Imagine that you are doing a project on **what are the most popular teenage hobbies in Zetland**. You have found some data on the subject (see the diagram below). **Comment on the data in the diagram and give your personal opinion on the subject of the project.**

Use the following plan:

- make an opening statement on the subject of the project work;
- select and report 2–3 main features;
- make 1–2 comparisons where relevant;
- outline a problem that can arise with hobbies for teenagers and suggest the way of solving it;
- draw a conclusion giving your personal opinion on the hobbies for teenagers.

– make an opening statement on the subject of the project work;

- The aim of this project work is to analyse what **hobbies are the most preferable among the teenagers in Zetland**. I have found some data regarding this question and am going to outline several key features of the results of the poll. (40 words)
-
- My project aims to investigate **what hobbies are the most preferable among the teenagers in Zetland**. I have found and analysed the public opinion data on the subject of my report.
- (31 words)

- – select and report 2–3 main features:

- *Looking at the details, **most children enjoy spending their free time using gadgets, for instance, blogging or designing mems there - 60 and 52 percent respectively. On the contrary, the least popular hobby is dancing (only 14% of respondents), which is not surprising given that (учитывая ,что...) more and more teenagers prefer the Internet to real life.*** (54 words)

- – make 1–2 comparisons where relevant;

According to the diagram/table, **cooking** appears to be more popular than painting, as there are 46.2% of teenagers preparing something delicious in the kitchen, which is around twice as many as the figure for **drawing**. It can be explained that **not all the people have any abilities to art**. (49 words)

- – outline a problem that can arise with hobbies for teenagers and suggest the way of solving it;
- One problem that can be deduced from the data is that modern teenagers prefer hobbies which are connected with the Internet. Such classic activities as painting and drawing significantly inferior(существенно уступают) nowadays. However, there is a possible solution to this problem. Schools should organise Art and Dance clubs in order to draw teenagers' attention to cultural hobbies and awaken their interest.(60 words)

- – draw a conclusion giving your personal opinion on the hobbies for teenagers.
- *In my opinion, the Internet and gadgets are an integral part of teenagers' life because they provide us with a wide range of opportunities. Due to them children not only get useful information or broaden their minds but they can realise themselves in the virtual space like being a blogger or a mem-designer. However, one should not forget that real life is also interesting and very essential. While dancing, painting or even cooking teenagers can also express and develop themselves.*
