

The background features a network of thin, light gray lines connecting several small, solid gray circular nodes. The nodes are scattered across the frame, with a higher density in the upper-left and lower-right areas. The lines form a complex web of triangles and polygons of various sizes.

**Состав команды**

# Анализ исходной ситуации

Что сейчас происходит и какие есть проблемы?

A network diagram consisting of several nodes (represented by small grey circles) connected by thin grey lines. The nodes are arranged in a roughly circular pattern, with some nodes having more connections than others. The background is white.

A network diagram consisting of four nodes (small grey circles) connected by thin grey lines. The nodes are positioned at approximately (400, 100), (720, 180), (380, 620), and (830, 880) in a 1000x1000 coordinate system. The text 'Этапы работы' is located near the top-left node, and 'Что делали, решая кейс?' is located near the bottom-left node.

# Сопоставительный анализ

# Основные моменты Модель «после»

The background features a network of thin, light gray lines connecting several small, solid gray circular nodes. The nodes are positioned at various points, creating a web-like structure. One node is located near the top center, another near the top right, one near the middle left, one near the middle right, and one near the bottom center. The lines radiate from these nodes, creating a complex, interconnected pattern.
