Пара нужных советов

Теория

Danger! Hard Task

- 1 Волосы – не стог сена. Рисуйте не по линиям а локонами
- 2 Тени и блики – то что придает объем волосам
- 3 Плавный переход от Света в Тень (2Н,Н,НВ,В,2В)
- 4 Новички, сперва учитесь рисовать с натуры, человека (можно фото).

Учитесь по реальным волосам

- 5 Помни ты не можешь нарисовать абсолютно все пряди точно. (Даже и не пытайся) Просто старайся повторять их.
- 6 Волосы никогда не обрываются резко, где попало. Т.е. не все локоны заканчиваются на лбу, на шее. Несколько локонов – разные места их окончания (для живости)
- 7 Штриховка – друг художника
- 8 Блики – характеристика жесткости волос

Пошаговая практика

- 1 набросайте контур
- 2 Выделить мягким карандашом тени (В)
- 3 Плавный переход
- 4 Выделение локонов
- 5 Нанесение более точной текстуры (тени)
