

The background of the slide is a piece of aged, yellowish-brown parchment with irregular, torn edges and some dark spots or stains. The texture appears rough and weathered.

In Harmony with Nature

Ecological problem today

Now in the world there are many
ecological problems:

1. Air pollution

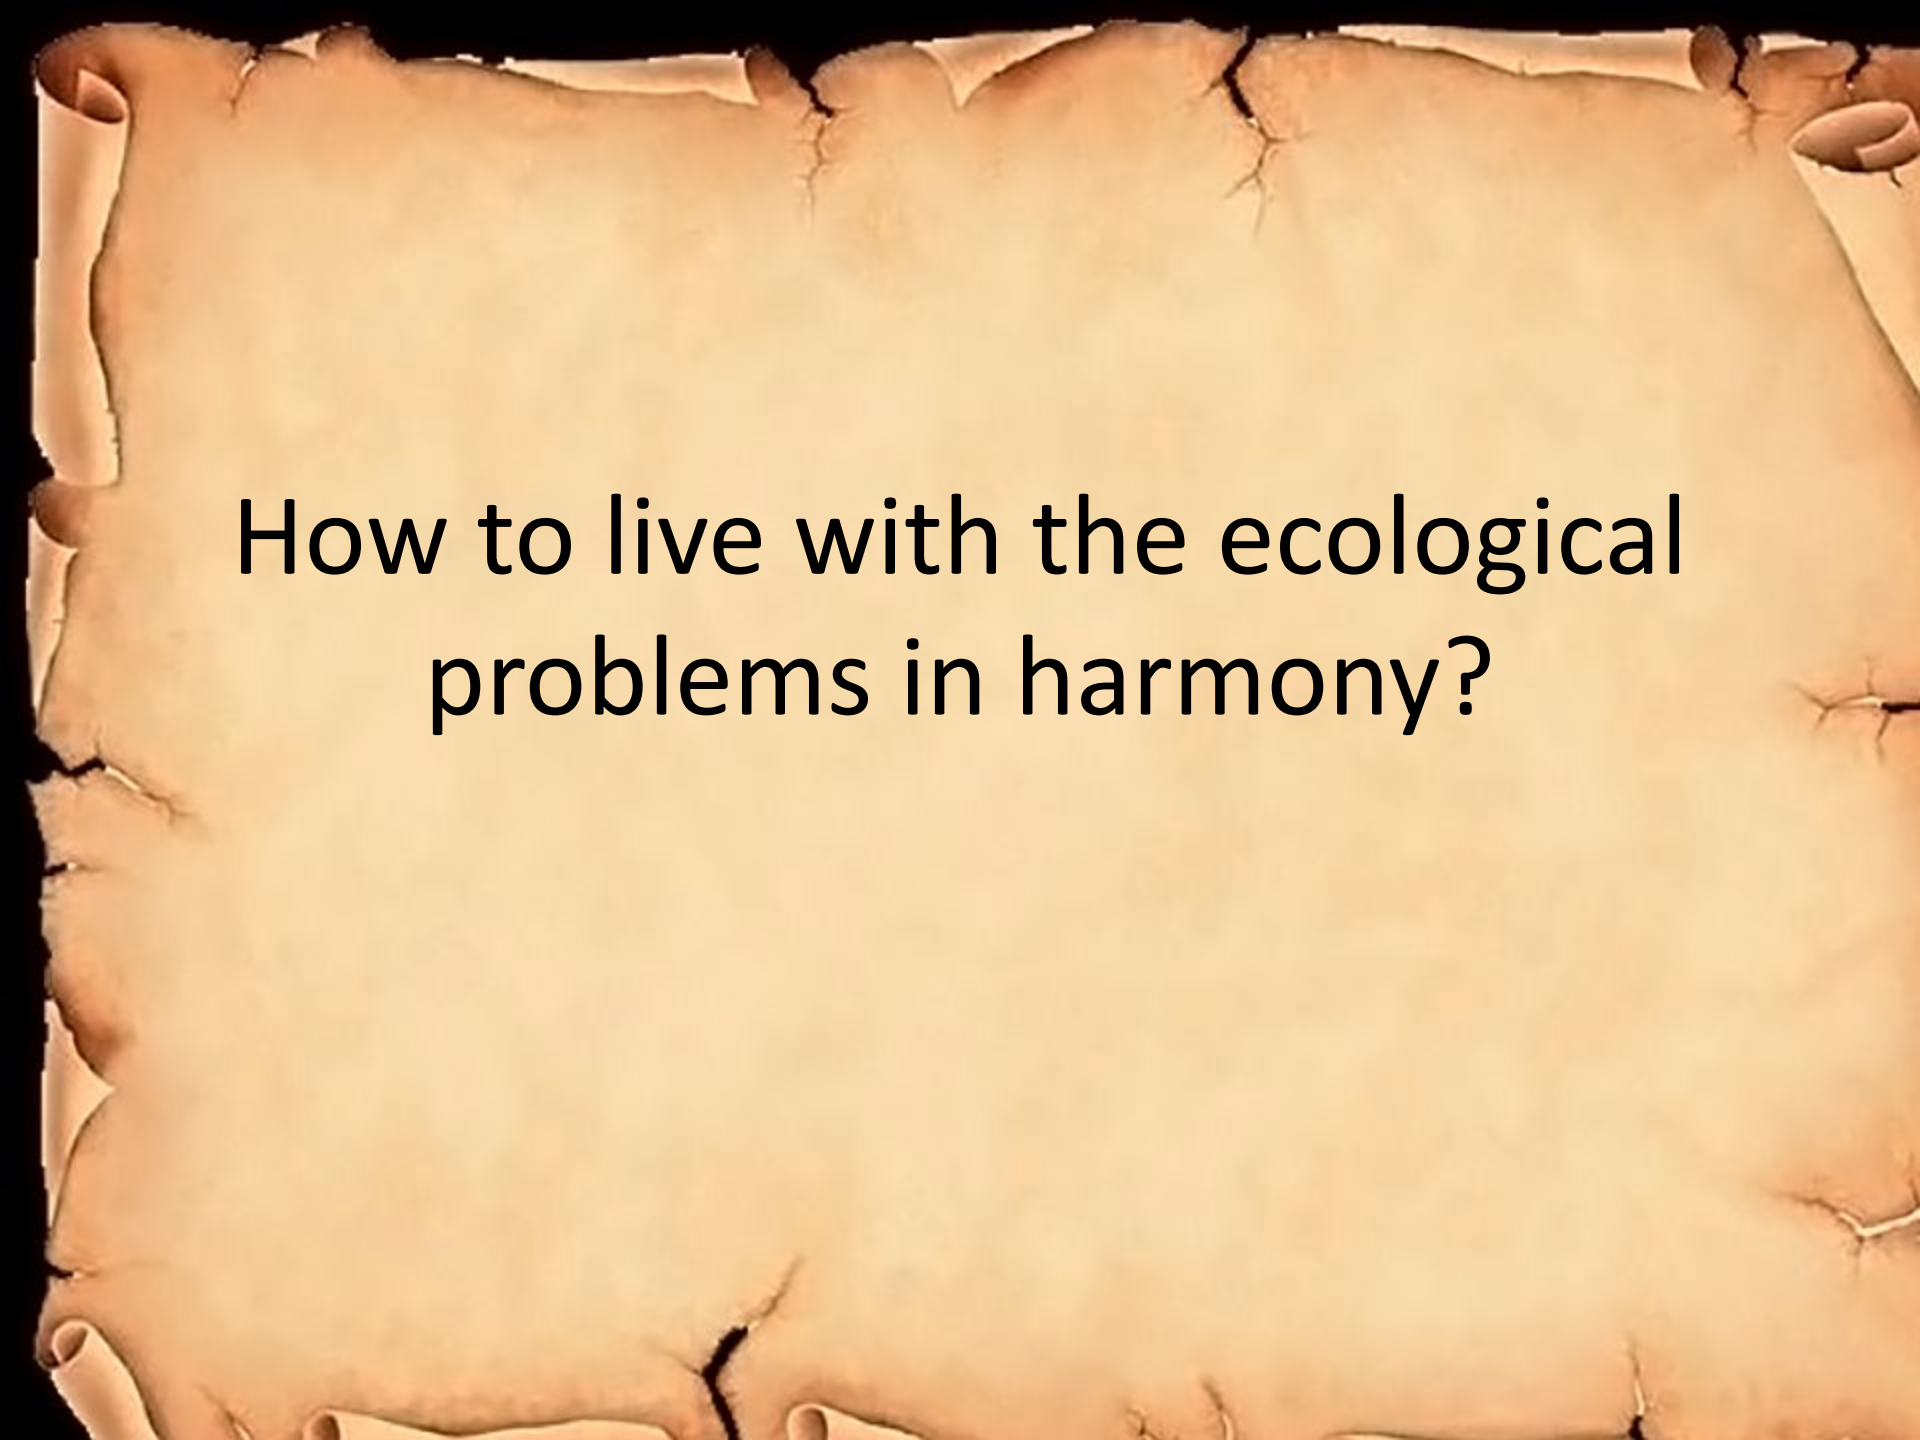

2. Water pollution

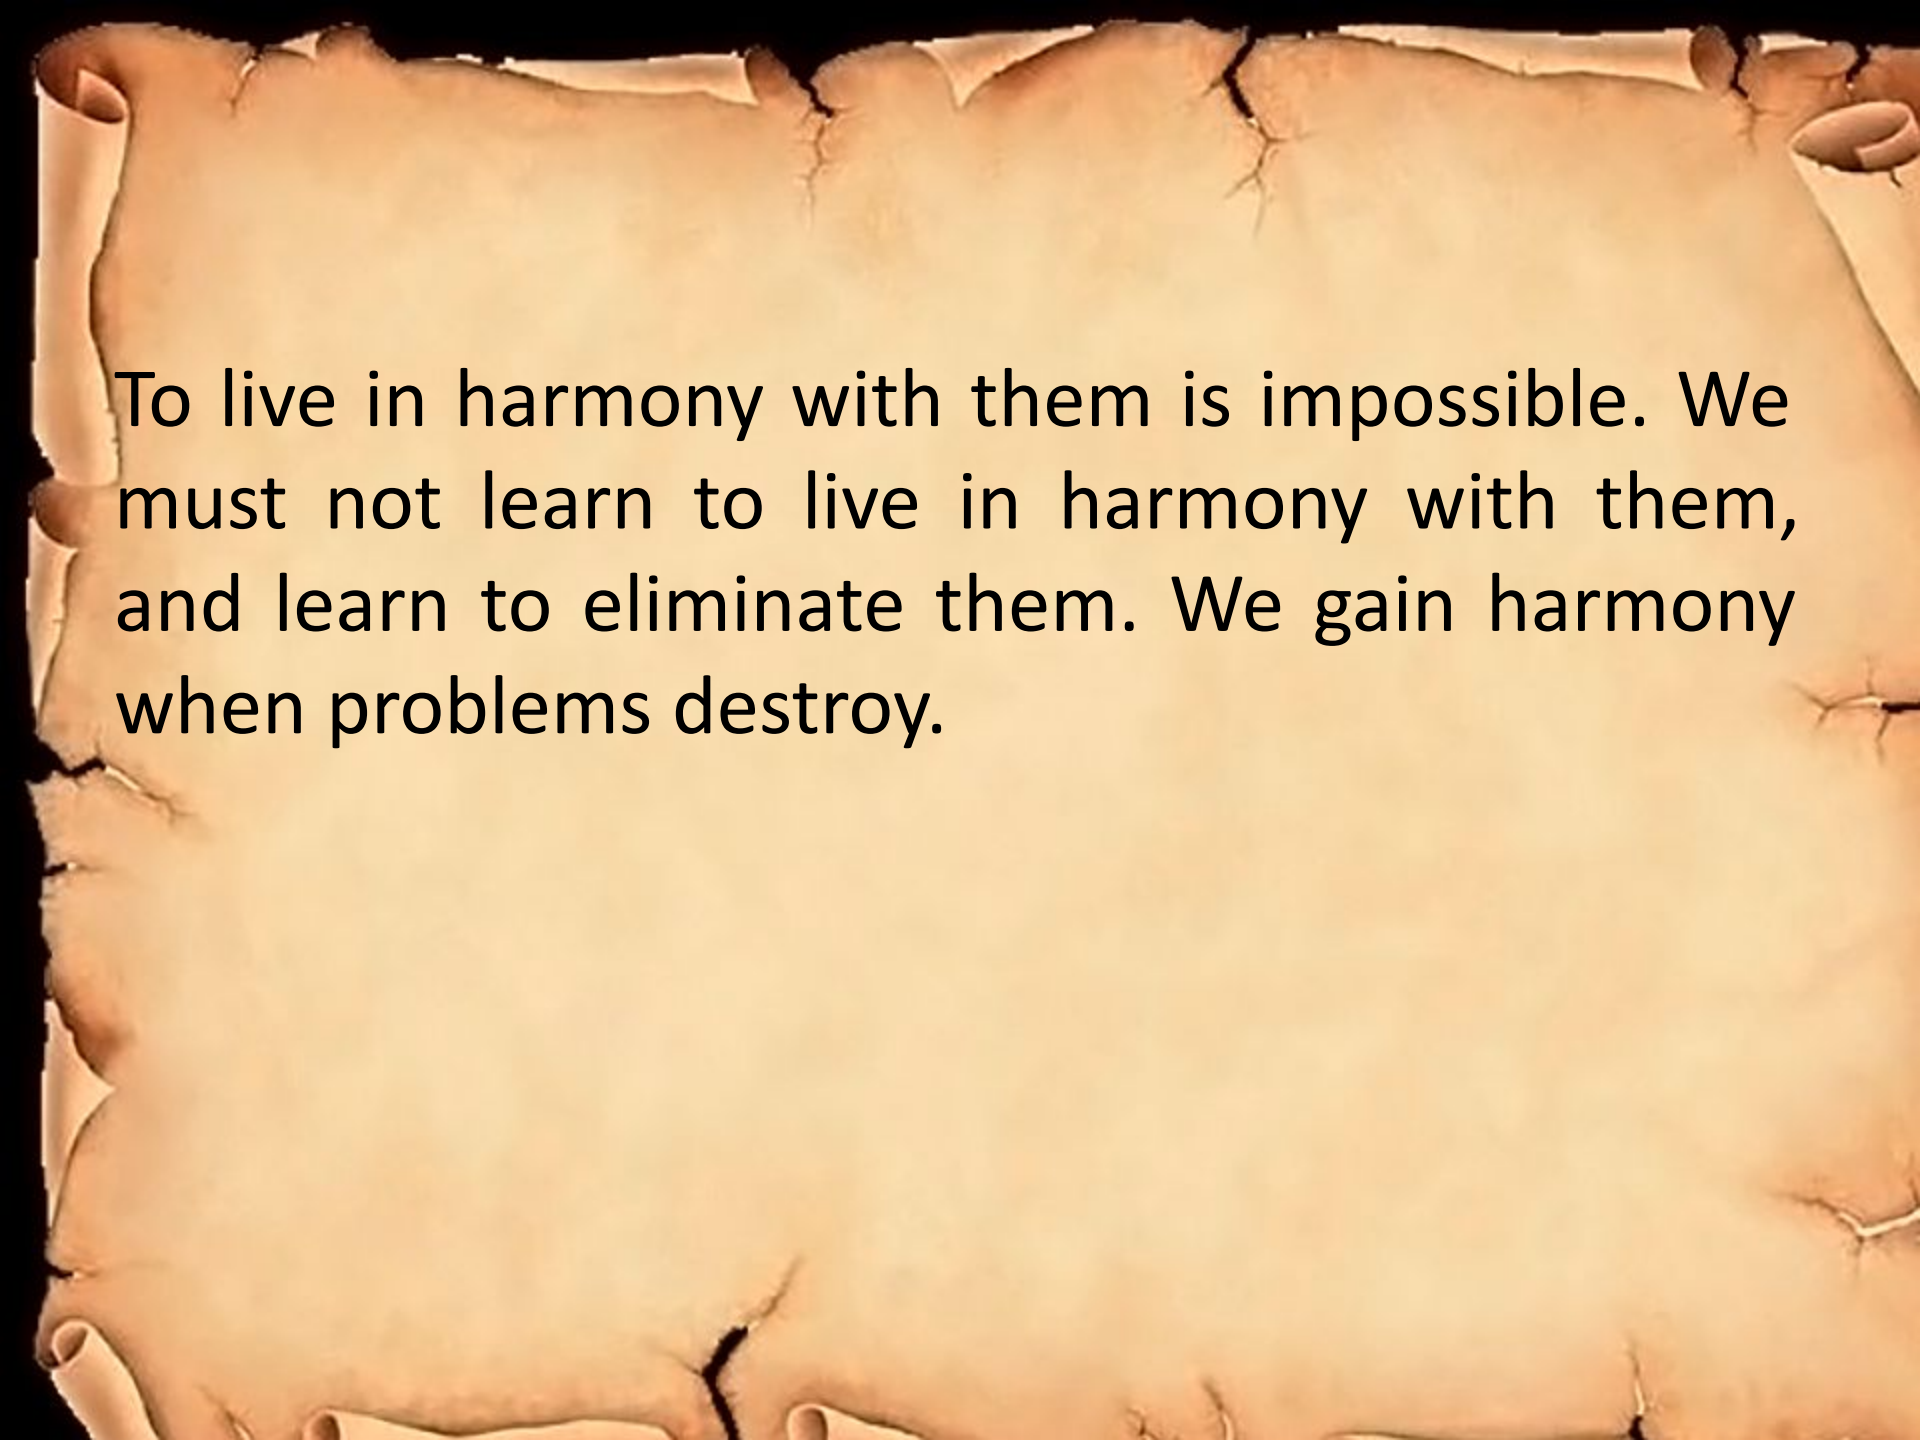

3. Nuclear pollution

NUCLEAR POLLUTION

How to live with the ecological
problems in harmony?

To live in harmony with them is impossible. We must not learn to live in harmony with them, and learn to eliminate them. We gain harmony when problems destroy.

Thank you for attention!!!
