

Commercial Aircraft Global Market Report 2020-30: Covid 19 Impact And Recovery

Commercial Aircraft Market Characteristics:

- The global commercial aircraft market is expected to decline from \$243.6 billion in 2019 to \$236.8 billion in 2020 at a compound annual growth rate of -2.9%. The decline is mainly due to economic slowdown across countries owing to the COVID-19 outbreak and the measures to contain it. The market is then expected to recover and grow at a CAGR of 5% from 2021 and reach \$269 billion in 2023.
- Commercial Aircraft Global Market Report 2020 is the most comprehensive report available on this market and will help gain a truly global perspective as it covers 60 geographies. The chapter on the impact of COVID-19 gives valuable insights on supply chain disruptions, logistical challenges, and other economic implications of the virus on the market.
