

A nighttime photograph of the Lotte World skyline in Seoul, Korea. The image is framed by the branches of a cherry blossom tree in the foreground, with white flowers and dark branches silhouetted against a deep blue night sky. The city skyline is reflected in the water in the foreground. The Lotte World tower is the central feature, with its distinctive spire. Other buildings are lit up with various colors, including yellow, blue, and red. The Lotte World sign is visible on the right side of the skyline.

Introduction

The territory of Korea is 220.8 thousand km². The total population of both Korean states exceeds 70 million people, 98% of the population are Koreans.

Korea is usually called a beautiful, prosperous country located on the eastern edge of Asia, in the southern part of the Korean peninsula. It is washed by the waters of the Yellow Sea, in the east by the Sea of Japan. It occupies a number of coastal islands. The total length of the coastline is 2,413 km. The capital is Seoul.

Climate

Average January temperatures are 0-4 °C. Absolute minimum temperatures reach -15 in most of the country..-25 °C and decrease to -5..-15 °C in the subtropics. Average August temperatures from +24 °C.

Getting around

Public transport in Korea is well developed. There are 8 international and 6 domestic airports. There are regular buses. As a rule, they work at intervals from 15 minutes to 1 hour. The country has one of the largest merchant fleets in the world. The most popular method of transportation is undoubtedly the subway.

How to get from the airport to the hotel?

You can take a high-speed train that goes to the railway station without stopping in 50 minutes.

Entertainment

The edges of the future

Food and drink

Kimchi

Soju

In conclusion

- Korea is not easy to compare with Russia. On the one hand, we have a similar standard of living, and on the other – completely different thoughts in people's heads. In any case, I advise you to add Korea to the list for visiting.

Thanks for watching!
