## Why do we read?

- an email, text message, street sign, or even a status on Facebook all require you to read.
- many people read to learn information or facts, to be entertained, or to understand other cultures or groups.
- to gain a more thorough understanding of the characters or the story. If you are reading for entertainment, you want to fully comprehend the action of the story and the characters.
- reading is pointless unless you gain some understanding of the text. Be it for entertainment, learning, or communication, you need to be able to comprehend what you read. The more you read, the more your reading comprehension will improve.
