

Easter project

by Riko Nomiyaama

Hi, there! My name is Riko. I'm 13. I live in Kama city in Japan.

This egg is made by me. To make the egg I used plastic bottle and Japanese paper called "Washi".

First, I pasted washi on the bottle. Second I cut out cherry flowers and painted them pink. Then, I glued the flowers on the bottle.

Finally, I filled my egg with sweets. I'm going to hide the egg in the garden and ask my friend to find it.

Happy Easter, everyone!
