

My dream country

Tazhybekova Dilara KEPH-32

Hello, I am Dilara. Nice to meet you

let's get acquainted!

I am from Kazakhstan,
was born there but
now I live in Azores

Azores is an island in the atlantic ocean, which belong to Portugal.

I have come here while travelling and fall in love with the place. So I decided to move there . I moved, found a job and I am living here now.

And living there about one year I can say what I like and don't like in Azores

- I like the nature, the opportunities to travel around
- I like nature food. Azores people make it by themselves cause it is too expensive to transport products to the island
- I like warm weather
- I like opportunities to watch whales swimming near the island once a season.

I don't like strong winds. Since this is an island in the middle of the ocean and nothing covers it

I don't like the smell of cheese

- My favourite memory from Azores is is when I was at the top of the hollow. It was increadiable feelings

In the end Azores is the place where I am definitely going to live for some years. Cause it is stunning country with its untouched nature, kind people and freedom animals. I advice every of you visit the island and feel this all and I am sure you will not regret. And I am pleasure to meet you and be your guide. Hope you feel good and see you then..
