Filmgrail = a company that develops mobile applications and websites for online cinemas

“

«Filmgrail was founded out of passion for cinema and film tech, as well as a bold determination to delight moviegoers beyond the silver screen.»

Simon Souyris Strumse
CEO & Co-founder

Built for Movie Theater Success
Our immersive, inherently social, mobile and web apps are designed to help exhibitors sell tickets as early and as frequently as possible.

Our Commitment to Cinemas

Technology expertise

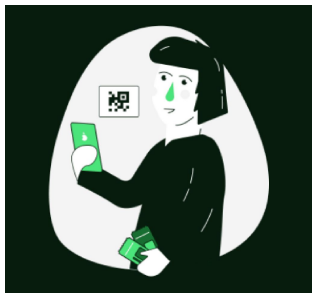

The cinema world is moving incredibly fast, and we can't let anything slow our cinema clients down. That's why we're obsessive about developing seamless, modern solutions that are built on the latest tech stack.

Moviegoer delight

Our desire to provide outstanding moviegoer experiences on all the right small screens runs deep – that's why we always put the moviegoer journey at the heart of everything we do.

Movie theater success

We are fully committed to getting to know our partnering cinemas inside and out, understanding their pain points and creating more revenue for their business.

Filmgrail

Our solution is tailored to your movie theater's needs. We customize the interface to match your brand and automate integrations with your existing technology stack

We're on a mission to revolutionize the way cinema exhibitors interact with movie fans. Our products are designed for the new era of box office marketing where exhibitors are in full control of moviegoers' journey — from showtime discovery to ticket purchase

SHOWSTOPPING FEATURES Next-Gen Cinema Apps & Websites

Engage with your moviegoers, grow your brand and drive ticket sales with our next generation solution built for cinema theaters worldwide.
