ePals World Kindness Project

Take a moment to browse the World Kindness Projects our international ePal partners have sent us.

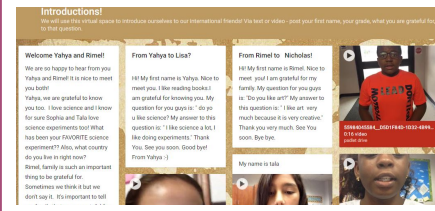

Reflect:

- What do you notice?
- Which ones are your favorite?
- Are there similarities amongst projects?
- How are they different?
- What can we learn from these World Kindness Projects?

Write your reflections in your journal & share it with a partner!

If there's time, take a photo of your journal reflection and post it to our Padlet!

Dear Colleagues and Students,

We are happy to become a part of the best projects and be in contact with you.

It is really a great experience for us.

Our school is located in the centre of Russia.

**Lyceum of Innovative
Technologies #36
Of Naberezhnye
Chelny,
Russia**

There are nearly 350 students and 25 teachers.

The school is rather small, but it's really unique. Our daily activities start at 8.30 am and end at 5.00 pm.

We attend school 6 times a week, but sometimes we meet on Sunday to participate in various projects.

We have holidays 4 times a year. Usually they last for a week, but summer holiday are the longest. They are for 3 month. We enjoy visiting museums of Russian culture, playing activity games outside, meeting with famous writers,

The subjects they study Include English, German, Tatar and Russia languages, Mathematics, Science, Social Studies, Creative arts, Physical Education, and ITC.

More than that, our after school activity has a huge variety of clubs: a roboto-technic club, Russian scouts' club, young ladies' and gentlemen's club, a spot club, etc.

Thank you for a chance to be in a project.

All the best,

Educational Trip Unduru Brilliant School

Greetings from India!

"It is literally true that you can succeed best and quickest by helping others to succeed" [...]
As a part of leadership club recently I have taken my students to underprivileged students and students have given Presentation on Dreams & Goals, Importance of education, taken handwriting classes, art & craft, Science models, [&] English communication.

Kindness among the students will develop when they are exposed to the problems and issues of the country, and they should be aware of the role of students for the growth of [the] country. Leadership is not within the school it is there anywhere and everywhere.

We are even planning to adopt a school where our teachers will go to that school and teach them.

Educational Trip Unduru Brilliant School

I am glad to be the part of this wonderful Team, looking forward many more service oriented ideas and innovative steps for the growth of [the] country.
We together can do many [things].

International Ambassadors Academy

Greetings to Our International Community!

We loved seeing all of your contributions to the World Kindness Challenge! Thank you for including us and for the opportunity to be a part of this great collaboration of excellent students. At our meeting today, our Ambassadors did a gallery walk of your submitted contributions, discussed, and then wrote reflections in journals.

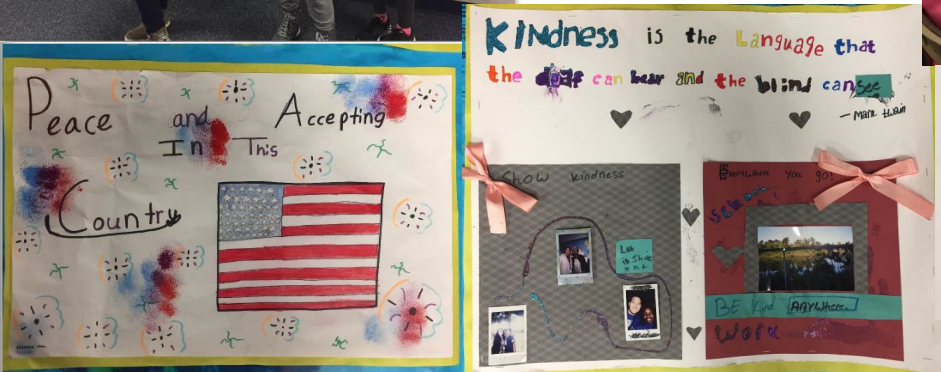

The videos you all shared were so interesting and so valuable for our Ambassadors to see. Thank you for all the time and effort you all put into creating these videos, letters, assemblies, field trips, and artwork!

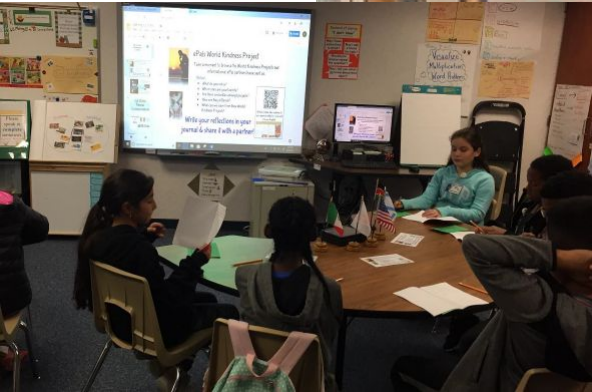

I'm including photos of our World Kindness contributions, our reflection session, and an introduction to our Global Gratitude Project that we would like to invite you to participate in!

Sincerely,

Lisa Geib and the Rountree International Ambassadors Academy

- I noticed some really good art and clothing
- I like the one that has the globe on it.
- not all have art some have videos and pictures.
- that every one can make the world a better place no matter if they come from Russia, Canada or any where in the world.
