Unit 3 Safety first

Last week was Road Safety Week at Kate's school. All the pupils had to attend a talk on road safety which was given by a police officer. This is what the police officer said.

'Most road accidents shouldn't happen. They happen because people are careless. A frequent cause of road accidents is speed. Some people drive too quickly. This means that if they have to stop suddenly they cannot stop quickly enough to avoid hitting other vehicles or people. You need to remember this when you are crossing the road or walking along the pavement.'

'It's not only drivers who cause accidents, however. People on foot – pedestrians – and cyclists often cause accidents. Pedestrians sometimes walk out into the road without looking. You should always look in both directions before stepping into the road.'

'Do any of you ride a bike? Cyclists can also cause accidents by changing direction suddenly or without warning other road users. Before you turn left, for example, you should check to make sure there aren't any cars, trucks or buses coming. You should signal with your left hand to show that you want to turn left. You should not turn until the road is clear.'

'The rules of the road are very simple. If we learn them and obey them we should not have accidents.'

Words to remember!

- Safety – безопасность
- Careless – неосторожный
- Frequent – частый
- Vehicles – транспортное средство
- Pavement – покрытие
- Pedestrians – пешеходы
