## Behind the Scenes

Почему одна часть шаблонов прямоугольная, а другая квадратная?

# Создание нового проекта

The screenshot shows the Animoto project creation interface. At the top, there is a navigation bar with options: Animoto video, Design, Music, Ratio, Undo, Redo, Upgrade, and Export. Below this is a 'Media Library' section with tabs for PROJECT, STOCK, and FAVORITES. The main content area is a white modal window titled 'Choose Aspect Ratio' (step 2 of 3). It features three options: 'Square 1:1', 'Landscape 16:9' (highlighted with a red border), and 'Vertical 9:16'. Each option includes social media icons and a description of where it is suitable. A 'Back' button is on the left and a 'Skip' button is on the right. At the bottom of the modal, it says 'You can always make changes later.'
