The screenshot shows a sign-up form titled "Prøv i dag - jobb i morgen". It asks if the user is curious about how it works and encourages them to register to receive more information. The form fields are pre-filled with "Jan Harald Nordbye", "jhnordbye@gmail.com", and "+4791773035". A large green button at the bottom right contains the text "→ Kom igang". A red arrow points from the text "Inserted text" to the email field. Another red arrow points from the text "Pressed this button" to the "Kom igang" button. A third red arrow points from the text "Got this error message" to a red-bordered message box at the bottom that says "There was an error trying to send your message. Please try again later." A black arrow points from the text "The information should be sent to; hallo@blirfint.no" to the "Kom igang" button.

Got this error message

We receive the same error message
when we press these buttons;

<http://52.19.4.178/blirfint-signup/>

I think this is the main
problem; /blirfint-signup/?
