Several white lines of varying lengths and orientations are positioned in the bottom right corner of the slide, creating a modern, abstract graphic element.

# App Store Review Guidelines

## Introduction

Apps are changing the world, enriching people's lives, and enabling developers like you to innovate like never before. As a result, the App Store has grown into an exciting and vibrant ecosystem for millions of developers and more than a billion users. Whether you are a first time developer or a large team of experienced programmers, we are excited that you are creating apps for the App Store and want to help you understand our guidelines so you can be confident your app will get through the review process quickly.

The guiding principle of the App Store is simple - we want to provide a safe experience for users to get apps and a great opportunity for all developers to be successful. We have updated the App Review Guidelines with that principle in mind. The guidelines themselves haven't changed, but they are better organized and provide more context. On the following pages you will find guidelines arranged into five clear sections: Safety, Performance, Business, Design, and Legal. A few other points to keep in mind:

- We have lots of kids downloading lots of apps. Parental controls work great to protect kids, but you have to do your part too. So know that we're keeping an eye out for the kids.
- If your app looks like it was cobbled together in a few days, or you're trying to get your first practice app into the store to impress your friends, please brace yourself for rejection. We have lots of serious developers who don't want their quality apps to be surrounded by amateur hour.
- We will reject apps for any content or behavior that we believe is over the line. What line, you ask? Well, as a Supreme Court Justice once said, "I'll know it when I see it". And we think that you will also know it when you cross it.

# Table of Contents

**Before You Submit** – a pre-review checklist

## 1. Safety

- 1.1 Objectionable Content
- 1.2 User Generated Content
- 1.3 Kids Category
- 1.4 Physical Harm
- 1.5 Developer Information

## 2. Performance

- 2.1 App Completeness
- 2.2 Beta Testing
- 2.3 Accurate Metadata
- 2.4 Hardware Compatibility
- 2.5 Software Requirements

## 3. Business

- 3.1 Payments
  - 3.1.1 In-App Purchase
  - 3.1.2 Subscriptions
  - 3.1.3 Content-based “Reader” Apps
  - 3.1.4 Content Codes
  - 3.1.5 Physical Goods and Services Outside of the App
  - 3.1.6 Apple Pay
- 3.2 Other Business Model Issues
  - 3.2.1 Acceptable
  - 3.2.2 Unacceptable

#### 4. Design

- 4.1 Copycats
- 4.2 Minimum Functionality
- 4.3 Spam
- 4.4 Extensions
- 4.5 Apple Sites and Services

#### 5. Legal

- 5.1 Privacy
  - 5.1.1 Data Collection and Storage
  - 5.1.2 Data Use and Sharing
  - 5.1.3 Health and Health Research
  - 5.1.4 Kids
  - 5.1.5 Location Services
- 5.2 Intellectual Property
- 5.3 Gaming, Gambling, and Lotteries

#### After You Submit – what to expect

---

## Before You Submit

To help your app approval go as smoothly as possible, review the common missteps listed below that can slow down the review process or trigger a rejection. This doesn't replace the guidelines or guarantee approval, but making sure you can check every item on the list is a good start.

Make sure you:

А ЧТО ЖЕ ДЕЛАТЬ С UI?

# ТРЕБОВАНИЯ К UI ПРИЛОЖЕНИЯ

As an app designer, you have the opportunity to deliver an extraordinary product that rises to the top of the App Store charts. To do so, you'll need to meet high expectations for quality and functionality.

Three primary themes differentiate iOS from other platforms:

- **Clarity.** Throughout the system, text is legible at every size, icons are precise and lucid, adornments are subtle and

У ВАС ЕСТЬ ЗНАНИЯ, У ВАС ЕСТЬ IPHONE

### What to Test

- Use Touch ID to view orders and access EasyPay receipts.
- Make a reservation at an Apple Store.
- Test support for two-step verification.
- Check Apple Watch support for order status updates.
- Check Apple Watch support for Genius Bar reservations.
- Check Apple Watch support for nearby in-store events and workshops.

### Description

Shop for Apple products and accessories, and get the most from your visits to the Apple Retail Store. Start your order on one device and finish it on another. Get items... [more](#)

### Information

Developer	Apple
Release Date	June 16, 2015
Version	3.3.1 (100)
Size	22.3 MB
Expires	July 16, 2015 at 5:00pm
Compatibility	Requires iOS 7.0 or later. Compatible with iPhone, iPad, and iPod touch. This app is optimized for iPhone 5, iPhone 6, and iPhone 6 Plus.
