Nikolajevu astronomijos observatorija

A high-angle, nighttime photograph of a city. The scene is dominated by a dense array of lights from buildings and street lamps, creating a warm, golden glow. In the foreground, the dark silhouette of a building's roof and a brick wall is visible. A long, straight road or highway cuts through the middle of the frame, lined with streetlights that create a bright, glowing path. The background shows a vast expanse of city lights stretching to the horizon under a dark sky.

Ačiū!
