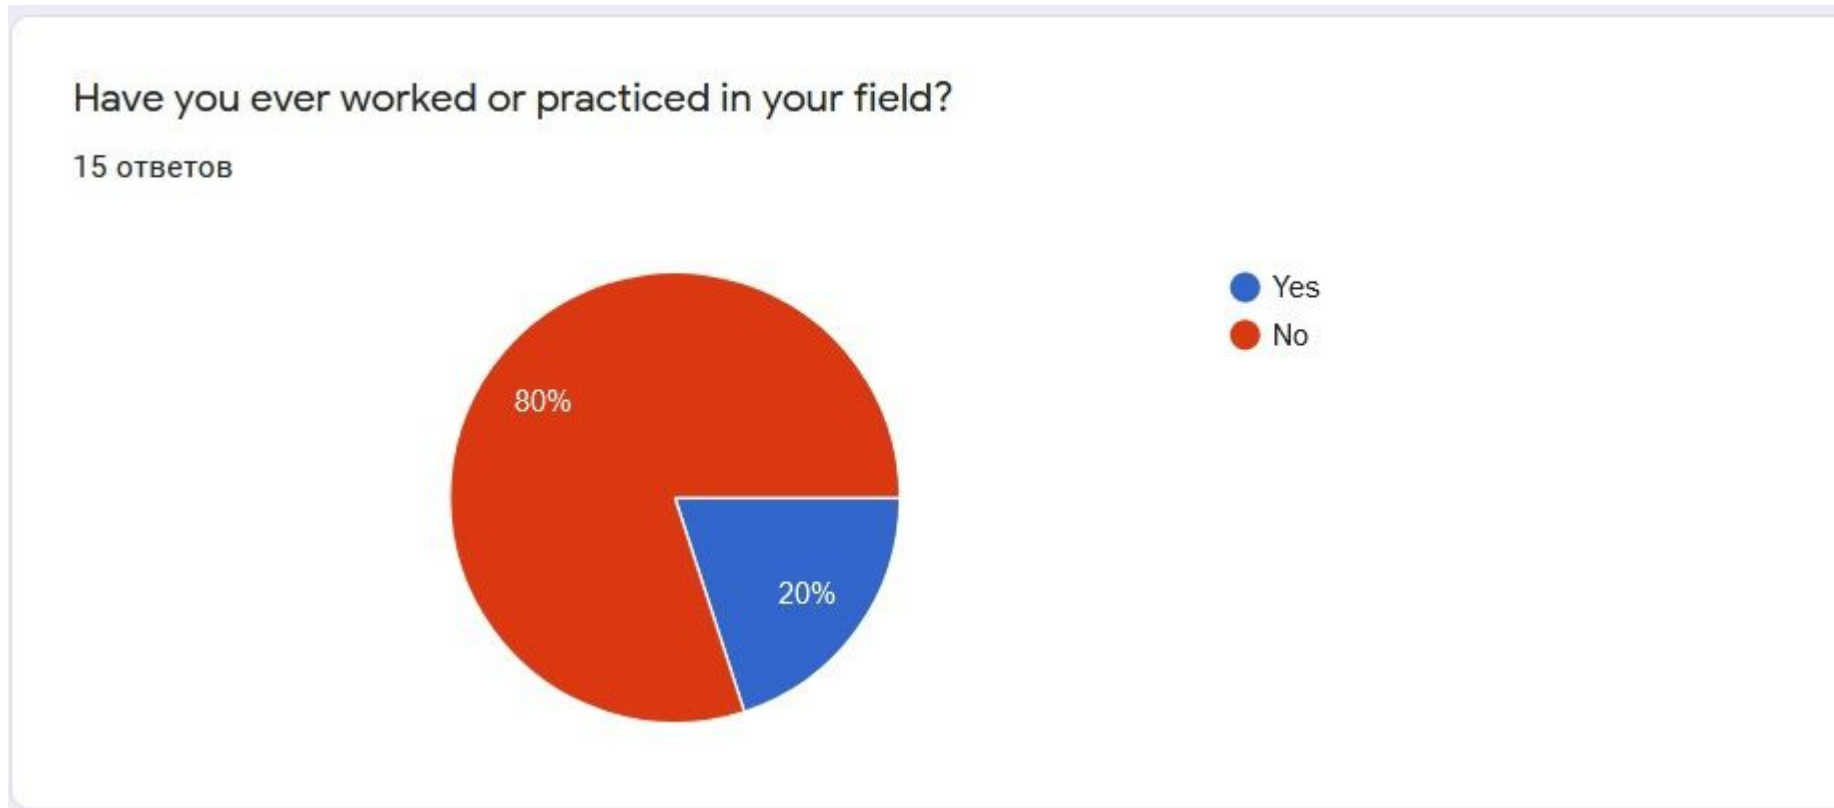

What specialization (or specializations) are you currently studying in?

15 ответов

# A fifth of the respondents have already had work experience

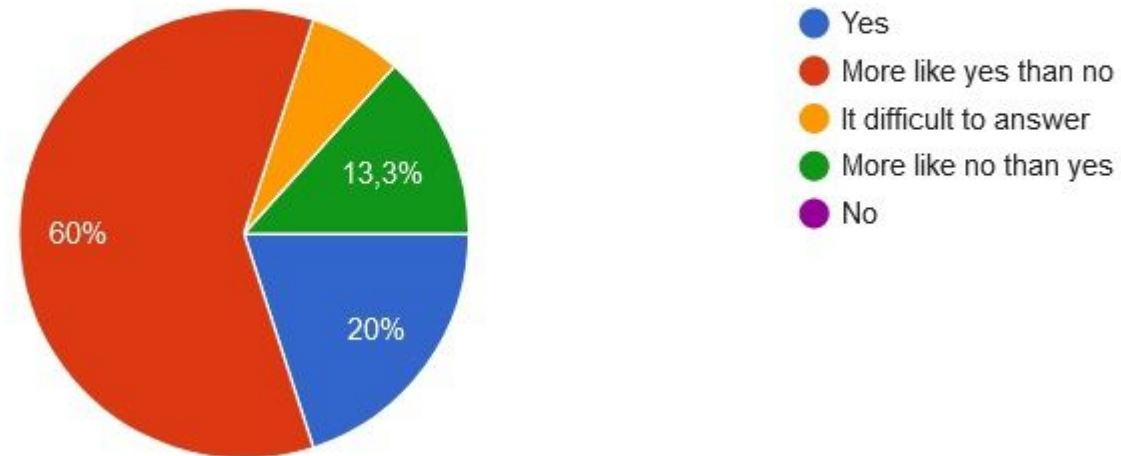

# At the same time, 20% of respondents are not sure about their choice of profession

---

Do you like your choice of specialization (or specializations)?

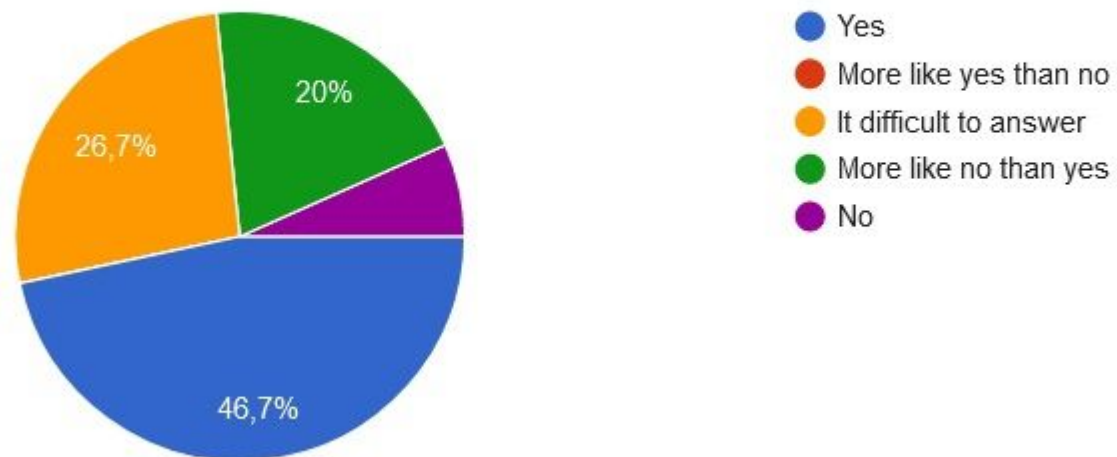

15 ответов

# And almost half of them thought about changing their specialty

Have you ever thought about changing your specialization (or specializations)?

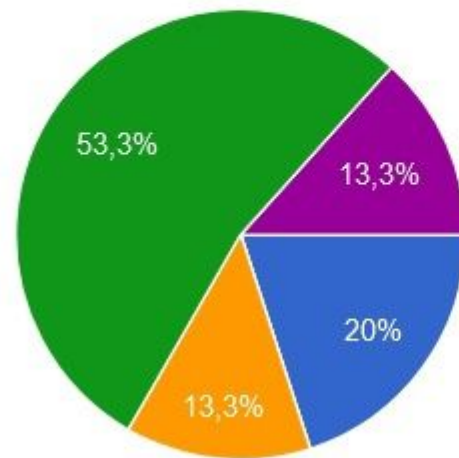

15 ответов

# But most do not think that changing their specialty within IT is difficult

In your opinion, is it difficult to change the specialization within the IT field?

15 ответов

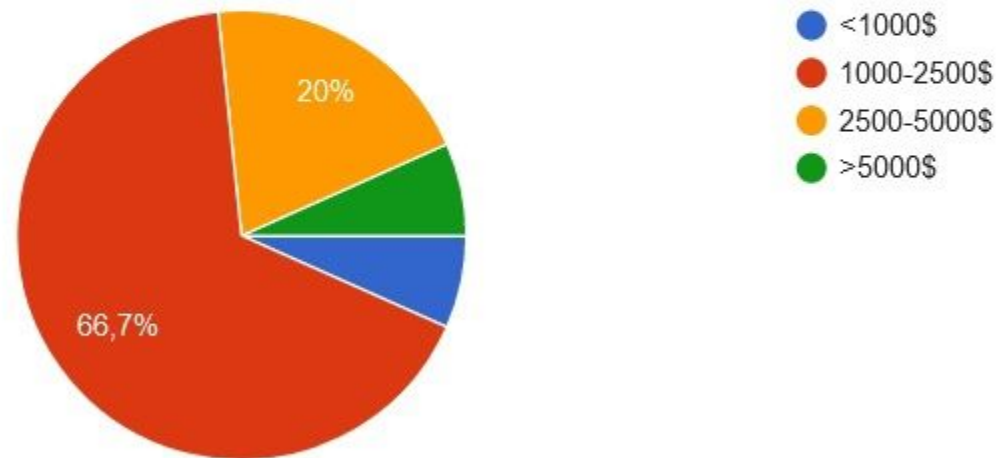

- Yes
- More like yes than no
- It difficult to answer
- More like no than yes
- No

# The minimum salary of \$ 1000-2500 at the initial stages of work will satisfy the majority

What should be the minimum salary for the chosen specialization (or specializations) in your opinion?

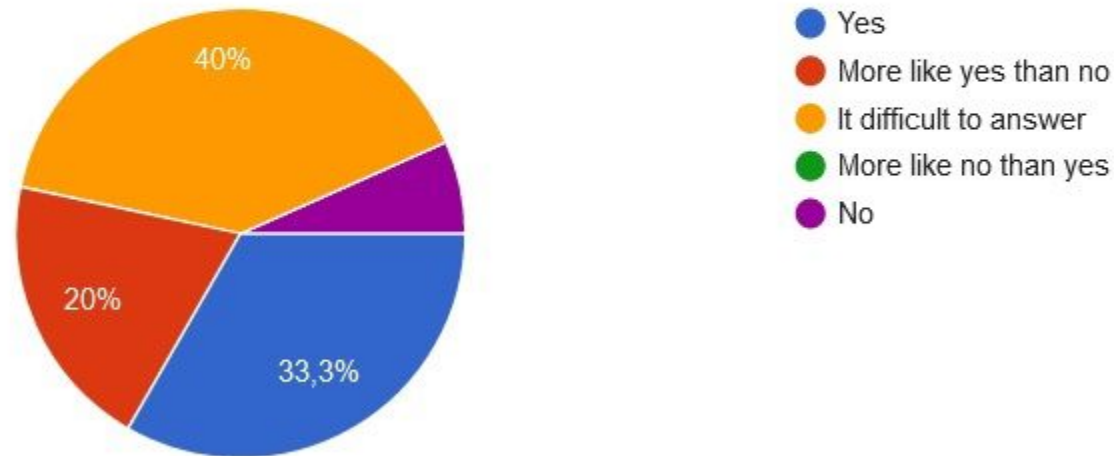

15 ответов

And the average salary in the sphere has caused ambiguity, half think that it is fair, half - no or find it difficult to answer

Do you consider the average salary in your specialization (or specializations) fair?

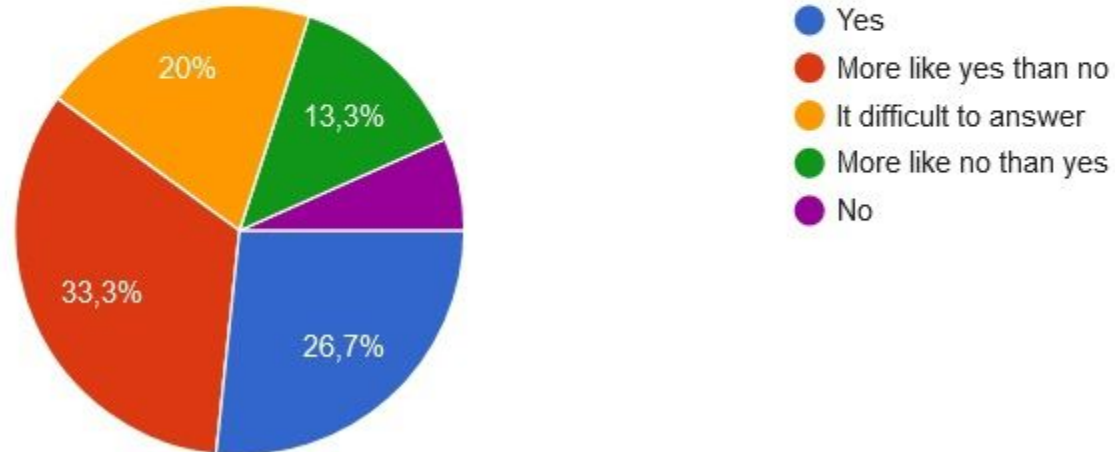

15 ответов

# But in any case, many are sure that the salary in IT will soon grow

Do you think the average salary for the chosen specialization (or specializations) will grow in the foreseeable future?

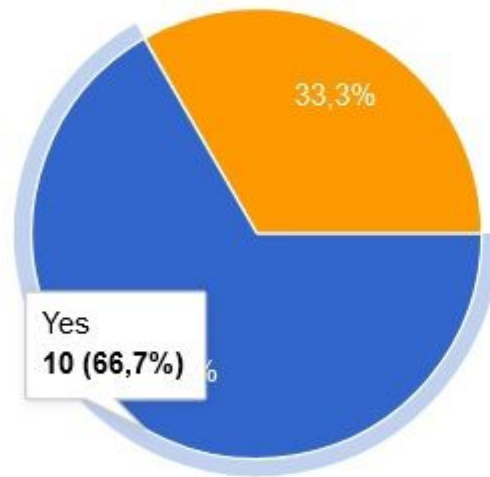

15 ответов

And in the end, as many as two-thirds are sure that their work will be in demand in the future, a third is in doubt

Will your specialization be in demand in the future?

15 ответов
