

A movie poster for 'Percy Jackson and the Sea of Monsters'. The central figure is Percy Jackson, a young man with dark, wavy hair, wearing a green jacket over a blue t-shirt and dark pants. He is looking upwards with a determined expression, his hands outstretched as if feeling the air. To his left is another young man, Luke Castellan, with short dark hair, wearing a brown jacket over a dark shirt. To Percy's right is a young woman, Annabeth Chase, with long brown hair, wearing a purple patterned top. They are all standing in a turbulent, swirling sea of water that appears to be a giant's foot. In the background, a city skyline is visible under a dark, stormy sky with a bright lightning bolt striking down. The overall color palette is dominated by blues, greens, and greys, with a dramatic, high-contrast lighting.

# BOOK REVIEW

Percy Jackson, a twelve-year-old American schoolboy, nearly falls victim to a math teacher. It is good that the pen that Mr. Brunner gave him, a teacher of Latin, turns into a real sword and hits a mad mathematician. But Percy Jackson's troubles don't end there. On the coast, where they leave with their mother, they are attacked by the monster Minotaur. And Percy's friend in school, Grover, who suddenly came to the rescue, turns out to be not a boy, but a satyr.

the whole cycle of books is full of connections and

plot twists, in it you will never understand who will be the follower and what will happen next. in these books you will go down to the Aida dungeon. swim in the river stix and you will reach the tartar, you will rise on Olympus to Zeus, you will communicate with the gods. You will battle with the fiends of hell on Monhetanna and many other things.

and if you stay alive after that, then another cycle of books "Olympus Heroes" is waiting for you. in it, you are to consolidate the Greek and Roman camps against a common enemy. but that's another story
