FIGURE 4. As the building appeared on October 14 ready for the move to start.

FIGURE 5. On October 18 the structure had reached the end of the straight move.

FIGURE 6. October 25 showing curved walk in place. The building turn has been started.

FIGURE 7. By October 28 the turn of the building was becoming quite apparent.

FIGURE 8. Two days later on October 30 shows one-third of the turn completed.

FIGURE 9. On November 1 the structure had moved around to the half-way point.

FIGURE 10. November 4. The front face of the building has now disappeared from view.

FIGURE 11. By November 6 only one-quarter of the right-angle turn was left.

FIGURE 12. November 8. The rear of the building begins to show in this picture.

FIGURE 13. November 11. Next to last day and only a few feet to go.

FIGURE 14. On the afternoon of November 12 the building move had been completed.

FIGURE 15. Pulling cables, trackage and arrangements for public to view operations.

**Остатки**
