

American English vs. British English

*“England and America are
two countries divided by a
common language.”*

George Bernard Shaw

- 
- **British English (BrE)** is the form of English used in the United Kingdom. It includes all English dialects used within the United Kingdom.

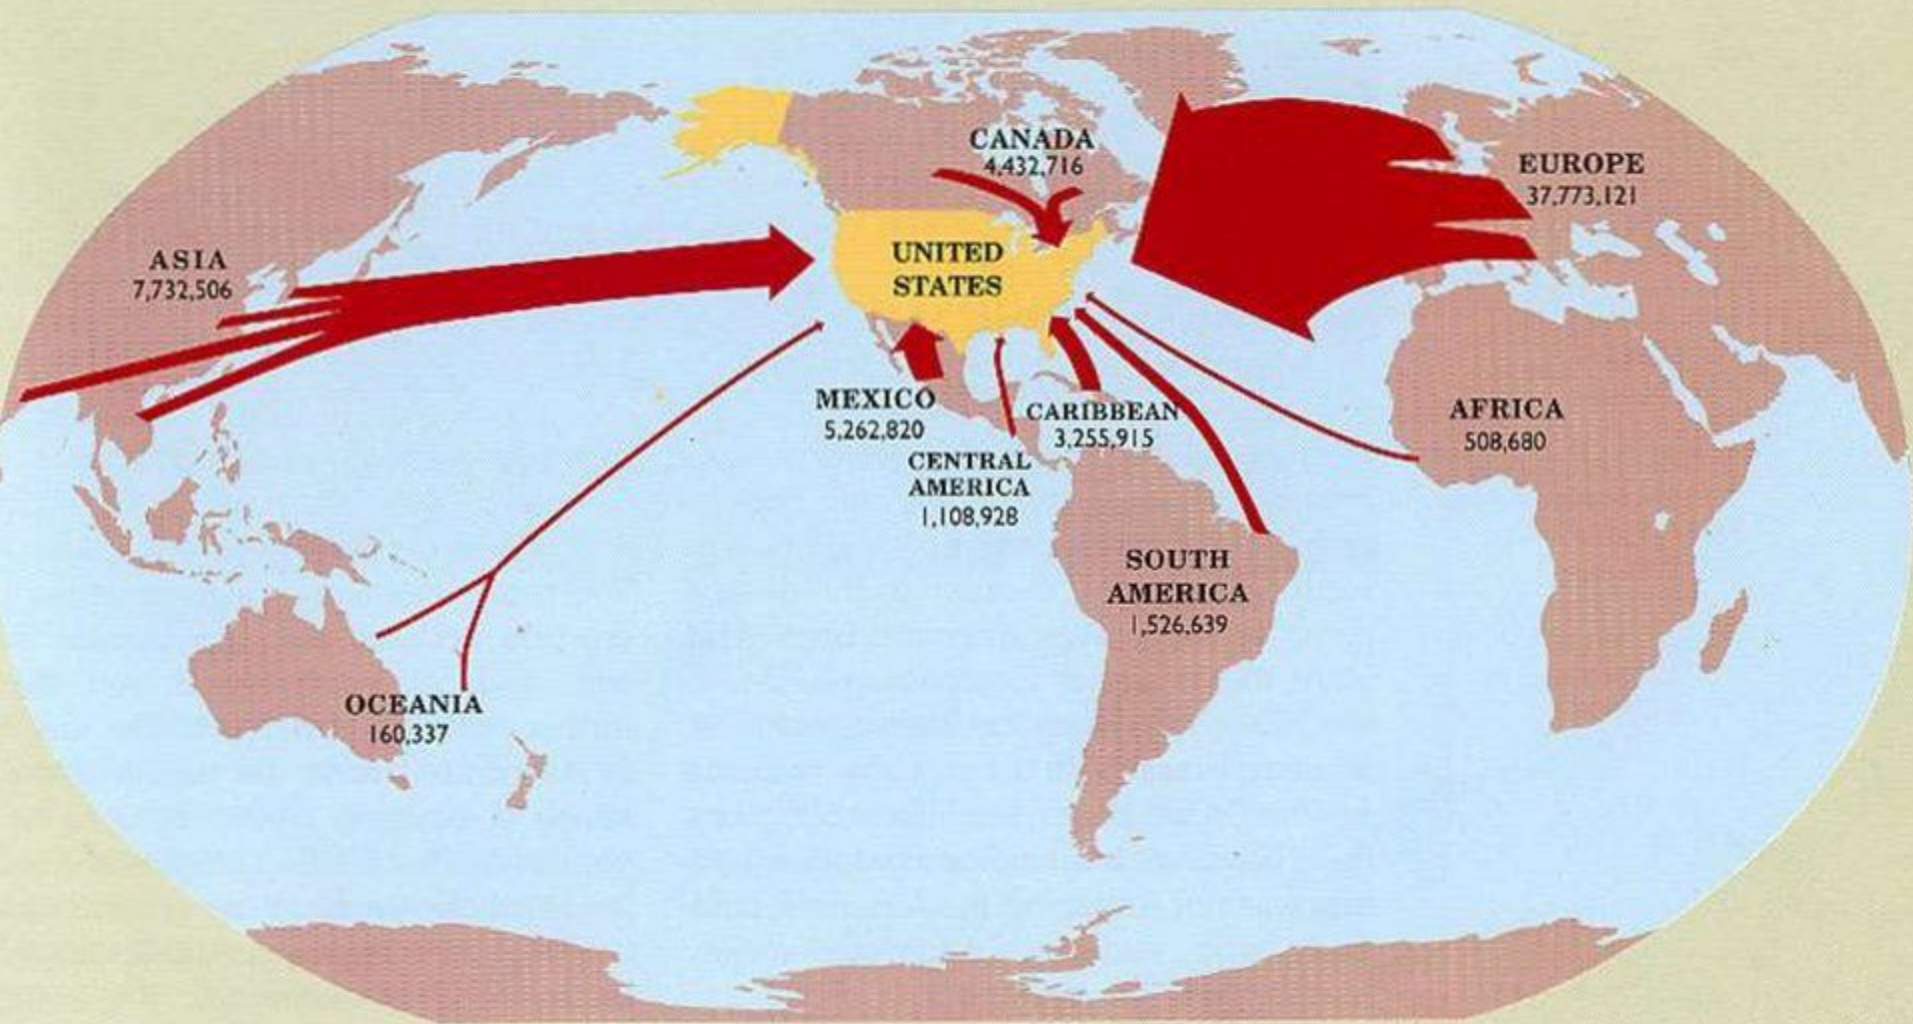

American English (AmE) is the form of English used in the United States. It includes all English dialects used within the United States.

How did this divergence occur?

The English language was introduced to the Americans through British colonization in the early 17th century and it spread to many parts of the world because of the strength of the British empire. Over the years, English spoken in the United States and in Britain started diverging from each other in various aspects. This led to two dialects in the form of the American English and the British English.

Immigration to America

The languages diverge...and converge

- The differences in the languages reached its peak right after the industrial revolution
- With the spread of modern technology, more terms are becoming common

Noah Webster

- Writer of the first American dictionary in 1806
- Believed that Americans' language should reflect the way they spoke, and be distinct from British English
- Came of age during the American revolution, and therefore placed great emphasis on America's cultural separation from England

Vocabulary

American English includes a lot of:

- Neologisms
- Abbreviations
- Borrowings (from the European and Indian languages)

Borrowings

In American English there are the following types of the lexical units:

There are many words that are used almost exclusively by Americans which are understood by most Britons, and vice versa. But there are others which can cause difficulty.

Spelling

The main differences between American and British spelling are originated in the **Dictionary of the English Language published in 1828 by Noah Webster.**

He simplified spellings of many words, such as *plough* → *plow*
centre → *center* *colour* → *color*.

He added uniquely American words, such as *squash* and *chowder*

- **-or** instead **-our**
- **-er** instead **-re**
- **-se** instead **-ce**
- **-z-** instead **-s-**
- **-l-** instead **-ll-**

Grammar

- British English and American English grammar are mostly in agreement; there are however some interesting variations. For example there are differences in certain verb forms.

In British English the Present Perfect Tense is used for situations in which American English would typically use the Past Simple.

American English	British English
<i>Did you go see «Redheat» with Arnold?</i>	<i>Have you seen «Redheat» with Arnold ?</i>
<i>I just saw him</i>	<i>I've just seen him</i>
<i>Where's Ann? - She just went out</i>	<i>Where's Ann? - She's just gone out</i>

Grammar

- Americans are much more likely to be technically correct in the agreement of collective noun and verb form than Britons.

American English	British English
<i>The team is playing well this season.</i>	<i>The team are playing well.</i>
<i>The government is</i>	<i>The government are</i>
<i>The police is</i>	<i>The police are</i>

Americanisms in British English

Over the last few decades, British English has come under increasing influence from American English. This is because the majority of television programmes, films and music are exported to the UK from the States and people pick up words and expressions they are commonly exposed to, thus bringing them into general usage.

Americanisms in British English

American English	British English
Can I get a...	Can I have a...)
Two times	Twice
Period	Full stop
Write me	Write to me
Movie	Film
Take a shower	Have a shower

Final point

- While there may be certain differences between British and American English, the key takeaway is that the two have more similarities.
- Accidentally using one instead of the other will not automatically lead to miscommunication.
- Americans and Brits can usually communicate with each other without too much difficulty, so **don't be too hard on yourself** if you are unable to memorise the nuances of both languages.
