# Cats

Cats can be pets or wild animals.

All cats are born with their eyes shut. They drink milk from their mother.

Cats are clean animals.

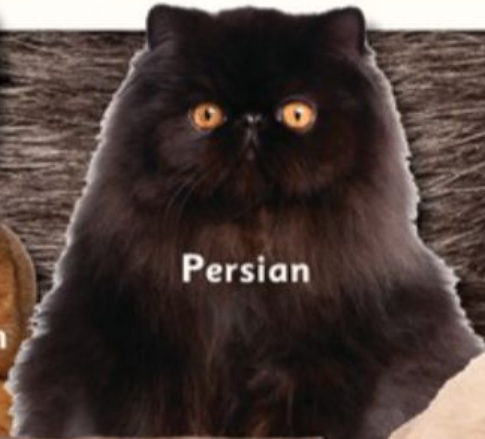

# Pet Cats

Not all pet cats are the same. Different types are called breeds.

Abyssinian

Persian

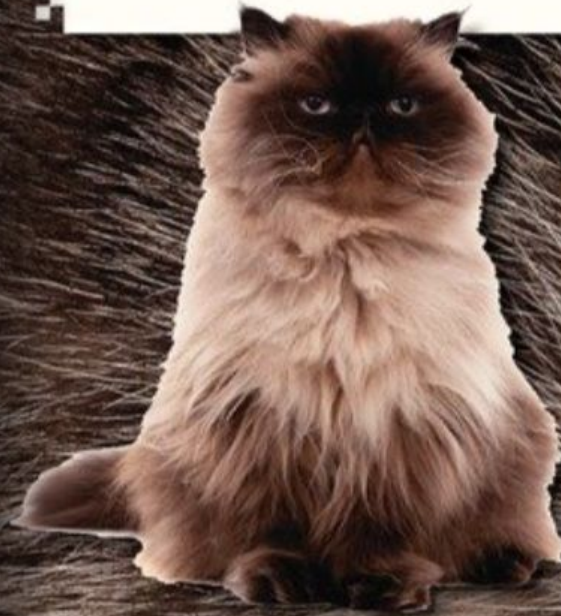

Siamese

A Manx cat has no tail!

Some pet cats have long hair. Other pet cats have short hair.

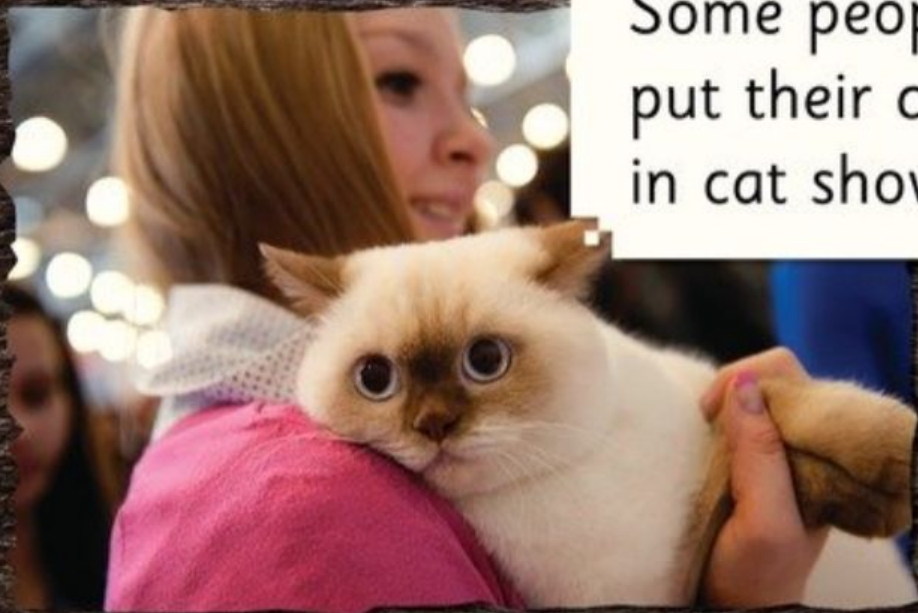

Some pet cats have no hair!

Some people  
put their cats  
in cat shows.

They brush them  
and clip their claws.

The owner of the  
best cat wins a prize.

# Wild Cats

Tigers are the largest wild cats.

Wild cats are bigger than pet cats. They can't be pets because they are wild.

Wild cats live in forests, jungles and on plains.

Leopards are good climbers.

Cheetahs are the fastest animals on land.

Male lions have manes, but females don't.

People go on safaris to see wild cats.

They stay inside their cars to keep safe.

People also visit zoos to see wild cats.

# What do cats eat?

All cats are carnivores.  
This means they  
eat meat.

Wild cats must  
hunt for their food.  
They eat other  
animals, such as  
antelopes.

Pet cats are given  
their food in a bowl.

# What do cats do?

Pet cats like to play.  
So do wild cats.

Pet cats like to hunt.  
So do wild cats.

Pet cats like to climb.  
So do wild cats.

Pet cats like to pounce.  
So do wild cats.

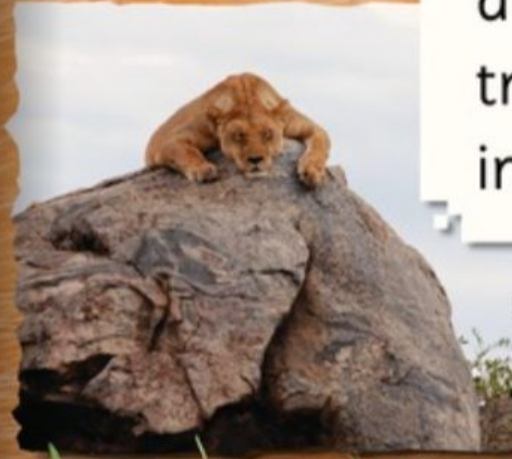

Pet cats like to stretch.  
So do wild cats.

Pet cats sleep a lot,  
wherever they can.

Wild cats also sleep  
a lot. They sleep in  
trees, on rocks or  
in the long grass.

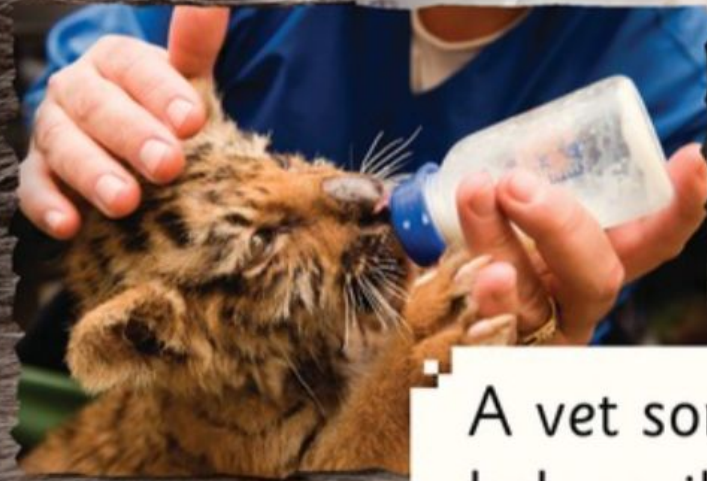

# Looking after cats

Pet cats need food and clean water every day.

If a pet cat gets sick, an animal doctor called a vet looks after them.

A vet sometimes helps wild cats too!

# What cat is that?
