

MADRID

PRESENTATION OF THE CITY

The capital of Spain, located in the heart of the peninsula and right in the center of the Castilian plain, 646 meters above sea level, has a population of over three million.

A cosmopolitan city, a business center, headquarters for the Public Administration, Government, Spanish Parliament and the home of the Spanish Royal Family, Madrid also plays a major role in both the banking and industrial sectors. Most of its industry is located in the Southern fringe of the city, where important textile, food and metal working factories are clustered. Madrid is characterized by intense cultural and artistic activity and a very lively nightlife.
