

AUTOMATIC PENCIL

Today we will tell you why an automatic pencil is better than a regular pencil.

Why choose an automatic pencil :

1. The automatic pencil can last longer than a normal pencil. Because when you use it, you can only break the pin, which is replaceable.
2. The automatic pencil is more profitable than a regular pencil. To use it, you only need to buy one pack of rods, which is enough for a long time.
3. The automatic pencil is also thinner than a normal pencil. Due to its thin stylus it is more convenient to write with this pencil.

Design

- Why is an automatic pencil design better than a regular pencil?

1. The design of the automatic pencil is better in that they have more different colors and shapes.

Design

2. There is a detail in the design of automatic pencils that not only serves as part of the design, but also makes the pencil more convenient.
 - For example, like these pencils. They have a rubber part that keeps your fingers from slipping off the pencil:

Ecology

- Also automatic pencils are more environmentally friendly than ordinary pencils, because they do not leave behind wood shavings. Because of this, many people abroad prefer them.

Thank you all for watching, buy automatic pencils.
