HISTORY IN UZHHOROD

The best known of the first city founders are early Slavs. One of their tribes – White Croats – settled the area of the modern Uzhhorod in the second half of the first millennium AD. During the 9th century a fortified castle changed into a fortified early feudal town-settlement, which became the centre of a new Slavonic principality, at the head of which was a legendary prince Laborets, who was vassal of Great Moravia.
