1.

My name is Taras. I live in the village. You know, there is so much work to do there every day. My parents are always so busy. My mum spends hours working in the kitchen garden and my dad usually takes care of our domestic animals.

I try to do my best and help my parents. I always tidy up my room, and do the shopping. Sometimes I set the table for dinner. I can cook a tasty tomato salad and boiled potato.

2.

My name is Olia. I live in the town of Zhytomyr. My family is very friendly. We share all our household chores. My father bought a new modern washing machine last month. Now I like to do the laundry. You practically have to do nothing but put the laundry in and out. I also enjoy taking my dog for a walk. He is my real friend and we like playing together.

3. My name is Semen. I live in Lviv. Our family is big. There are five of us: my father, my mother, my elder brother, my younger sister and me.

All the members in our family have their duties about the house. My elder brother always vacuums the carpets and mats, my younger sister has to keep her dolls in the right place.

I have to water the flowers, do the cleaning and sometimes I do the shopping. I don't set the table for dinner but I always wash up after meals. I would like to take care of a dog or a cat, but unfortunately, we don't have any.
