Clear or Cloudy

Bright: (adjective) full of light; when the sun is shining strongly

Sunny: (adjective) the sun is shining and there are no clouds

Clear: (adjective) without clouds

Fine: (adjective) not raining, clear sky

Partially cloudy: (adjective) when there is a mixture of both blue sky and clouds

Cloudy: (adjective) with many clouds in the sky

Overcast: (adjective) covered with cloud; dull

Gloomy: (adjective) with dark clouds and dull light; some people consider this weather depressing

Sometimes the cloud lowers to ground level and it becomes harder to see...

Fog (noun)/ **foggy** (adjective): thick cloud close to land

Mist (noun) / **misty** (adjective): light fog, often on the sea or caused by drizzle

Types of Rain

Damp: (adjective) slightly wet (often after the rain has stopped)

Drizzle: (verb/noun) to rain lightly with very fine drops

Shower: (noun) a short period of rain

Rain: (verb/noun) water that falls from the clouds in drops

Downpour: (noun) heavy rain

Pour: (verb) to have heavy rain

It's raining cats and dogs: (Idiom) To rain heavily

Torrential rain: (noun) very heavy rain

Flood: (verb/noun) to become covered in water usually due to excessive rain

Cold stuff

Hail: (verb) when frozen rain falls as small balls of ice (hailstones).

Hailstones: (noun) the small hard balls of ice that fall from the sky

Snow: (noun/verb) frozen rain that falls from the sky as soft snowflakes

Snowflake: (noun) an individual piece of snow

Sleet: (noun/verb) snow or hail mixed with rain (often with some wind)

Blizzard: (noun) severe snowstorm with strong winds

Types of Wind

Breeze: a gentle wind (often nice or refreshing)

Blustery: blowing (strong) gusts of wind

Windy: continual wind.

Gale: a very strong wind

Hurricane/cyclone/typhoon: a spiral arrangement of thunderstorms that produce winds and heavy rain.

What's the difference between a hurricane, a typhoon and a cyclone?

They are the same thing just with different names because of the region they are in.

Atlantic/Northeast Pacific = a **hurricane**

Northwest Pacific = a **typhoon**

Southern Hemisphere = a **cyclone**

Tornado: (noun) strong violent circular winds in a small area; a rapidly revolving column of air

In United States the word **twister** is often used instead of **tornado**.

More vocabulary about the weather

Drought: (noun) Long periods of time without rain causing a lack of water in the area

- A lot of the crops dried up because of the drought.

Forecast: (noun) A prediction of how the weather will be on a certain day

- The forecast says it's going to rain tomorrow.

Lightning: (noun) A flash of light in the sky during a storm.

- Lightning lit the sky many times that night.

Puddle: (noun) a small pool of water on the ground, usually after rain.

- The kids jumped in the puddles on the way home from school.

Rainbow: (noun) an arch of colors in the sky formed when the sun shines through rain

- I took a photo of a beautiful rainbow that was just above the lake.

Smog: (noun) a cloud of pollution hanging over a city (a fog of smoke)

- The view of the city wasn't very good because it was covered in thick smog.

Sunburn: (noun) painful red skin caused by spending too long in the hot sun.

- If you don't put on your sunscreen, you'll get sunburn.

Sunshine: (noun) the light and heat of the sun

- I could feel the warm sunshine on my back.

Thunder: (noun/verb) the rumbling sound in the clouds that happens after lightning

- The cat hid inside because it was scared by the thunder.
