So that's the good news about being left-handed. The bad news is that manufacturers don't remember to make tools and machinery for left-handers. Society ¹forces us to use (force/us/use) objects that are designed for right-handed people and this ²makes us look (make/us/look) clumsy.

As a child I don't remember deciding that I was left-handed. But when my primary school teacher ³encouraged me to swap (encourage/me/swap) hands. She didn't ⁴manage to change (manage/change) my natural inclination, and I didn't stop writing with my left hand. Why ⁵waste time trying (waste time/try) to change someone's natural handedness? Just ⁶let them use (let/them/use) the hand they feel comfortable with – you can't ⁷expect people to do (expect/people/do) what isn't natural to them!

¹⁰ I once heard someone say that left-handed people were strange. But when you stop to think about famous historical figures who were left-handed, you can't ⁸avoid concluding (avoid/conclude) that they were brilliant! I'm sure Leonardo da Vinci, Mahatma Gandhi, Albert Einstein, Winston Churchill and Marie Curie would agree!
