HORNIMAN'S PURE TEA

The Pure Black is not artificially darkened in the leaf.
The Pure Green has no Starch tint, being a dark olive Tea.

Is choice and strong, because it consists of the most valuable growths that are full of rich essential properties.

Is moderate in price, because it is supplied direct from the Importers to the Consumers by Agents, to save all intermediate profits.

Is wholesome to use, because it is not 'faced' with the usual powdered mineral colors.

These advantages have secured for this Tea a general preference. To ensure its reaching the purchaser at a *fixed value*, it is sold in packets at the price printed on each.

As a spurious article is offered, see that the name is prominent on the wrapper.

"Crewkerne, December 8, 1863."

"Sir,—I have much pleasure in testifying to the value of your Waterproof for leather, which I have used for the last three or four years with the most complete success. Having resolved to submit to the test of experience, I had a pair of boots made of very thin leather, dressed twice with the Composition, and walked in them for some hours through Sals of turpentine and long wet grass, and returned home with my feet perfectly dry. I can with confidence assert that its use makes the leather softer and more durable, as well as perfectly waterproof, and I generally recommend it to gentlemen for whom I make boots for shooting, fishing, &c., being the best thing of the kind I have ever tried. (Signed) GEORGE BARNOR, Bootmaker, Church Street, Crewkerne."
