

Lesson: "Ecological problems in our days".

Our future depends only on us.

The rule of 3Rs

The question about the state of environment should worry everybody. Our health depends on its state. Environment is water that we drink, the air which we breathe. Caring about the world we care about ourselves.

People buy a lot of unnecessary things. Only buy what you really need and use all of it. Thinking about buying something new?
Try the 30-day rule – only buy it if you still want it 30 days after you first saw it!

Save on paper. Try to cut down on the amount off paper you use.
Use a computer and proofread your writing on the screen
before your print it out. Use both sides of paper and then
recycle it

**Our world has lots of litter.
Buy things with simple packaging
that can easily be recycled.**

**Let's plant trees.
Our future depends only on us.
Let's make it happy and bright.**

TESTS (ТЕСТОВЫЕ ЗАДАНИЯ)

**Theme “Ecology”
10th form**

**ПО ТЕМЕ «ЭКОЛОГИЯ»
10 КЛАСС**

1. Match the words to make up phrases. Put the letters in the correct order.

1. writing
2. vegetable
3. compost
4. packed
5. energy
6. excessive

- a) lunch
- b) consumption
- c) paper
- d) heap
- e) peelings
- f) packaging

2. Match the words to make up phrases. Put the letters in the correct order. There is one extra letter.

1. global
2. modern
3. power
4. conservation
5. natural

- a) programmes
- b) warming
- c) stations
- d) lifestyles
- e) crops
- f) habitat

3. Guess the words and write them correctly.

I always switch off the 1)....(l - - h - s) when I leave an empty room. Besides, I use only light bulbs that save 2)....(- - e - g -). Finally, I turn down the 3).....(- e - t - - g) when it is warm in the room.

4. Complete the sentences using the best answer.

We care about the environment so we have come 1) with some practical ways of protecting it:

- Always switch 2)... the lights and the electrical appliances when you don't need them.
- Turn 3)... the heating and put 4)... warmer clothes if you cold.
- Think carefully how you can reuse old things before you throw them 5)... .
- Try to cut 6) ... packaging and paper.

1. A on

B up

C to

2. A off

B on

C at

3. A on

B up

C down

4. A up

B out

C on

5. A away

B into

C about

6. A on

B down

C down on

5. Choose the right answer

-They say you have an environmental awareness day at school today. What does it mean?

-It's a special day when we learn what we 1)don't have to/should do to protect the environment. You know, how we 2)can/mustn't help to save the planet.

-That sounds interesting. What do you do?

-Well, for a start, everybody 3)should/can't walk or cycle to school to save energy. And we 4)mustn't/must make sure we don't waste energy.

-I see. Besides, we 5)ought/should recycle paper, glass and plastic.

-You are right. I think you 6)had better/have to have an environmental awareness day at your school, too.

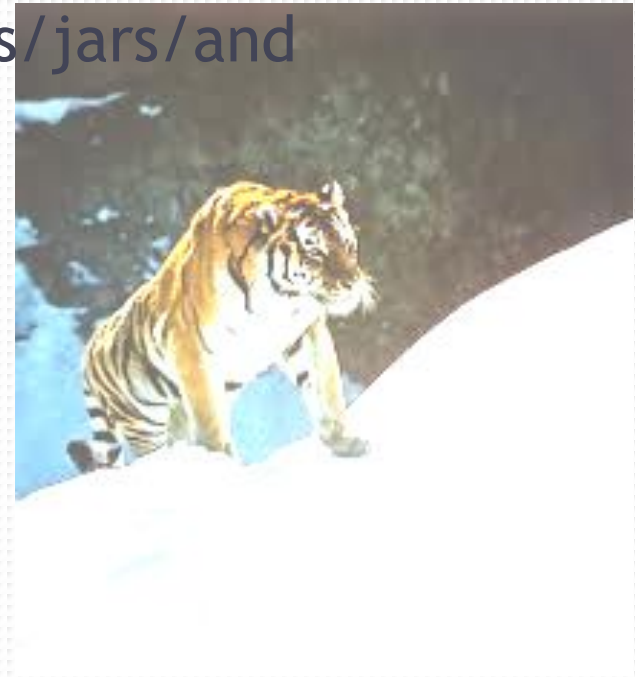

6. Make up tips from the following words

1.cut/consumption/try/down/on/energy/to/should/you

2.both/paper/you/before/sides/must/use/of/you/it/recycle

3.can/magazines/swap/books/and/you/your/friends/with

4.mustn't/throw/old/away/you/bottles/jars/and

Thank you for your attention!
