

Who you are?

My name is Damir. I am 17 years old. I was born in Almaty, Kazakhstan. I am living in Moscow at the moment. I am student of MISiS University. I have a lot of hobbies: listening to music, play basketball, painting and reading different books.

I have learned a lot this month. I have improved my pronunciation, vocabulary and most importantly, I have learned to think in English. I guess, this month has been productive.

I want to expand my vocabulary and I want to practice my English with other peoples. Break a leg!
