#064.02

Vanity sketches. Master Bathroom

There are multiple options in this sink typology. Mainly it depends on the location of the storage places [if needed, inside the vanity, and proportions of the sinks and shelf [height] functionality] These quick sketches are these options, with different proportions/ location and faucet typology.

Option 1

Mirrors exhibiting bathroom and are part of window scape.

#2 Mirror standing by them down on the concrete base, that growing out of the sink top and connect sink and window sill

Vanity sketches. Guest Bathroom

Normally, the height and structure of the vanity depend on the height of the sink and the types of mounting. We already know the parameters of the sink, so these are principal schemes of how it can hold the sink.

Questions

- Which collection of the ToTo / product number do you choose?
- You prefer lighter tones or the darker ones in the mockups provided?
- Do you have faucet mounting preferences [see sketches: in build/ wall mounted]?
- Please provide feedback on the mockups and space organization. Do you have any additional requirements/needs apart from something that shown?
- Do you need a cosmetic mirror in Rachel's bathroom or it's going to be just a socket?
- Do you need soap dispenser?
- Do you need sensor faucets?
- Which model/product number of Panasonic whisper you have?

Options for doors

Barn doors

The whole doors:
