I am a websites' designer so I have to design websites to the client's specifications. I'm responsible for the whole design process, so I have to take the client's ideas and turn them into a finished product. Most of my time is spent experimenting with different designs and ideas and seeing what looks good, because attention to detail is important in this kind of work

I have been working for this company for almost three years

These include blue circles with white thumbs-up icons, red circles with white hearts, and yellow circles with various facial expressions like smiling, crying, and surprised. The icons are slightly blurred and overlap each other.

6

Are you happy with your job?

I like my job a lot and I am happy but it requires a lot of commitment and responsibility

7

What does your company do?

We sell different software and digital equipment

8

What kind of education do you have?

I graduated from the Ural State Mining University in 2021. I have a Bachelor's Degree in Computer Science.

I'm studying for a Master's Degree (Postgraduate) Course. That means I'm doing English language and literature, maths, history and philosophy. I like it but it's hard work, because we have to do five different subjects and there's a lot of work for each one, so I don't have much free time

I come from a big family: I'm the fifth child, and I have three brothers and one sister. They're all close to each other in age, but there's a big gap between them and me. I don't have children, but I have lots of nieces and nephews! I don't see my family often because I live in a different country, but I speak to them regularly and we all get together once or twice a year, which is always very noisy but lots of fun."

As for my hobby I'm a huge fan of extreme tourism. Extreme tourism puts adrenaline into life. It gives a strong sense of adventure and even physical danger. Some people call it shock tourism.

I like rafting, climbing a volcano, bungee-jumping, sky-diving and even horseback riding in the mountains.

What do you want to achieve in your career?

I want to get my Master's degree
and be promoted to Chief Executive
Officer (CEO) of the company
