

АРТЕРИАЛЬНАЯ СИСТЕМА

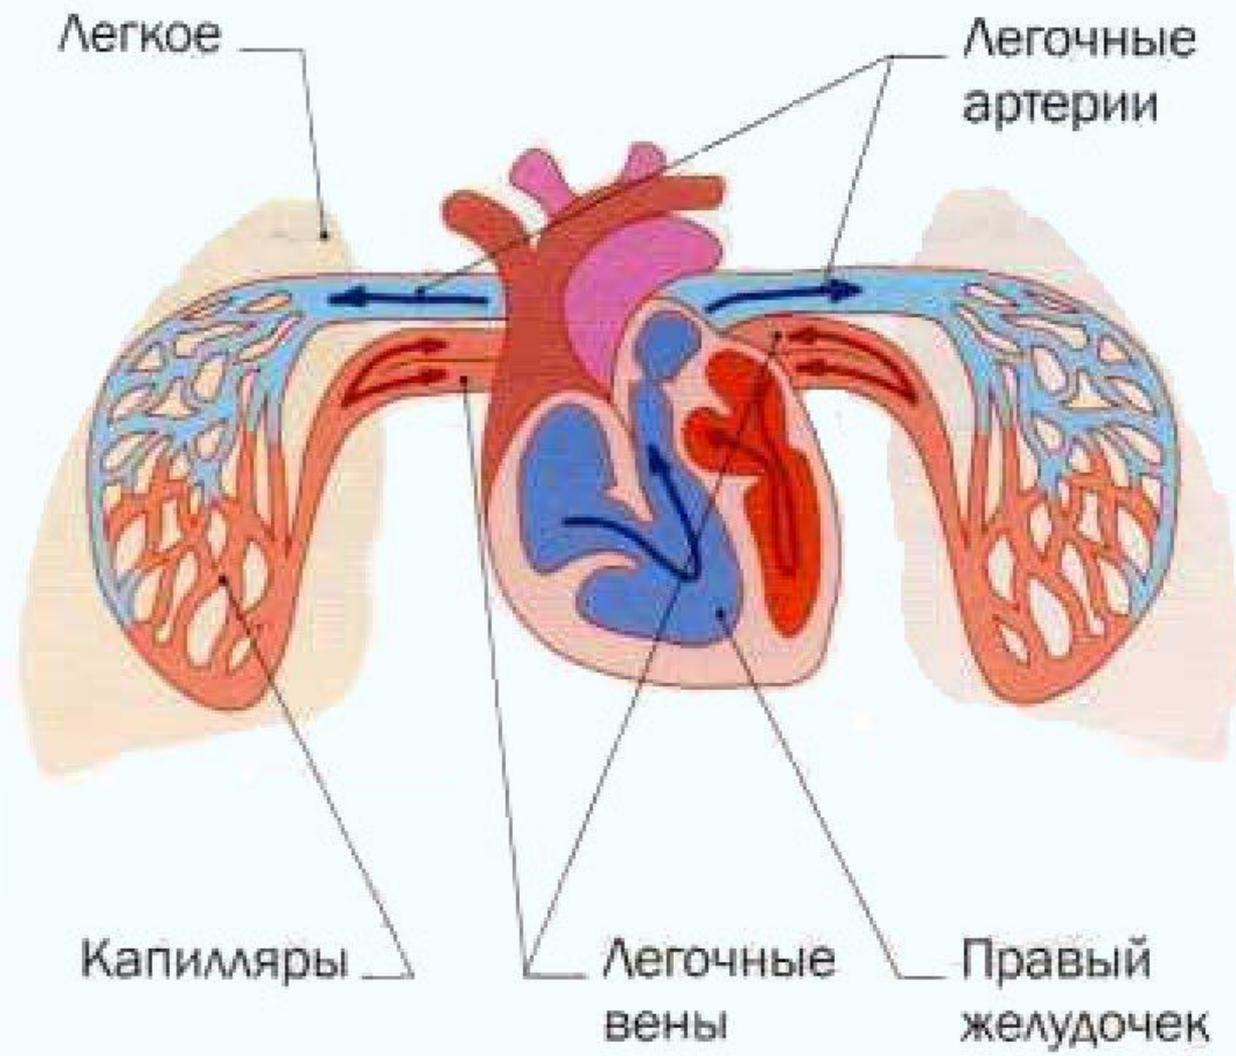

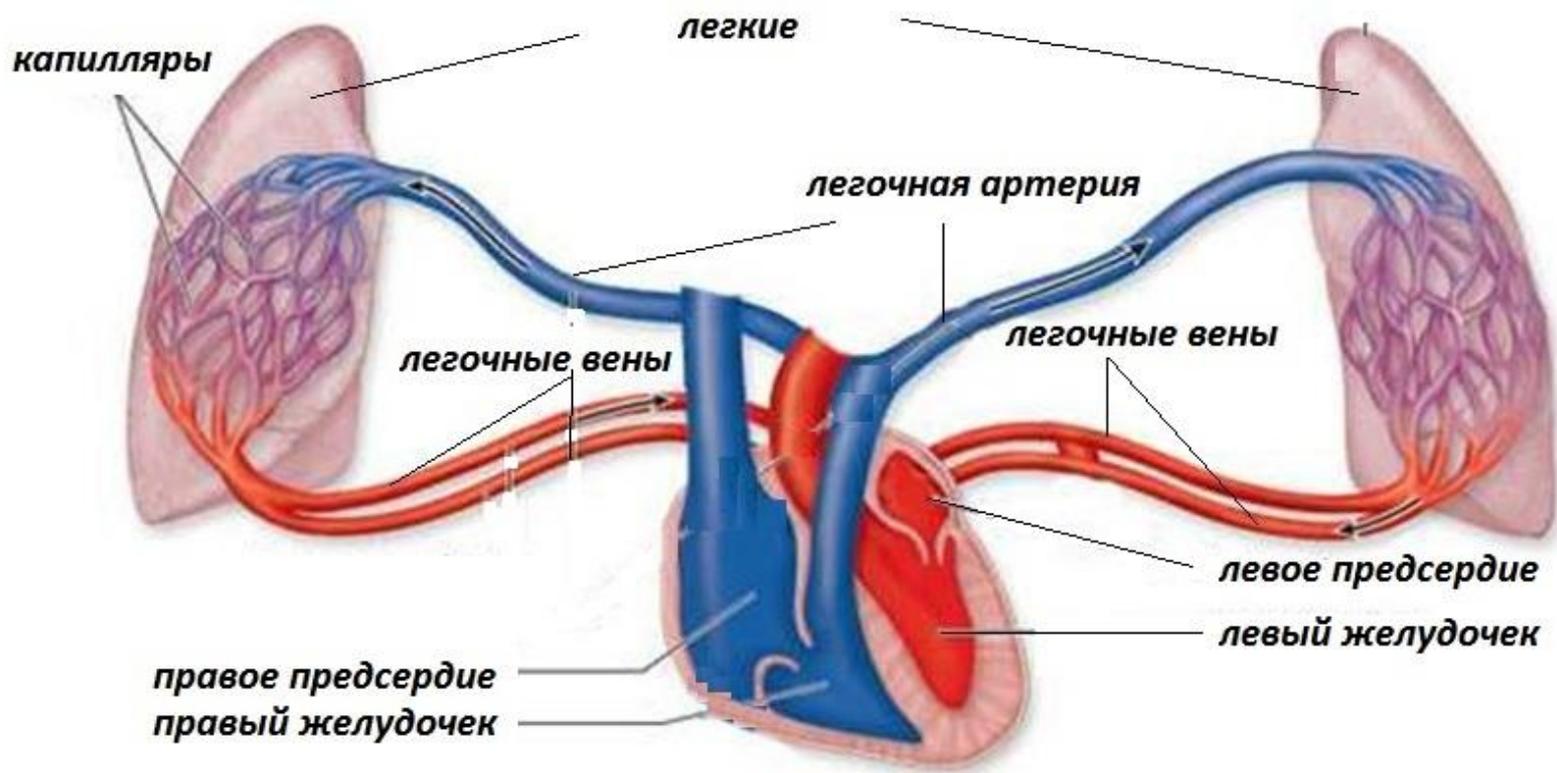

Малый круг кровообращения

- Правый желудочек
- Кровь течёт к лёгким
- Она насыщается кислородом и освобождается от углекислого газа
- Из венозной кровь превращается в артериальную
- Сердце (левое предсердие)

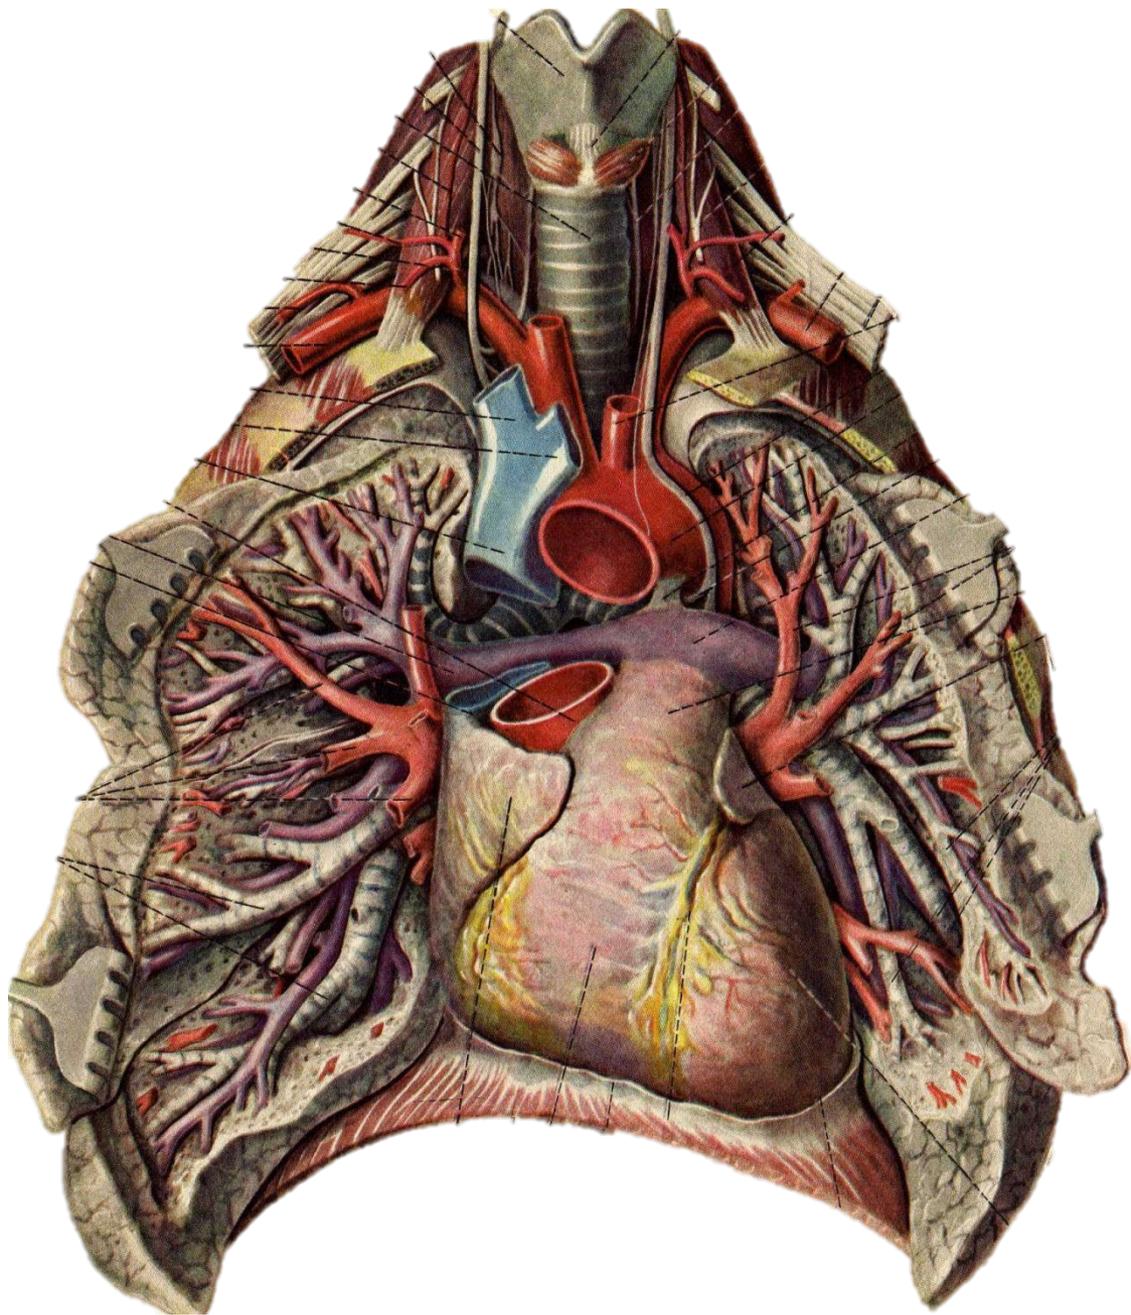

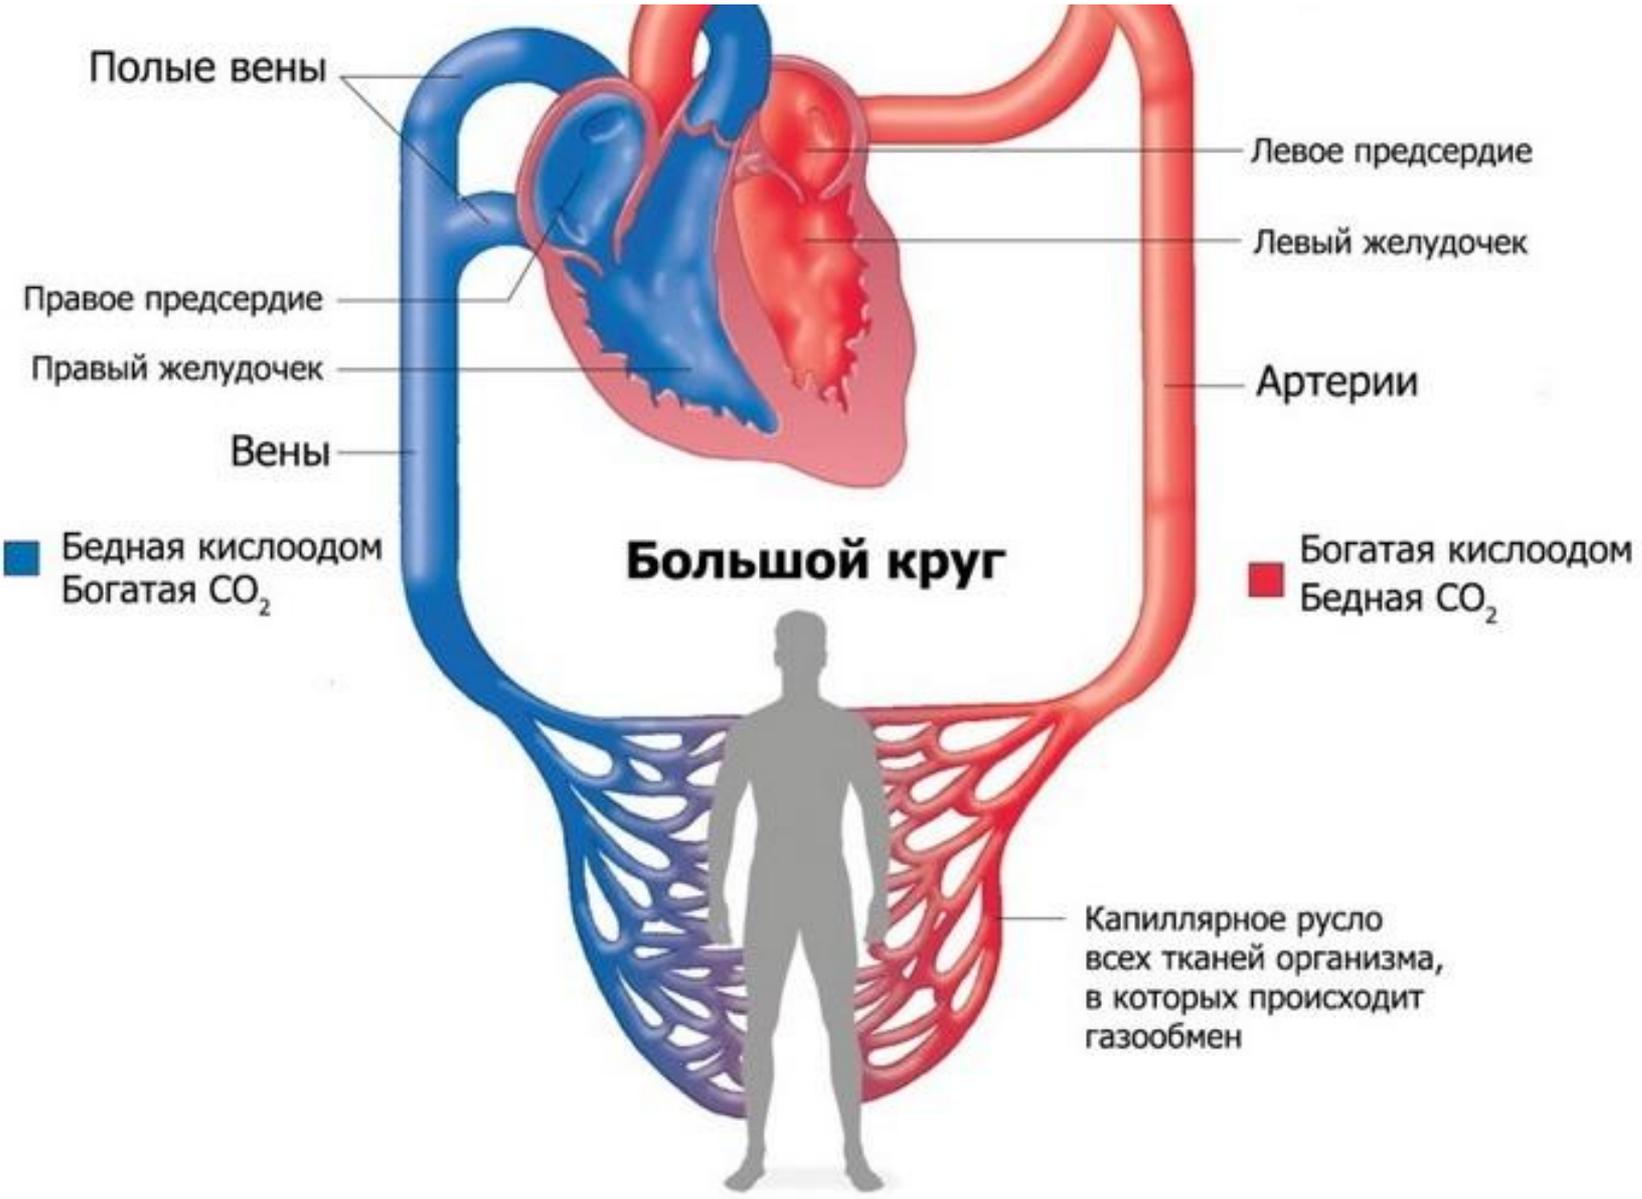

МАЛЫЙ КРУГ КРОВООБРАЩЕНИЯ

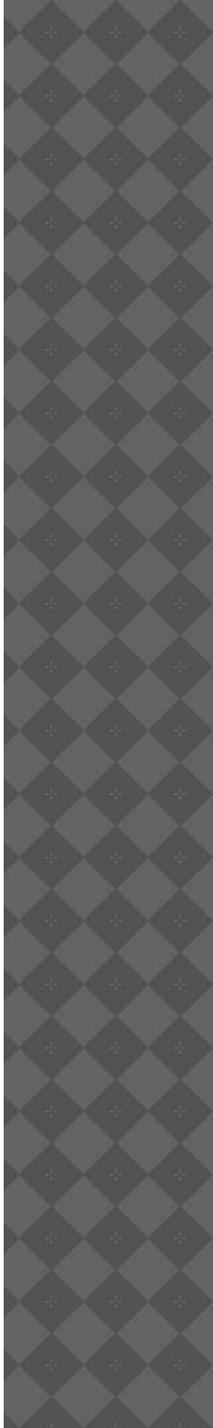

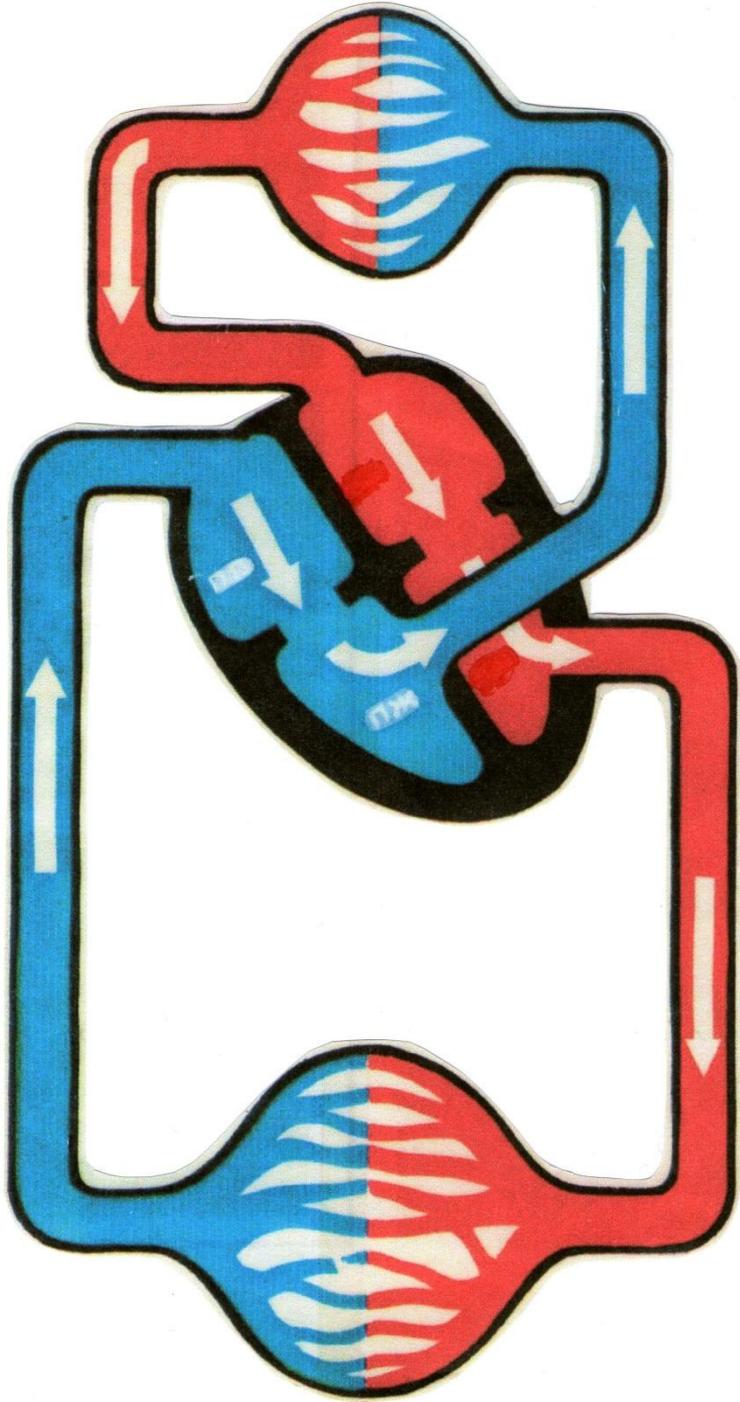

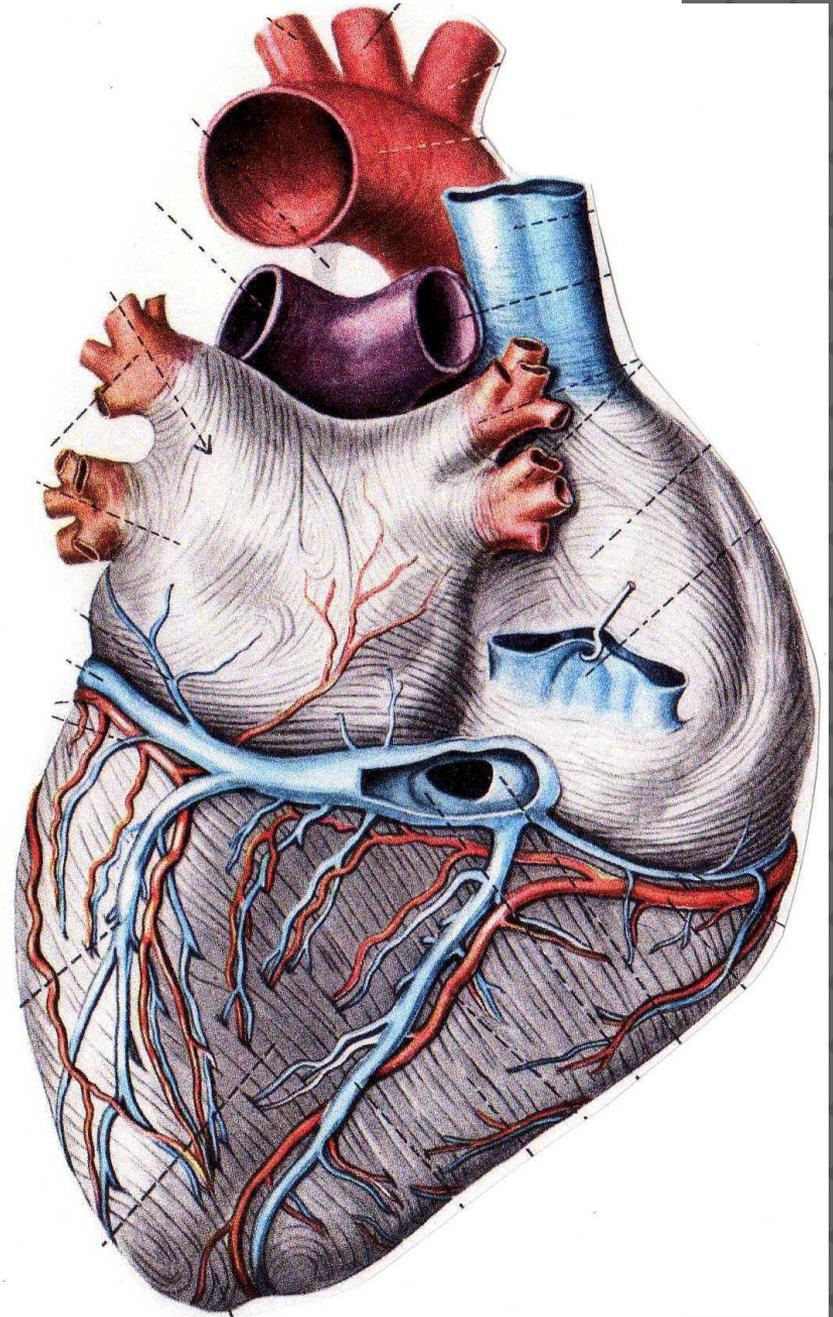

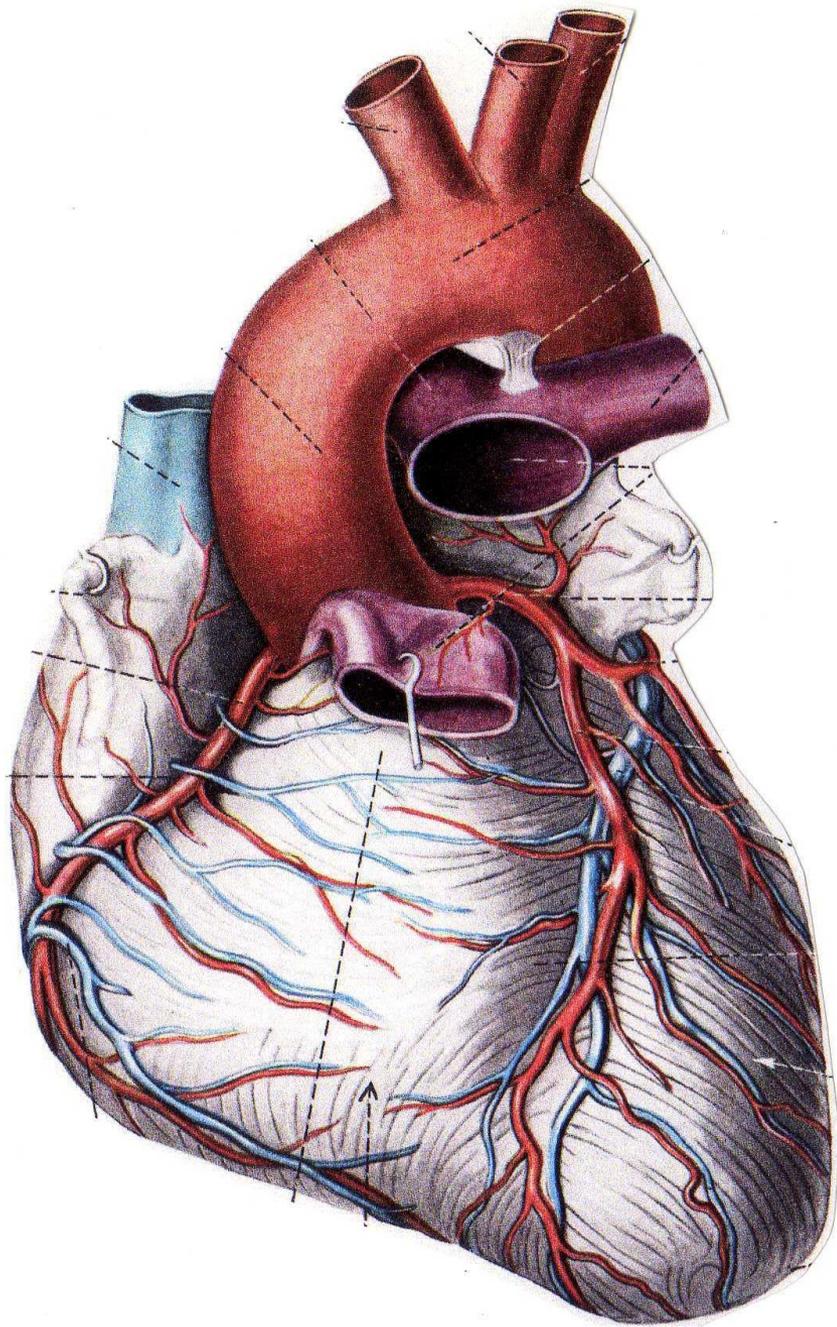

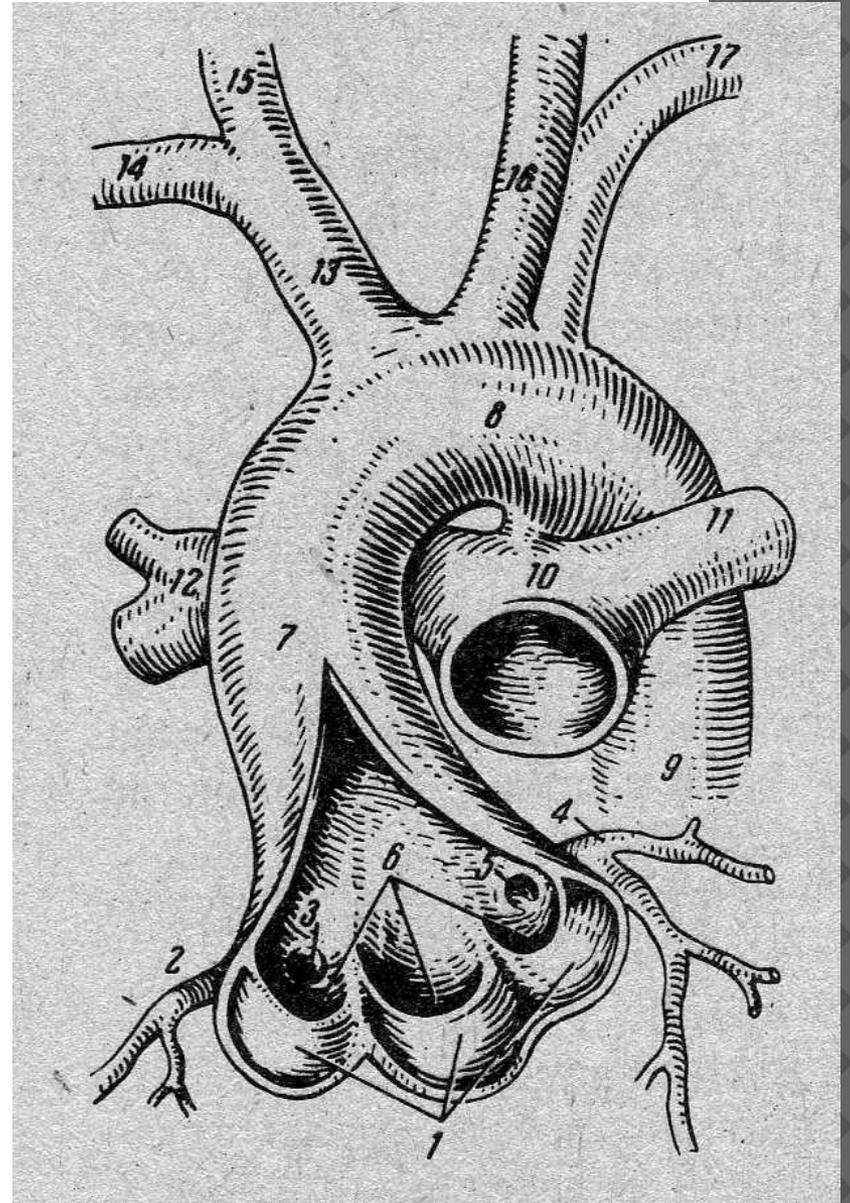

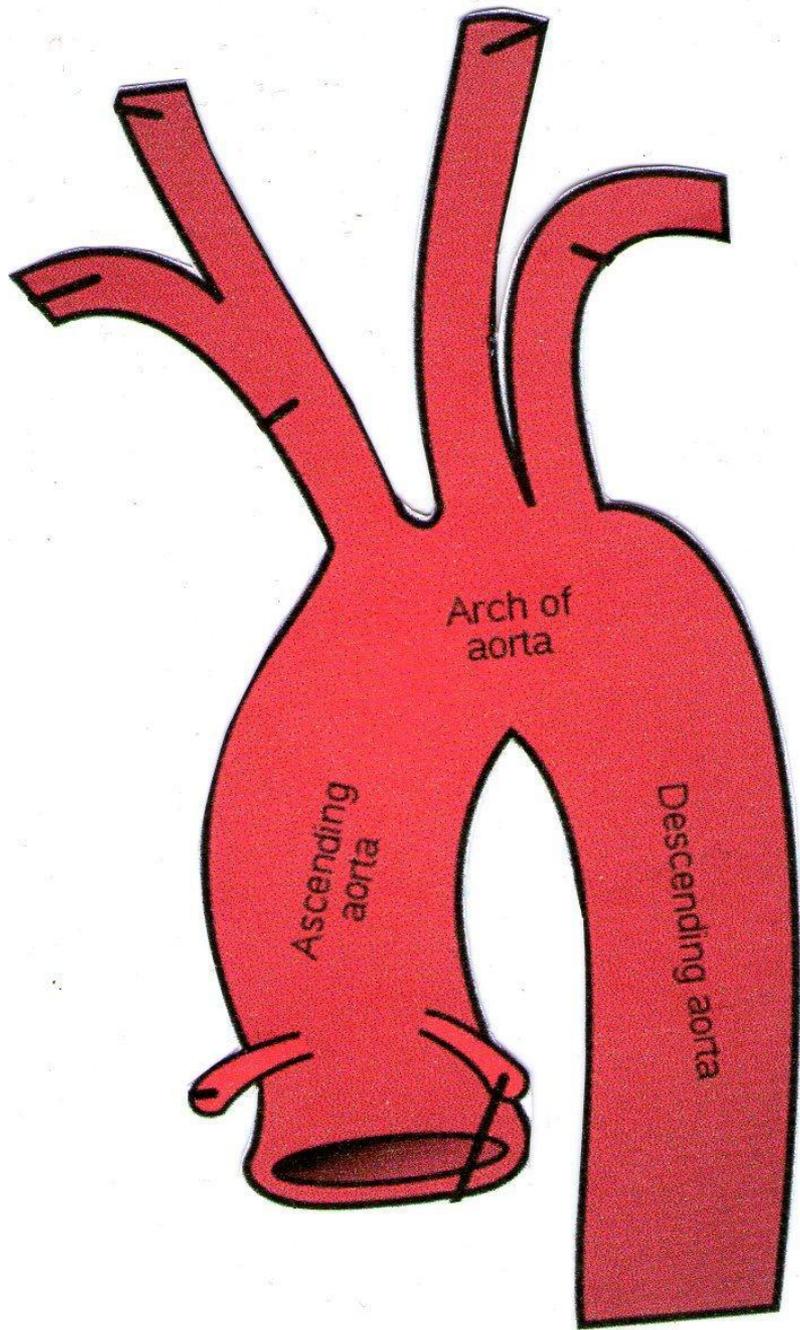

Правый желудочек ⇒ легочный ствол (легочная артерия) ⇒ сосуды легких (правое и левое легкое) ⇒ капилляры легких ⇒ легочные вены ⇒ левое предсердие ⇒ **левый желудочек**

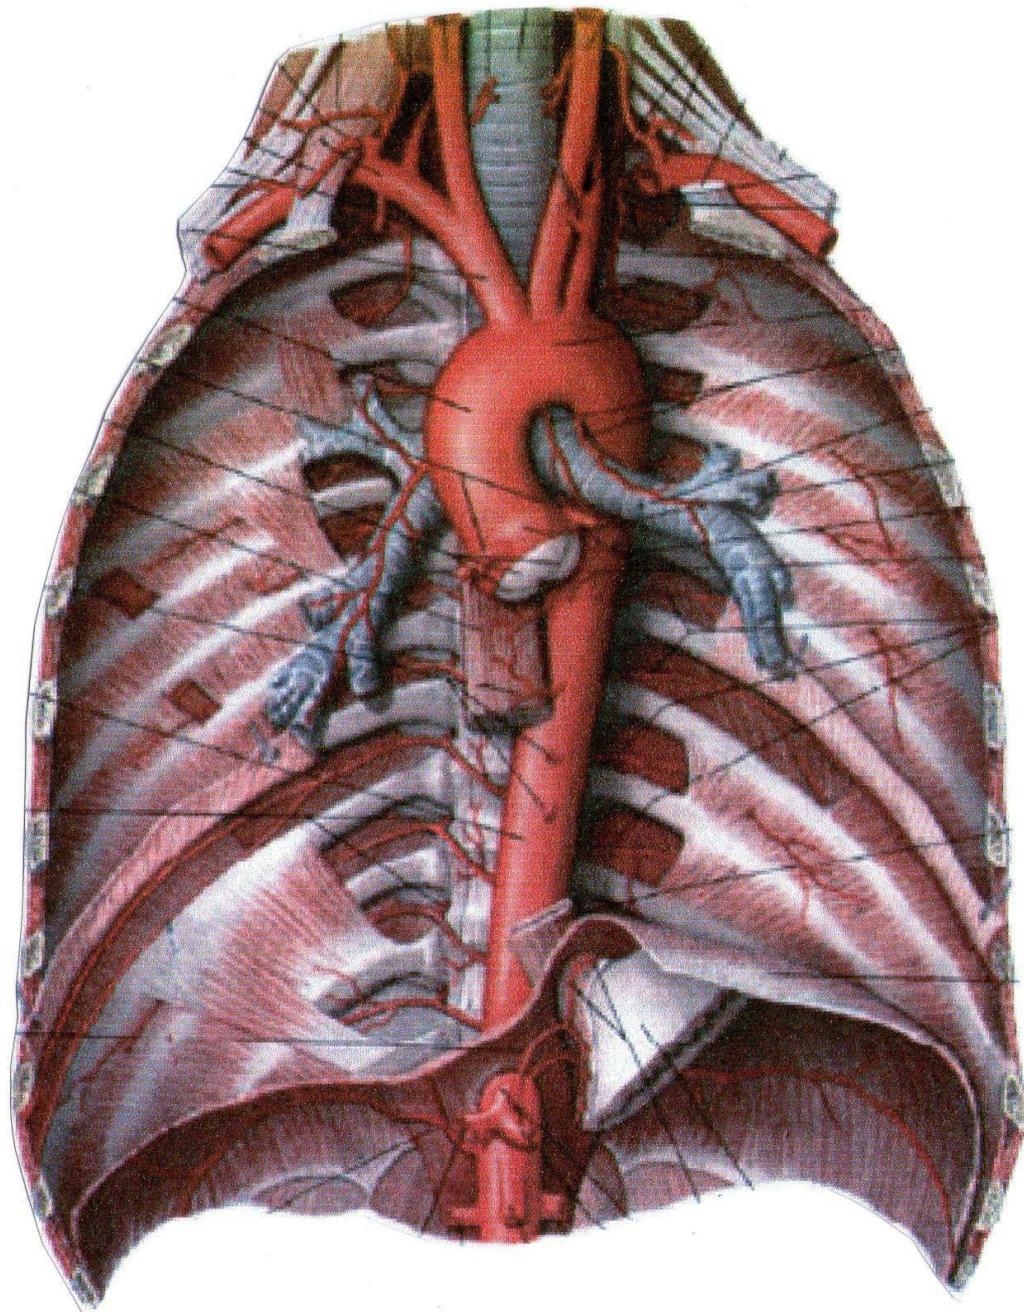

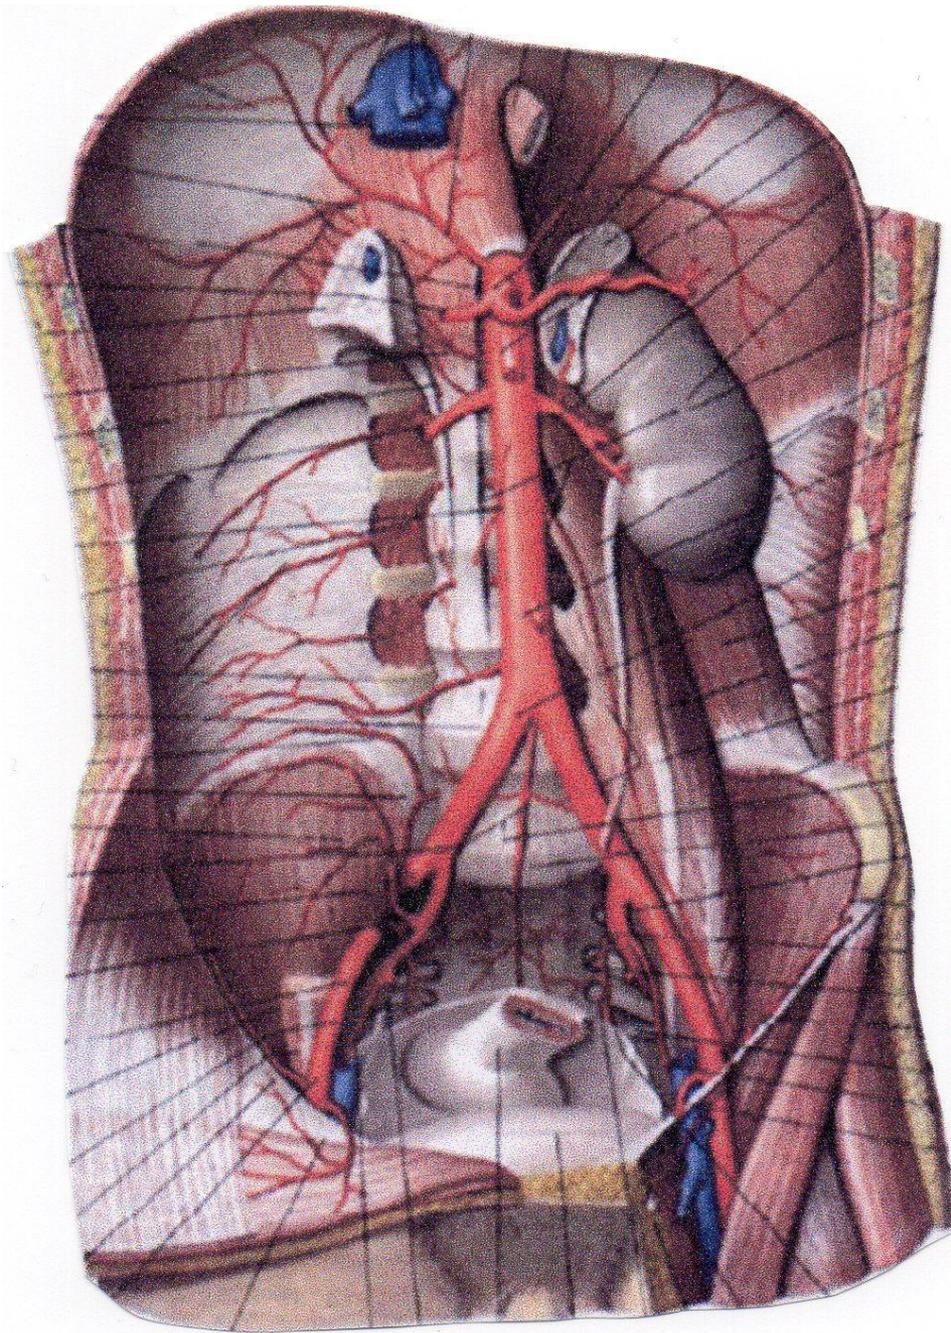

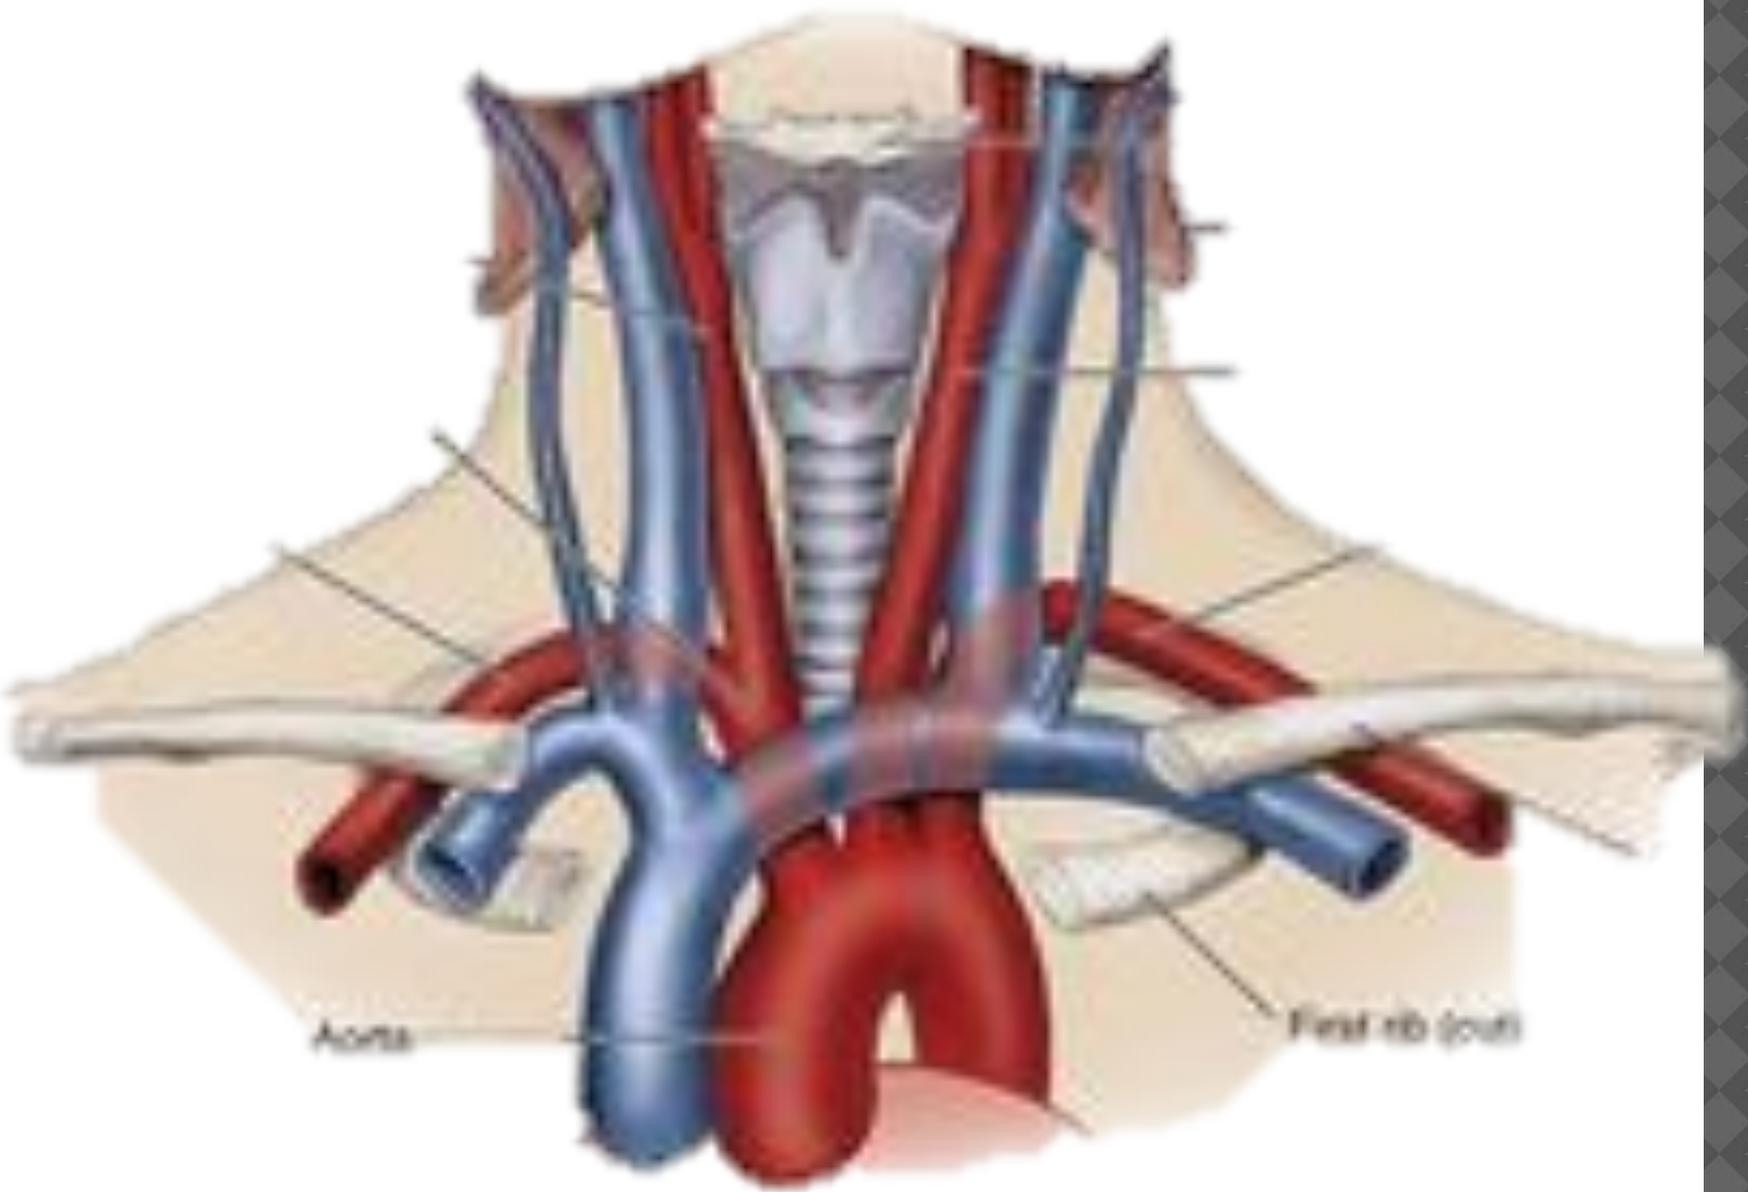

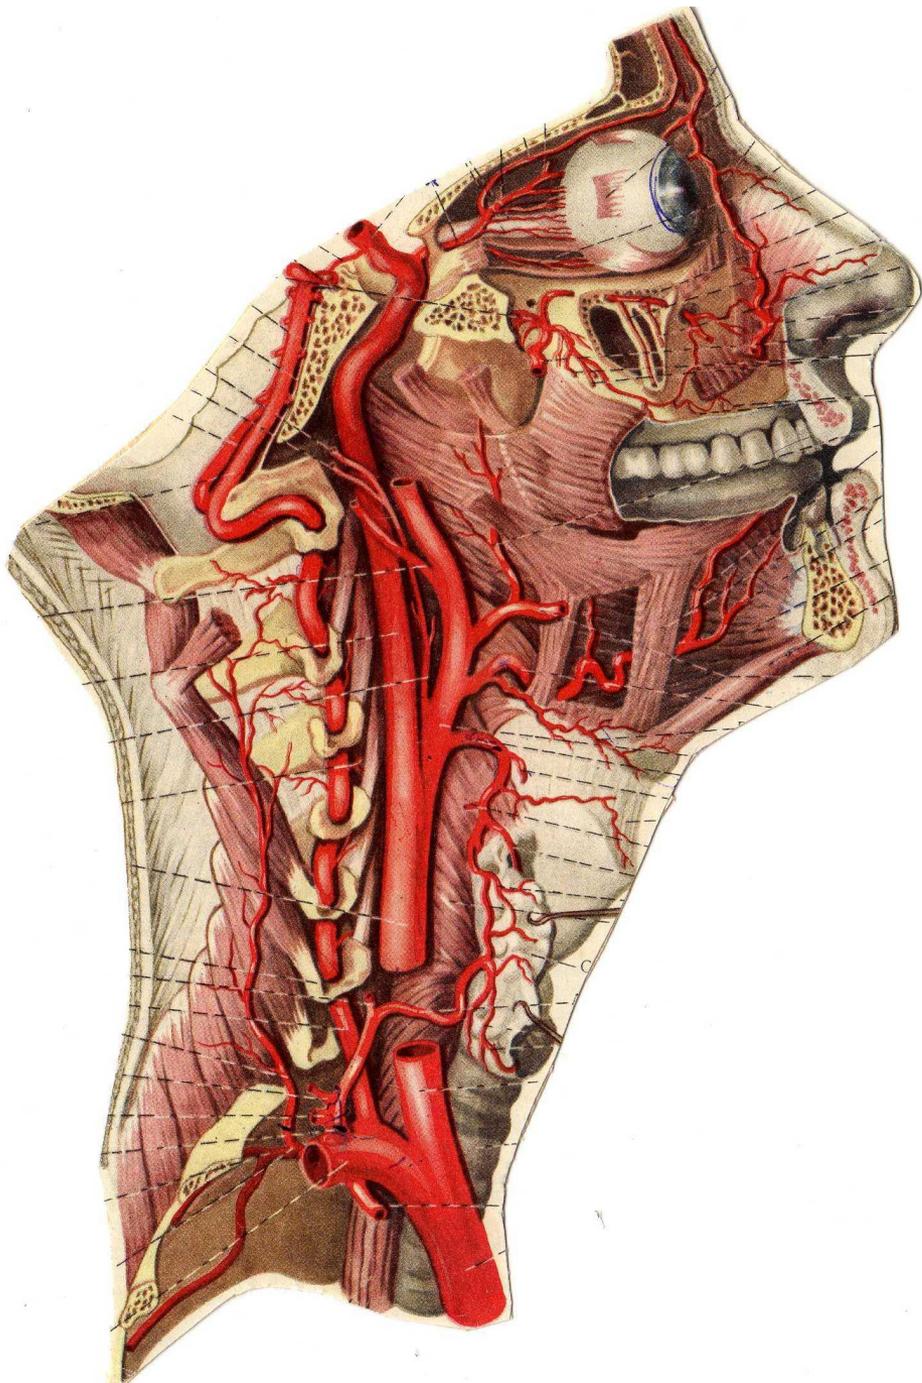

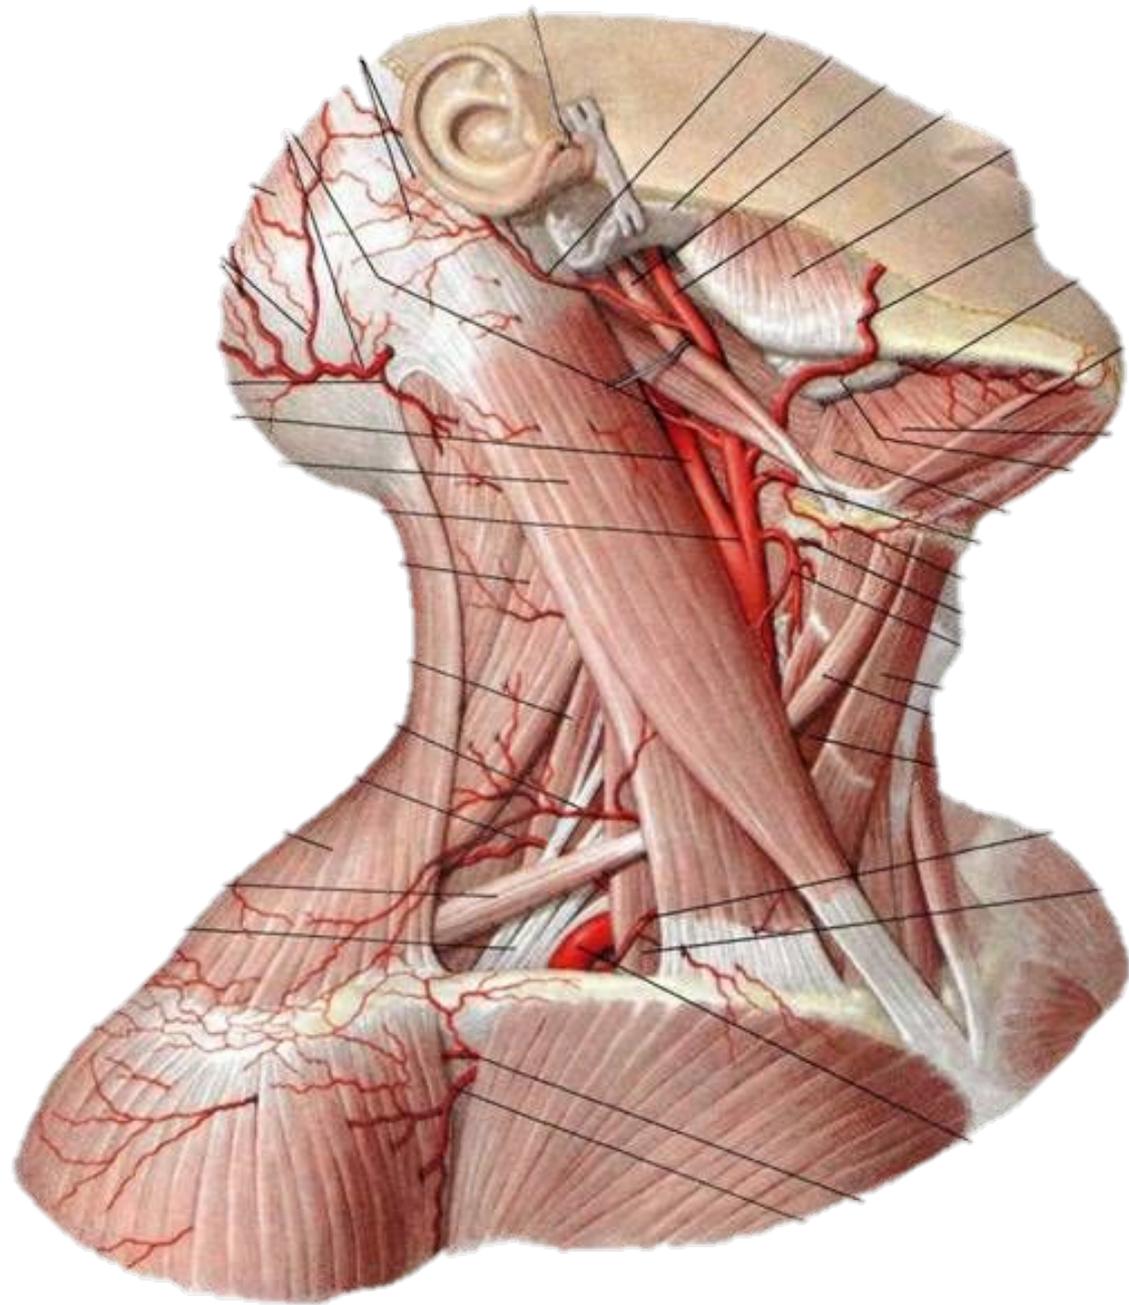

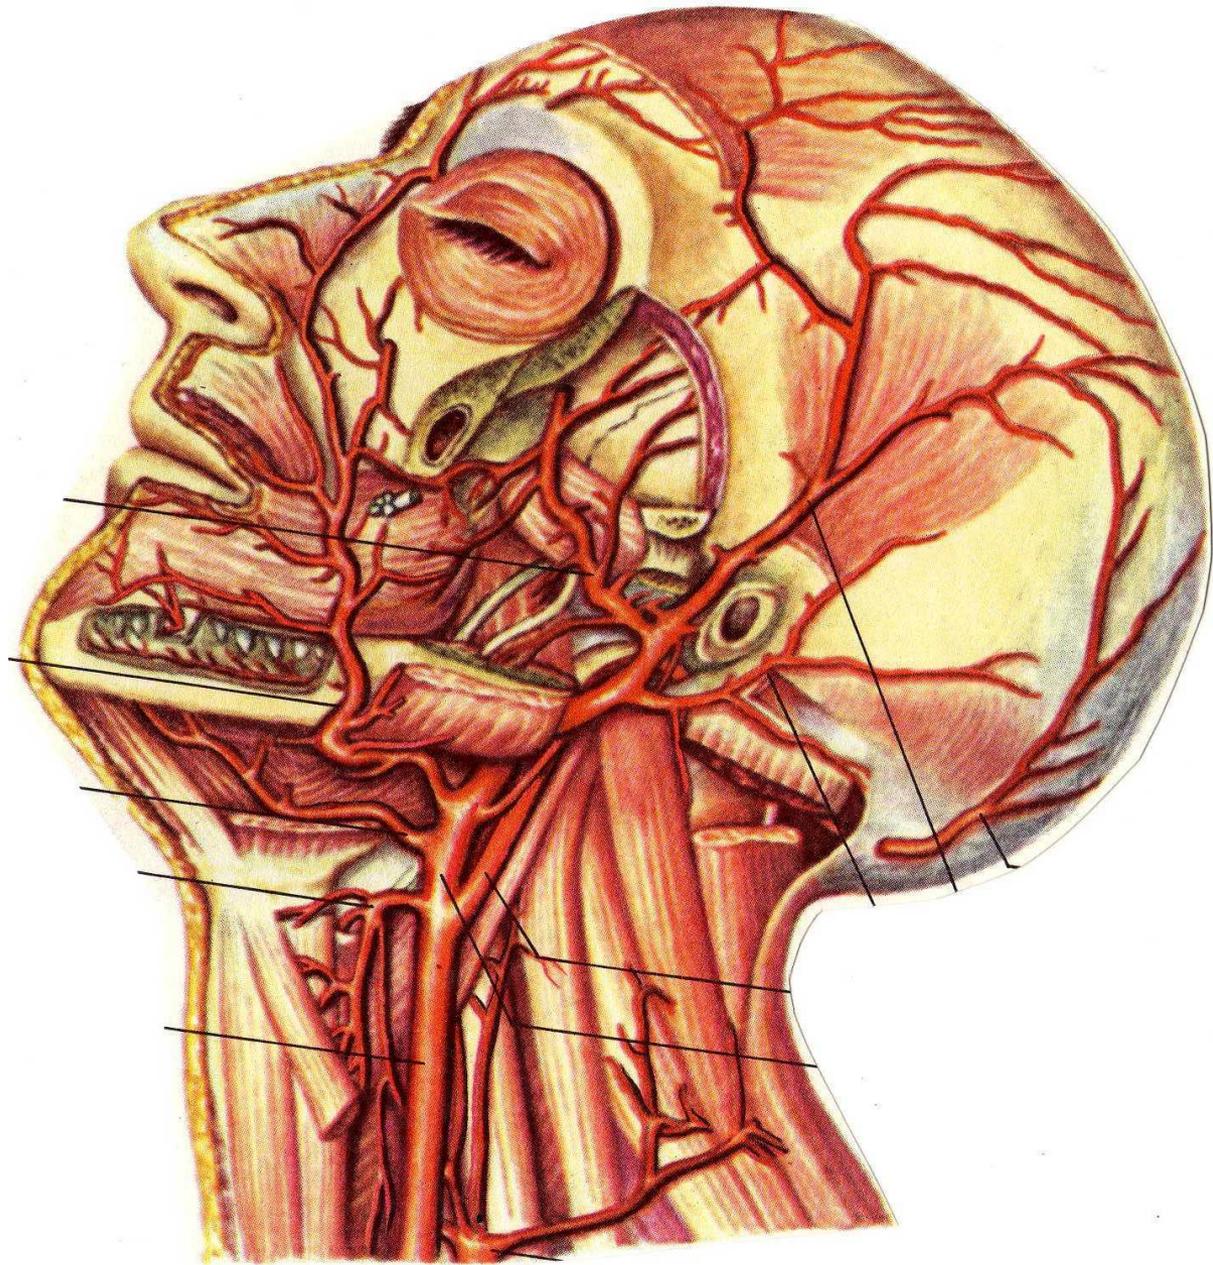

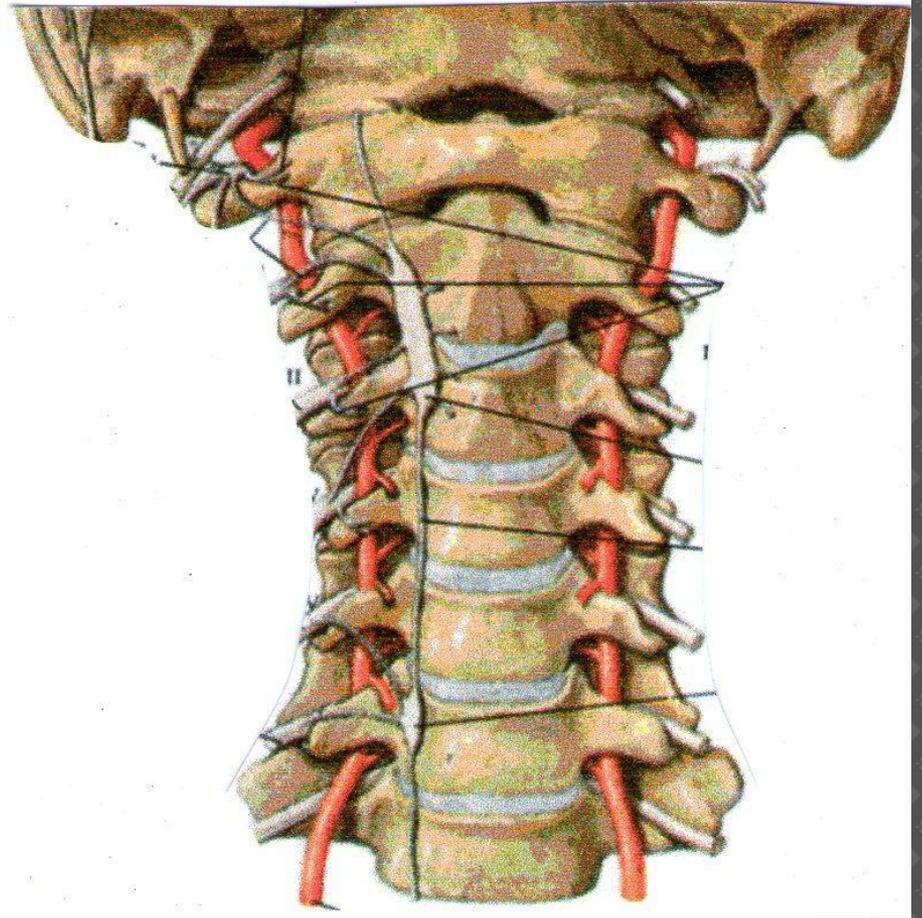

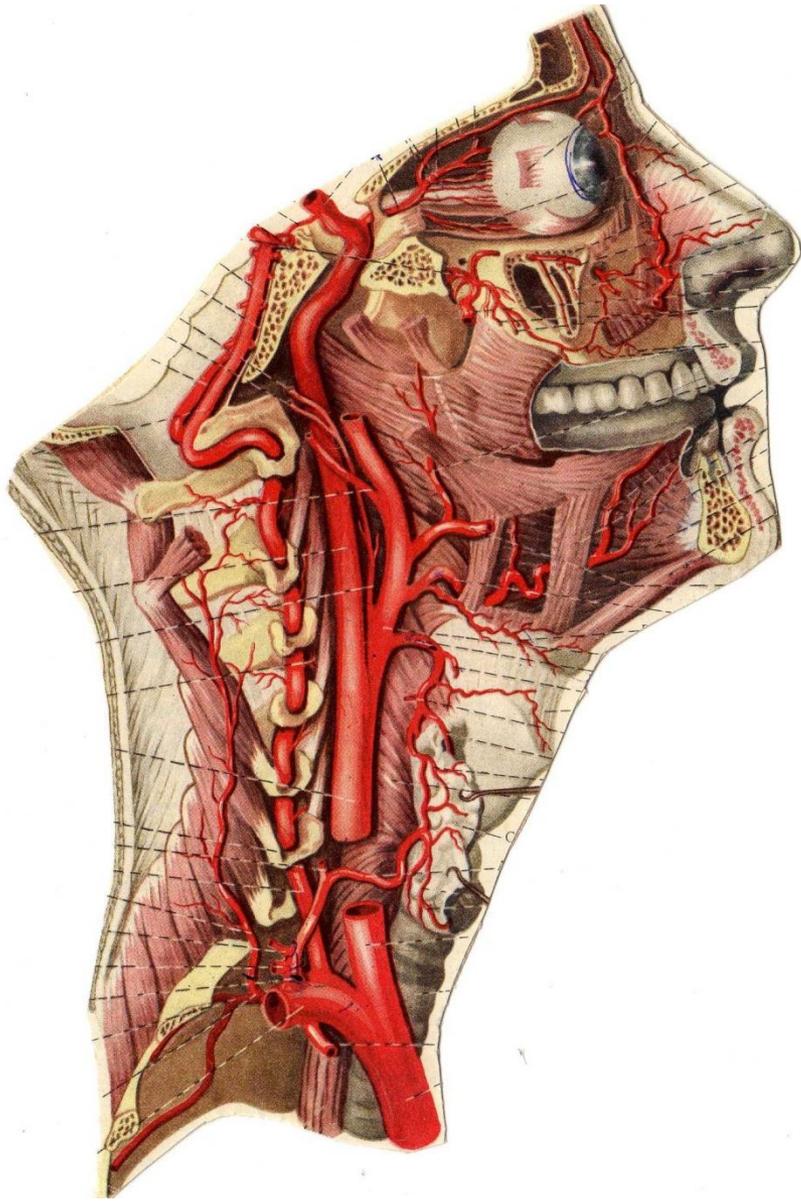

Aorta

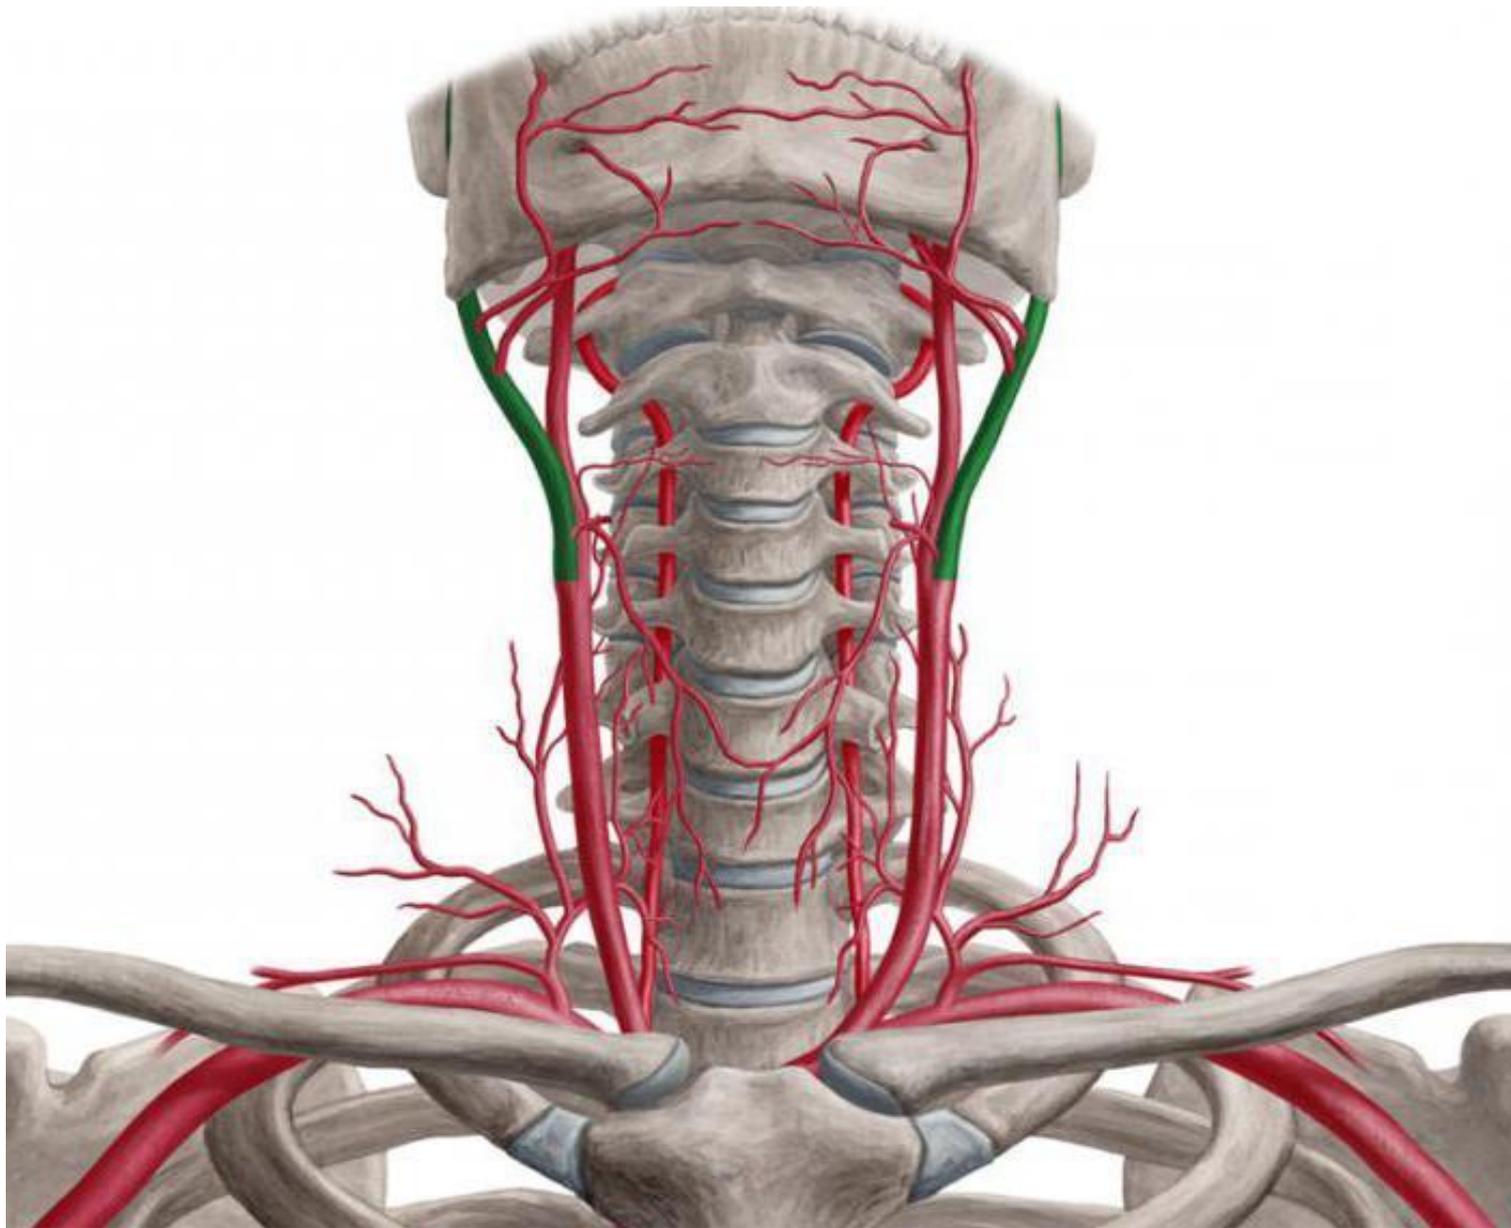

First rib (cut)

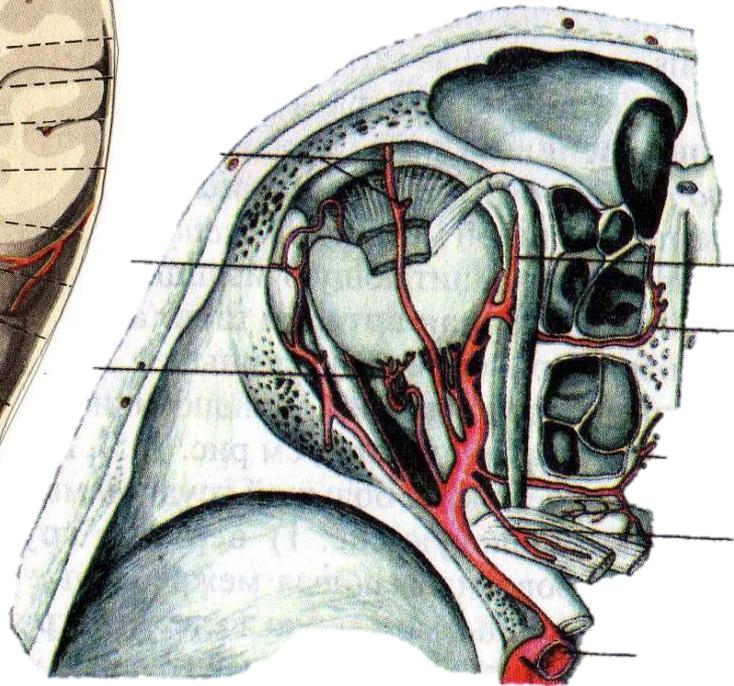

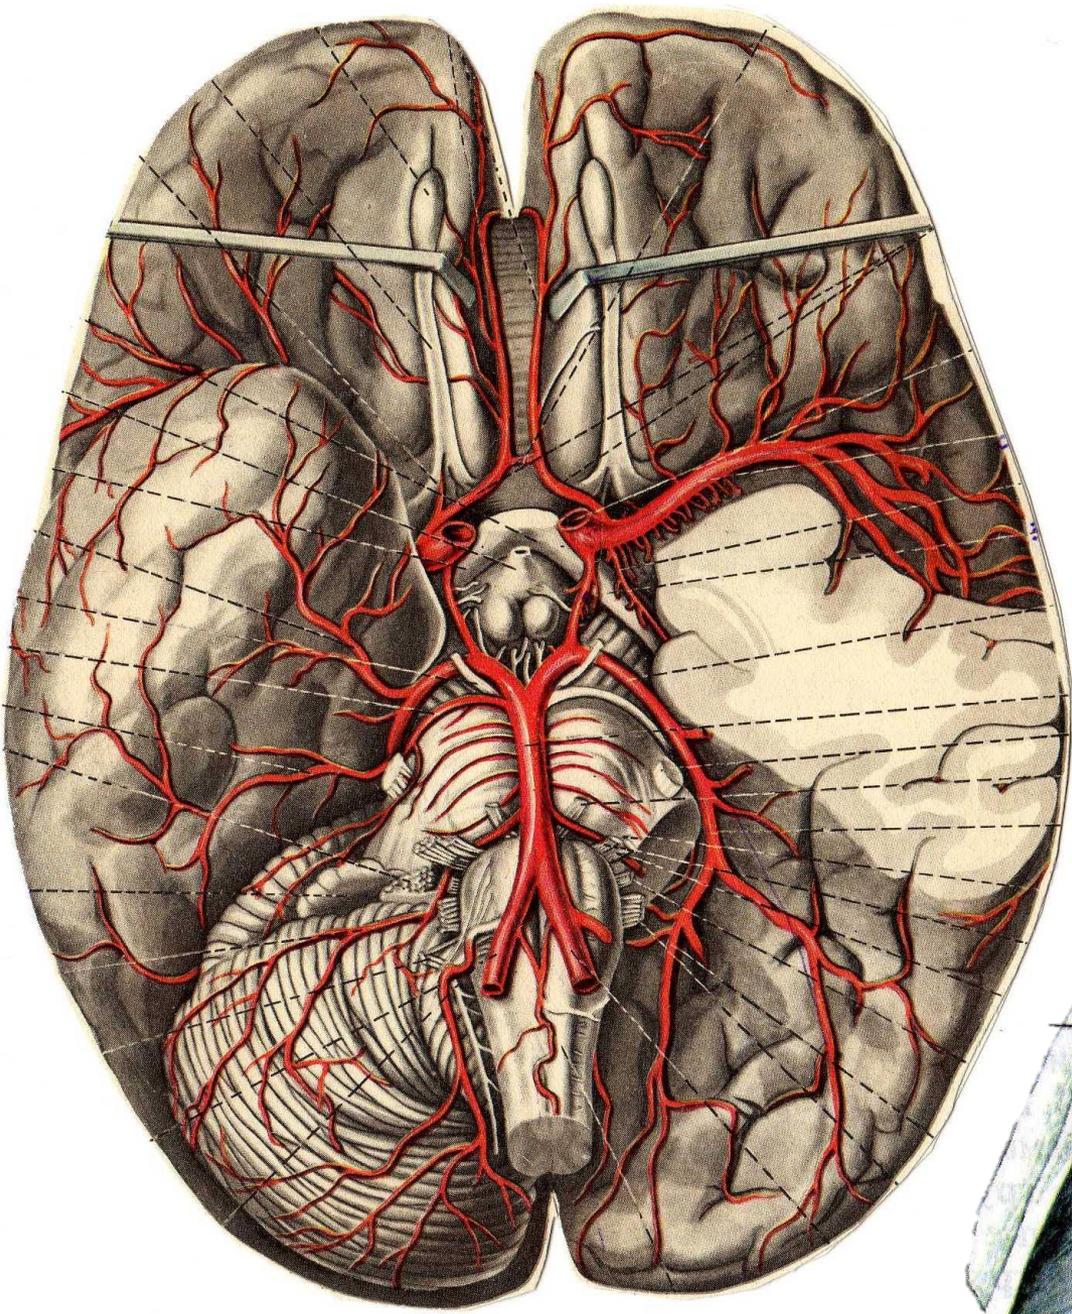

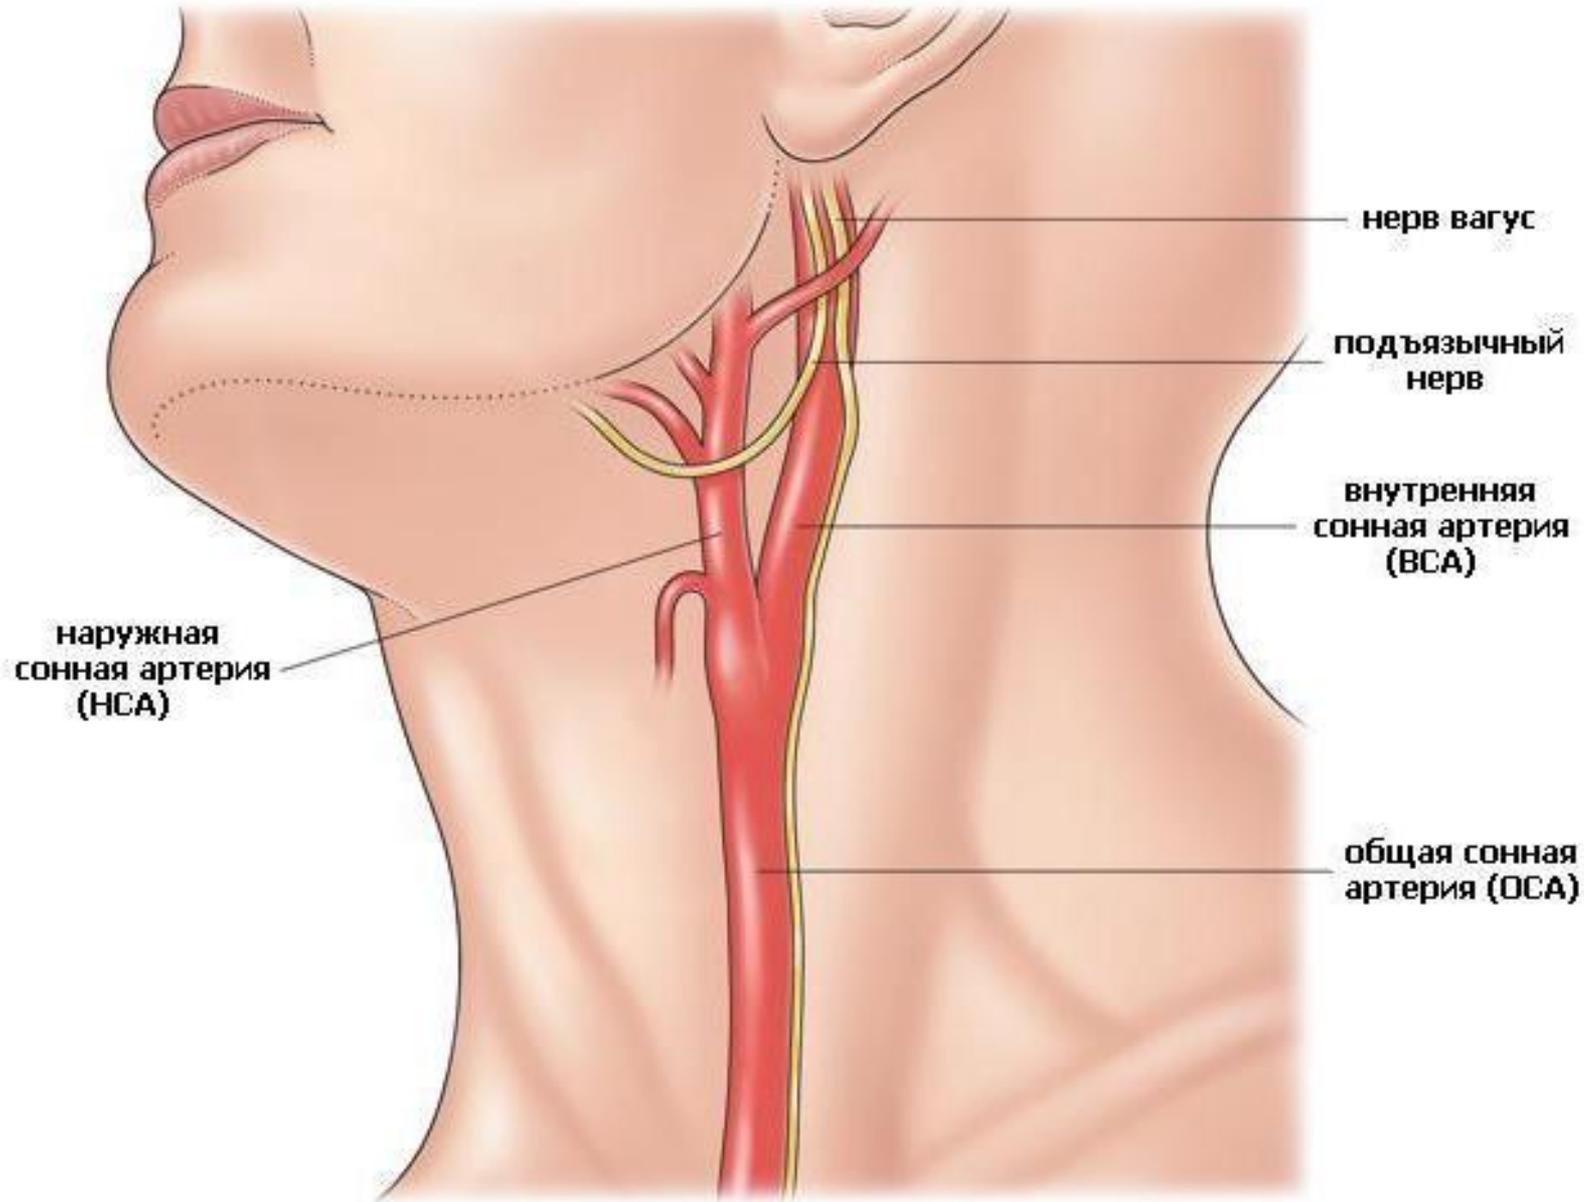

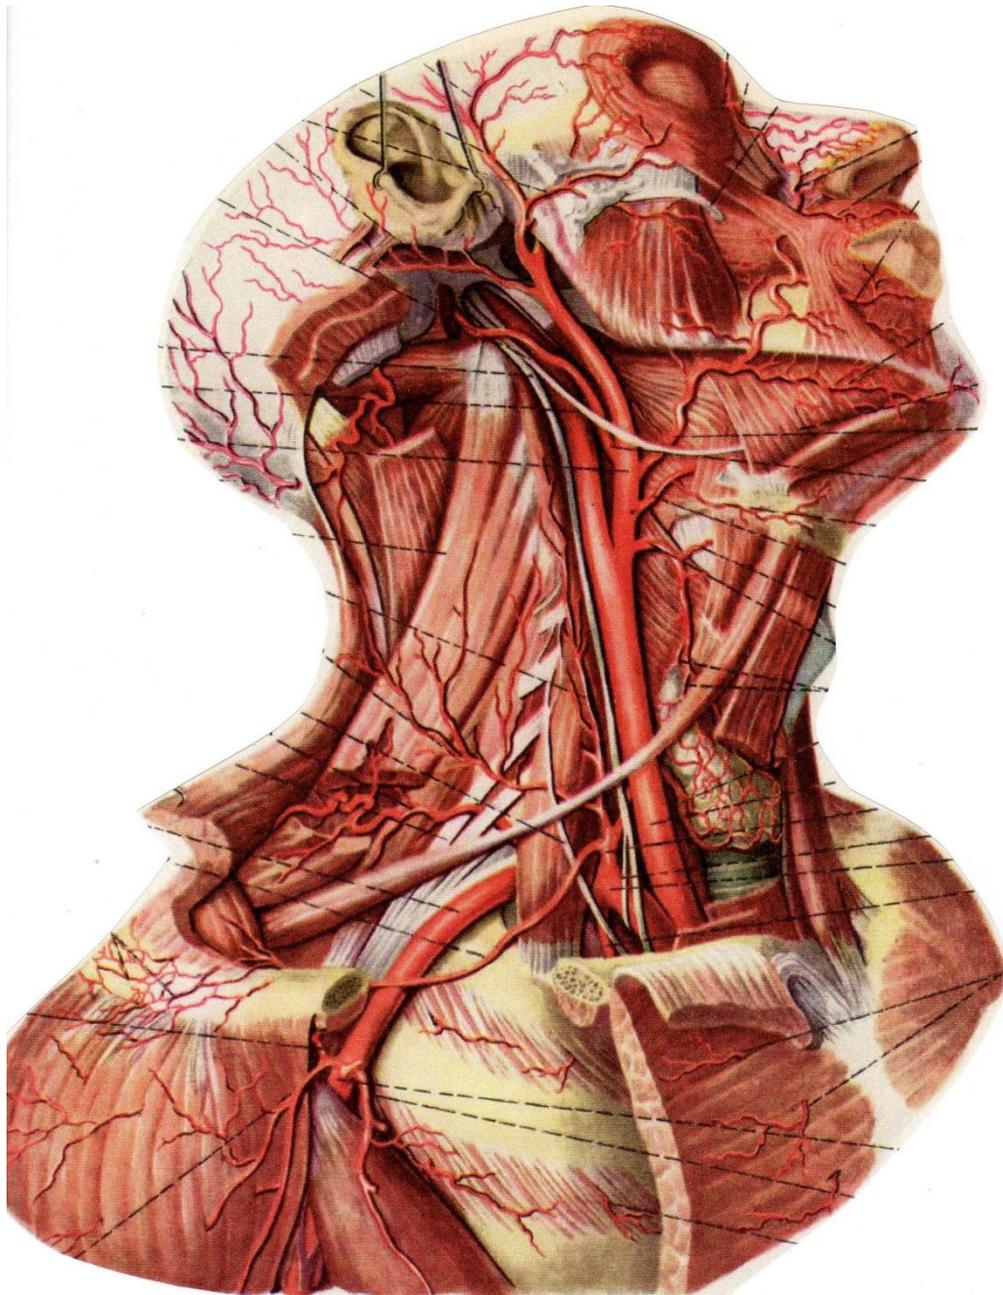

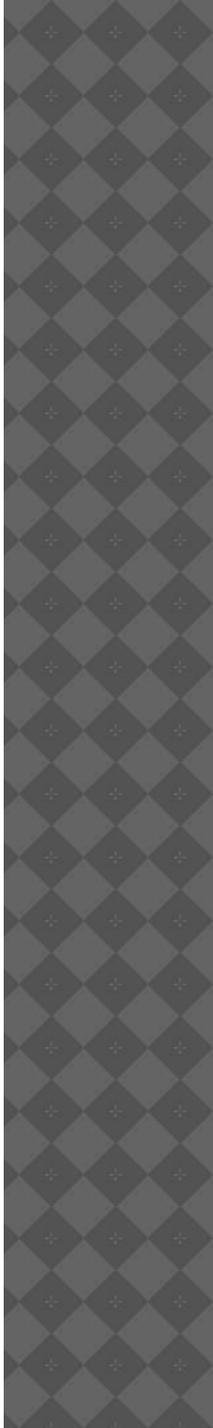

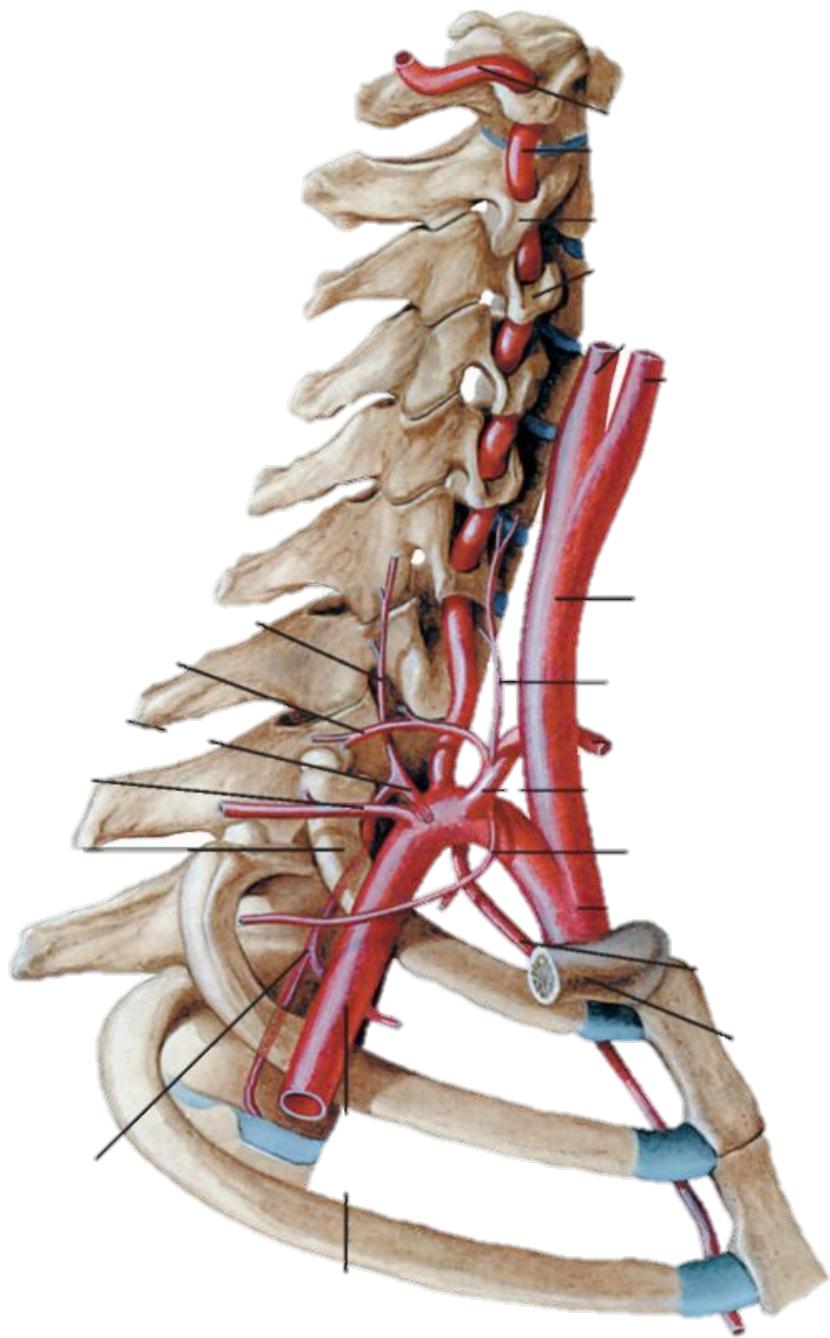

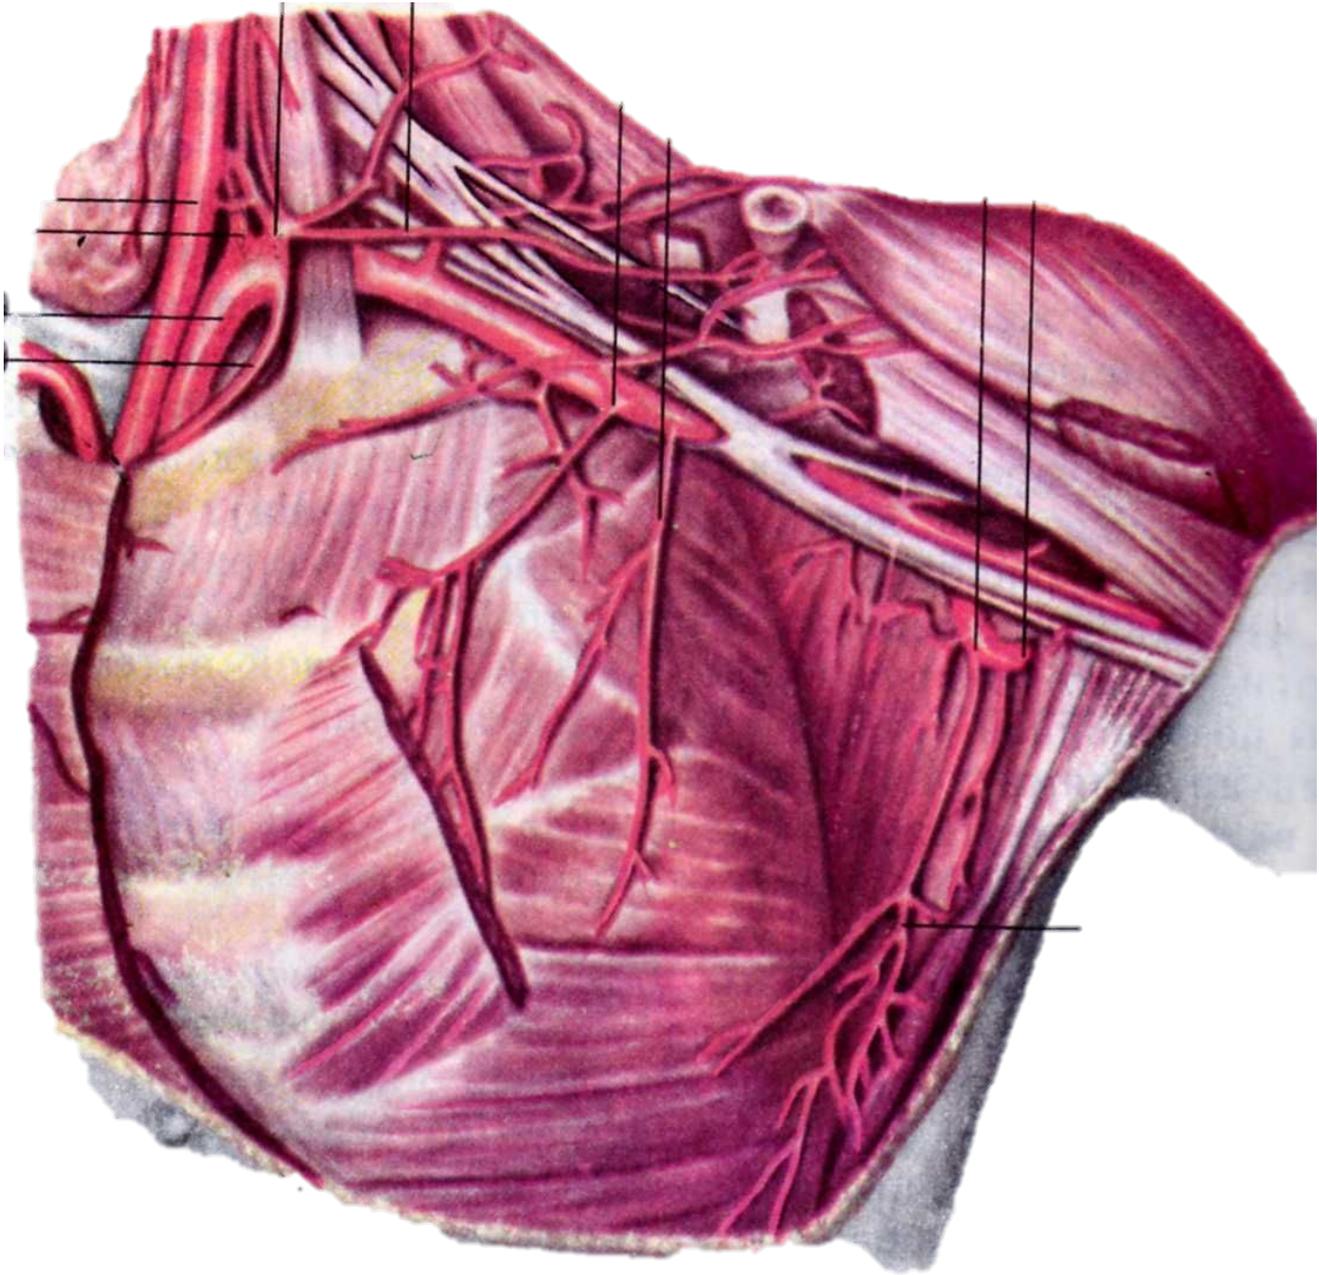

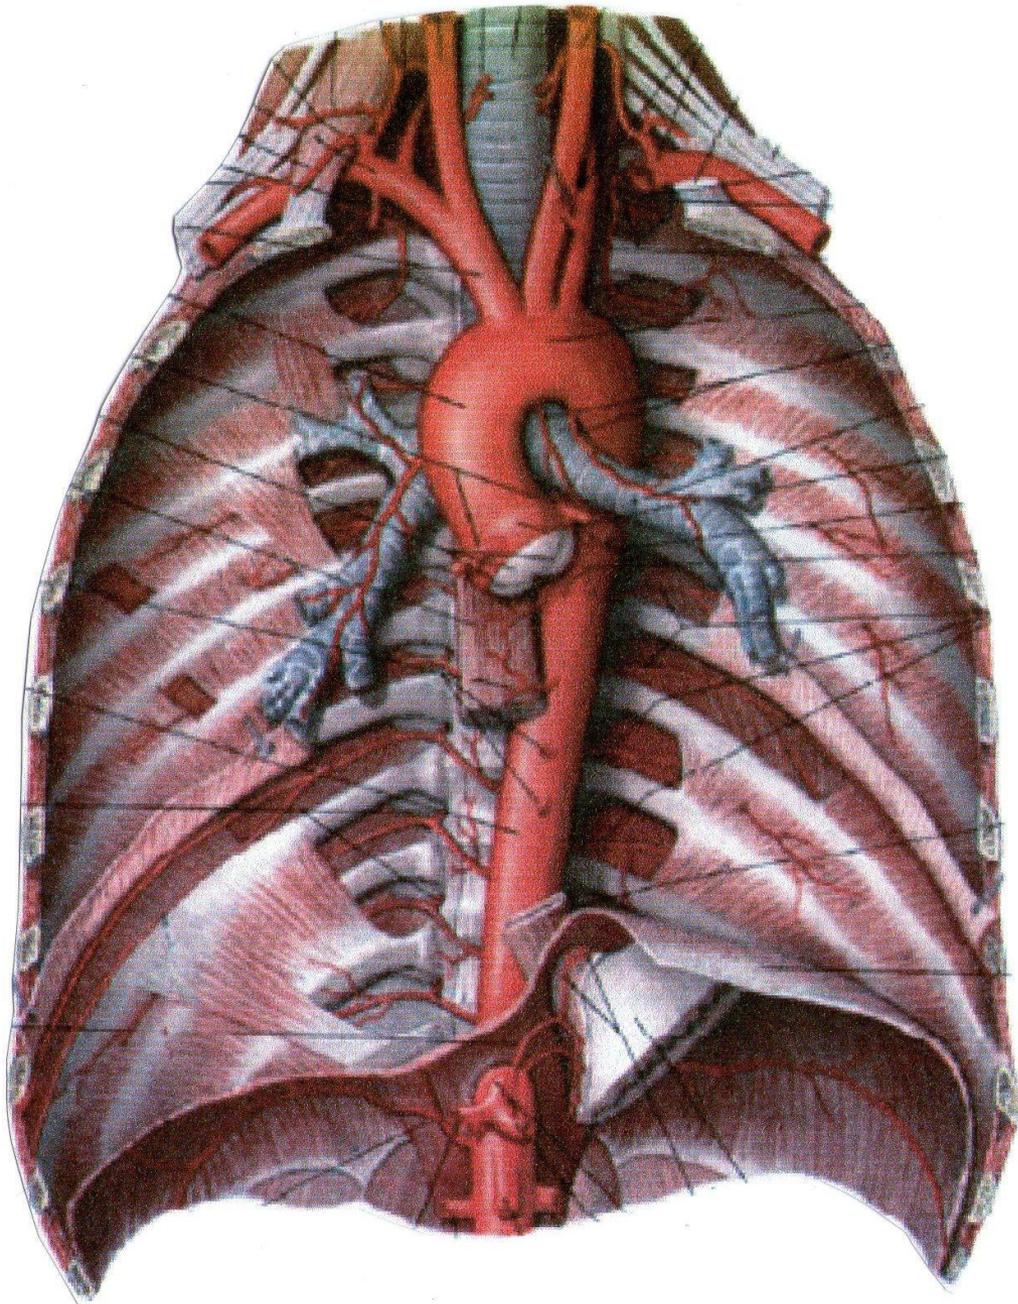

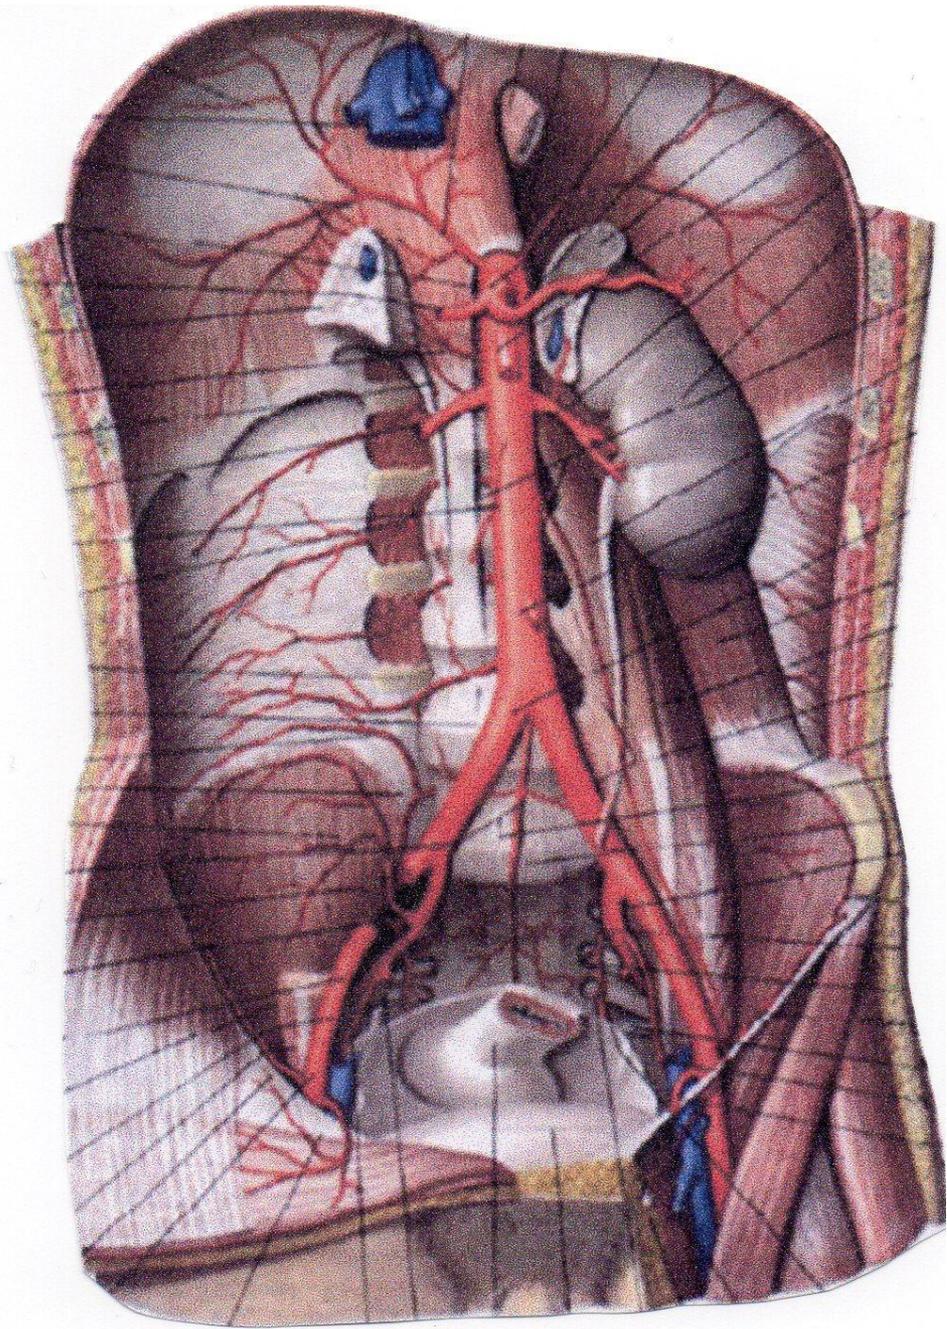

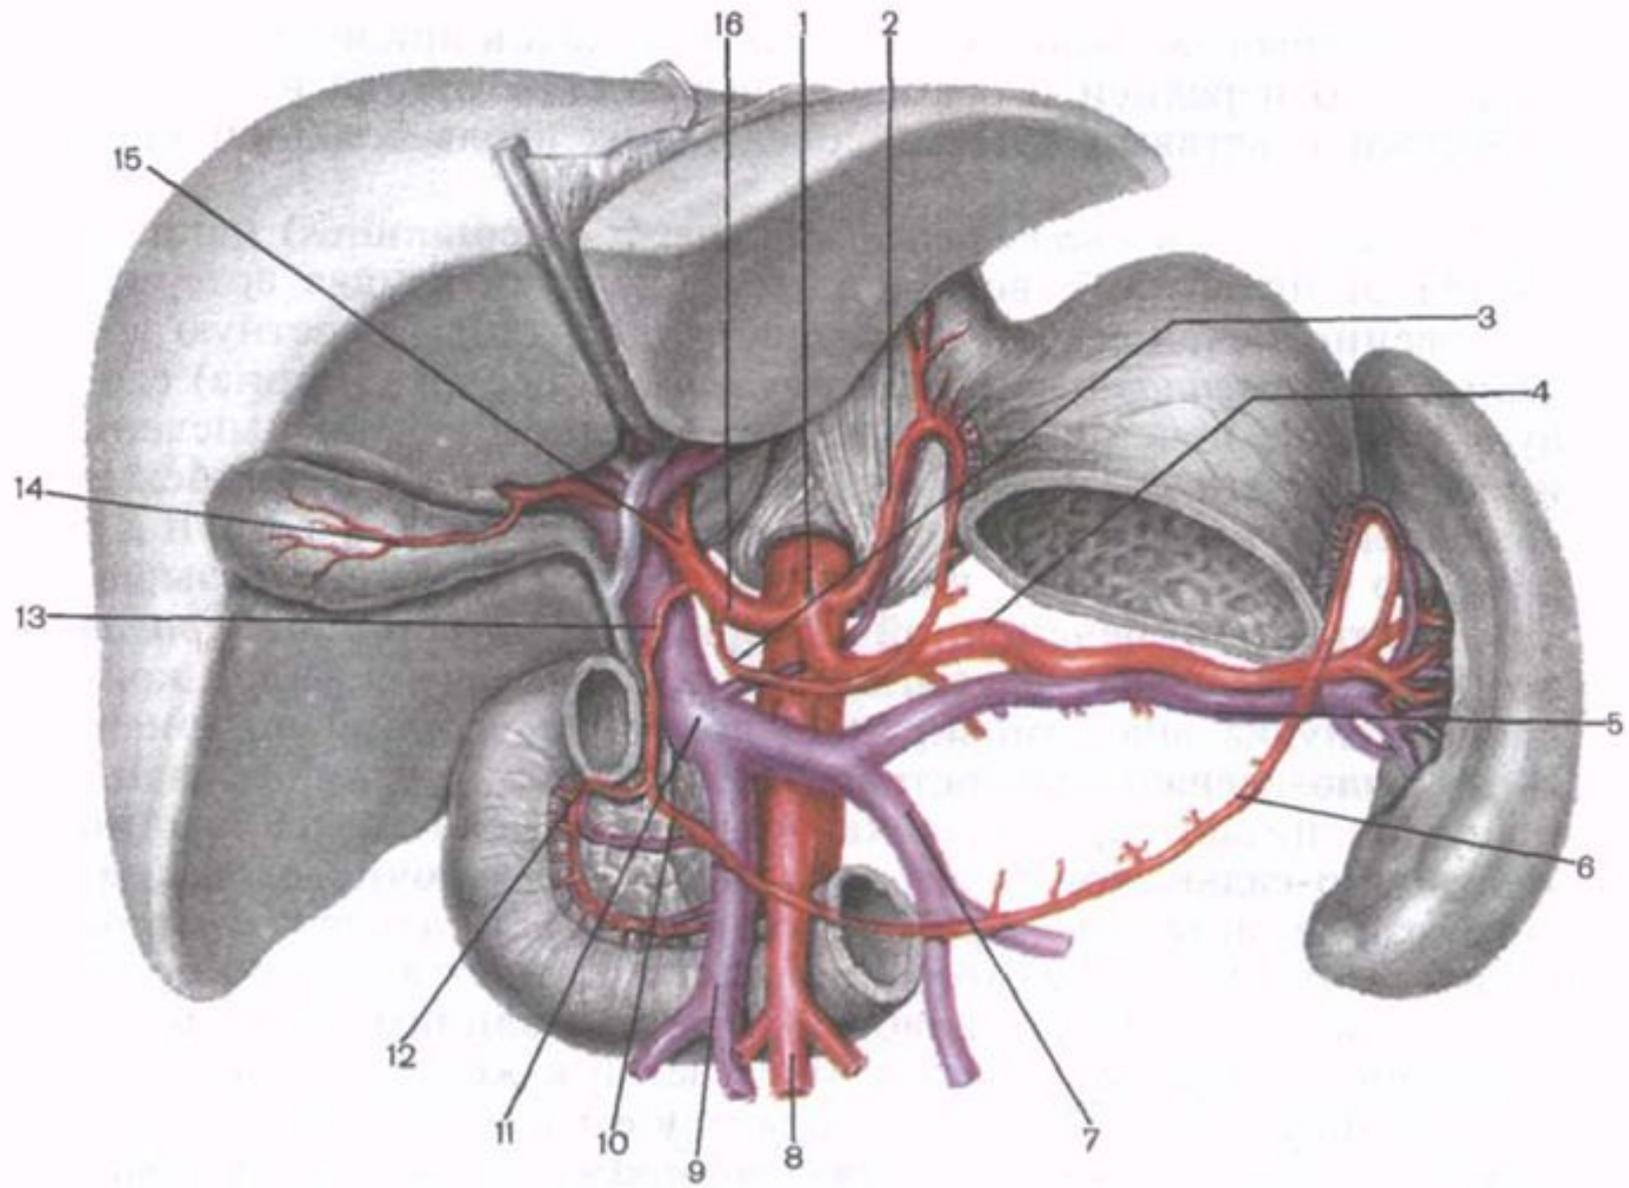

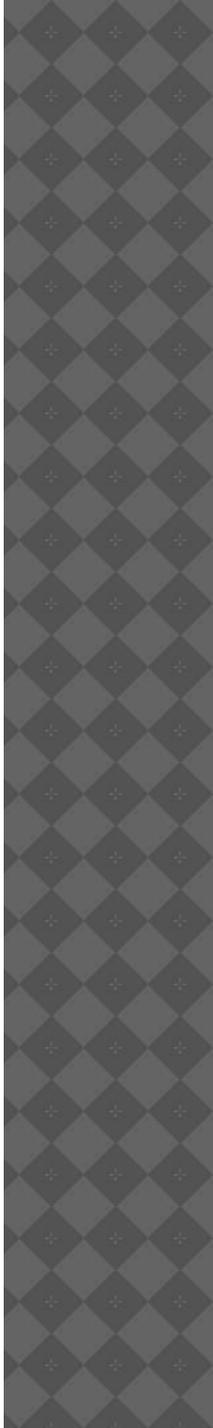

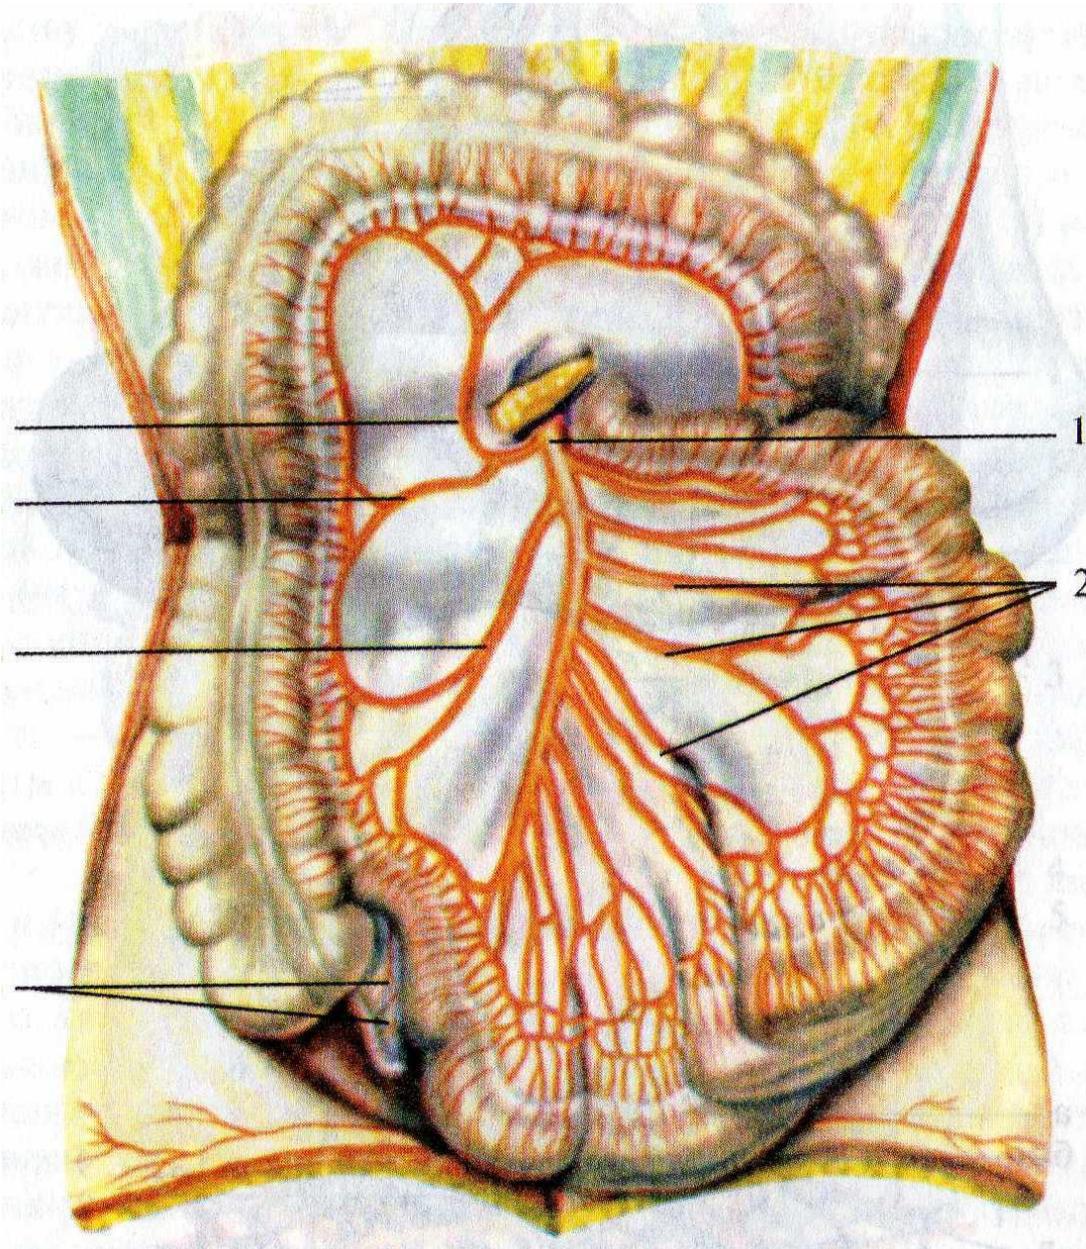

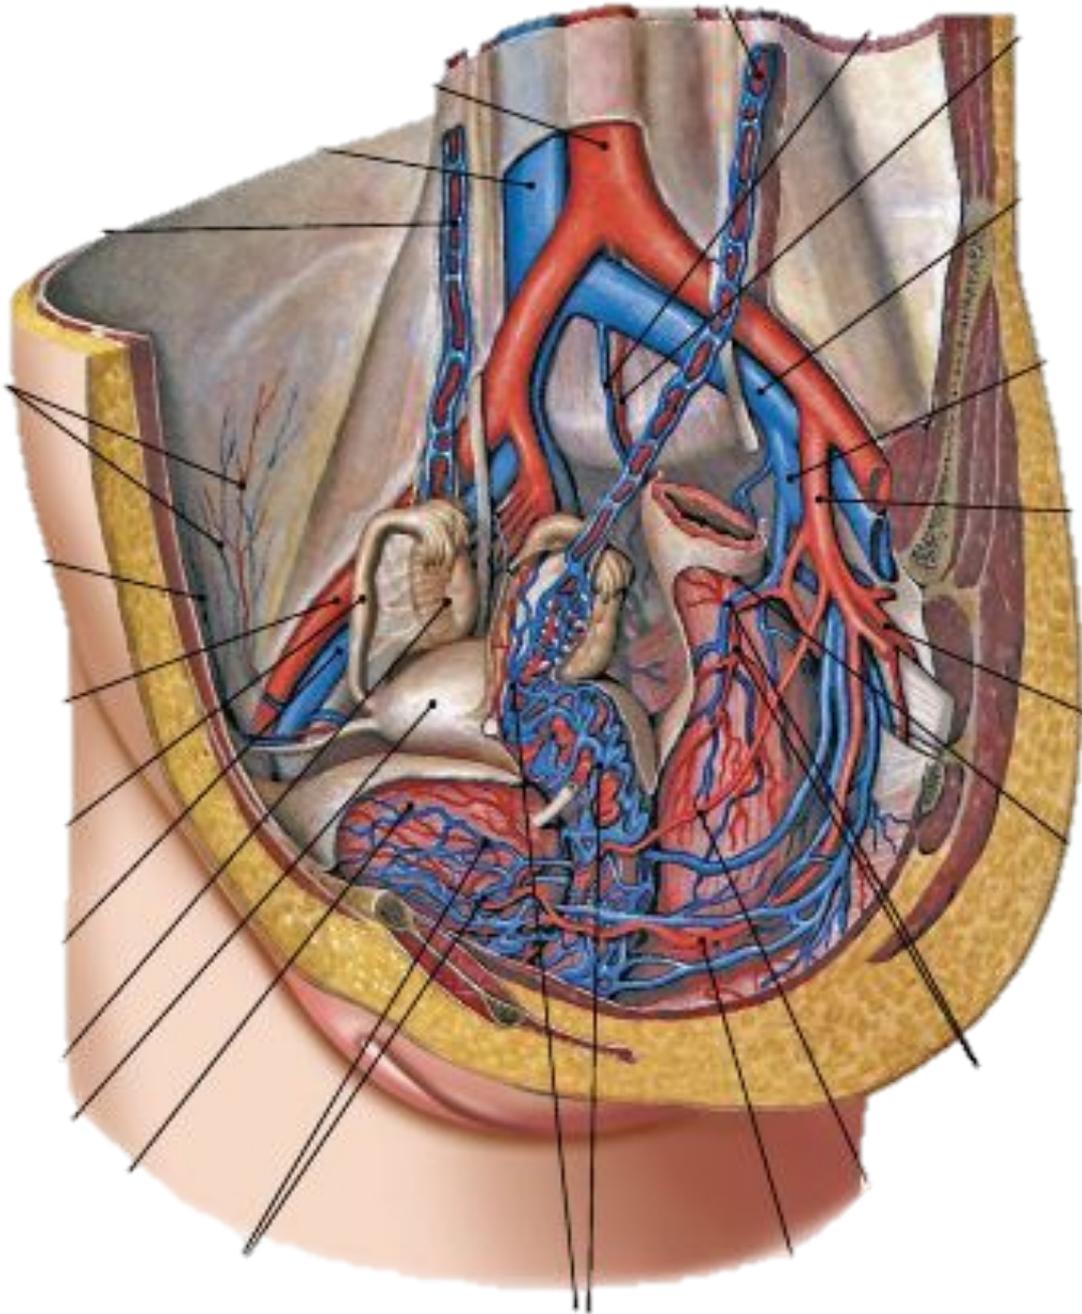

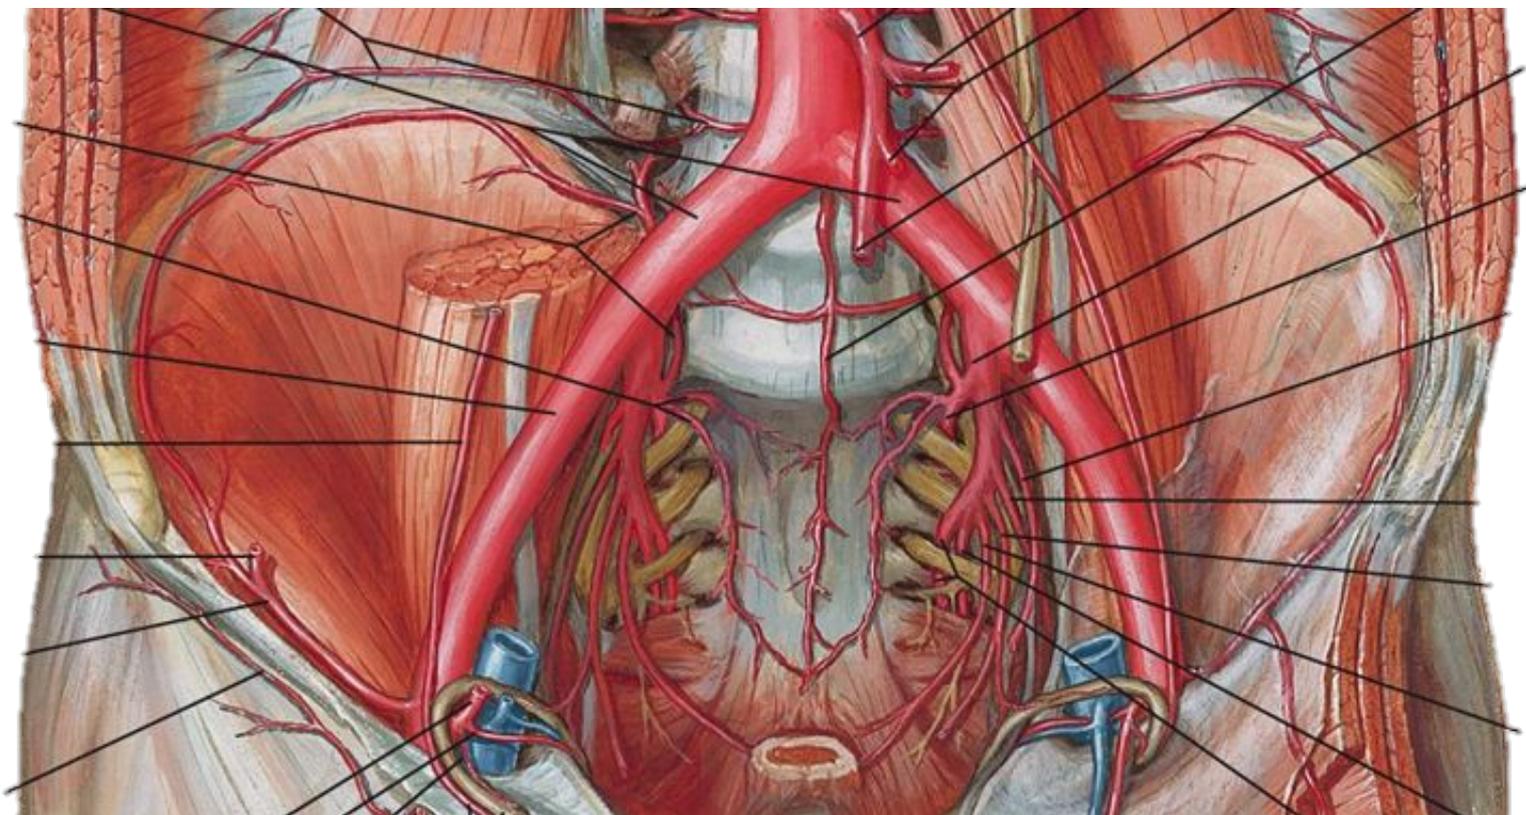

Подключичная артерия

Подмышечная артерия

Плечевая артерия

Лучевая артерия

Глубокая ладонная дуга

Локтевая артерия
